Strategic Management of Sustainable Manufacturing Operations

Part of the Advances in Logistics, Operations, and Management Science (ALOMS) Book Series

Rameshwar Dubey (Symbiosis International University, India) and Angappa Gunasekaran (University of Massachusetts, Dartmouth, USA).

Description:

As companies and organizations continue to grow economically, it has become pertinent to also implement business and management practices that help relieve environmental and social stressors created by manufacturing processes.

Strategic Management of Sustainable Manufacturing Operations features an inclusive overview of various management practices that contribute to the sustainability efforts of an organization. Highlights successful techniques being implemented and utilized by different companies.

Readers:

This publication is an essential reference source for researchers, academics, consultants, policy makers, and practitioners interested in sustainable performance measurement, supply chain design, and operations management.

Topics Covered:

- Ecological Modernization Theory
- Employee Retention
- Environmental Accounting
- Green Supply Chain
- Global Supply Chain
- Social Sustainability
- Sustainable Procurement
