Global Perspectives on Trade Integration and Economies in Transition

Part of the Advances in Finance, Accounting, and Economics Book Series

Vasily Erokhin (Moscow University of Finance and Law, Russia)

Description:

In the era of globalization, foreign trade has an immense impact upon modern economies. To succeed in the global marketplace, sustainable development in trade practices is an imperative goal for countries to reach.

**Global Perspectives on Trade Integration and Economies in Transition** is an authoritative reference source for the latest research on the dynamics of transitional economies and how certain obstacles can disrupt the effectiveness of the transition process. Highlights the value of trade incorporation at the national and international levels.

Readers:

This book is ideally designed for researchers, professionals, government officials, policy makers, and upper-level students interested in the intersection of globalization, trade, and international economics.
