About IGI Global

Headquartered in Hershey, Pennsylvania, IGI Global is a leading international academic publisher committed to facilitating the discovery of pioneering research that enhances and expands the body of knowledge available to the research community. Working in close collaboration with expert researchers and professionals worldwide, IGI Global disseminates vetted, quality content within 11 core subject areas, including business, computer science, education, engineering, and social sciences and humanities.

As IGI Global is celebrating 30 years of publishing excellence, the publisher has an ever-expanding portfolio of over 4,000 reference books, 175 highly-indexed journals, 100 video lectures, and a broad collection of InfoSci®-Databases. InfoSci-Databases host IGI Global’s entire collection of advanced e-books, e-journals, and videos, and cover the most sought-after research concepts on one user-friendly platform.

Research Insights Publications

Research Insights deliver highly-focused, concise summaries and analyses on trending fields. Additionally, they are:

- Produced in an expeditious fashion (approximately 4-6 months from concept to distribution).
- Around 150-200+ pages in length and available in electronic and hardcover.
- Double-blind peer reviewed by an esteemed advisory board.
- Suitable for use by academic researchers, corporate researchers, professionals, graduate students, practitioners, and instructors.

Look for the icon when browsing through the catalog to identify this specialized line of publications.

InfoSci®-Books

A database of 4,500+ reference books offering unlimited simultaneous users the ability to precisely search through more than 88,000 full-text PDF and XML chapters.

Business and Management

IGI Global’s Business and Management subject area addresses the need for forward-thinking research geared toward the advancement of concepts, theories, and applications that allow organizations and professionals to not only survive, but also thrive. Knowledge seekers will benefit from the latest research and discussions encompassing the successes, pitfalls, and future directions of different organizational, management, and planning objectives in a multitude of industries and fields. Topics include, but are not limited to, hospitality and tourism, fashion and textiles, automotive, banking, healthcare, airline, food and beverage, and many others.

All IGI Global Business and Management titles are available in the InfoSci®-Business and Management subject database.
Brand Culture and Identity: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

A vital reference source for the latest research findings on the use of theoretical and applied frameworks of brand awareness and culture.

Sentiment Analysis and Knowledge Discovery in Contemporary Business

Dharmendra Singh Rajput (VIT University, India), et al.

An essential reference source that discusses applications of sentiment analysis as well as data mining, machine learning algorithms, and big data streams in business environments.

Managing Diversity, Innovation, and Infrastructure in Digital Business

Nilanjan Ray (Adamas University, India)

A collection of innovative research on new avenues in overall digital infrastructures, digital modern business infrastructures, business automation, and financial aspects of modern businesses. This book is ideally designed for business professionals, managers, and undergraduate and postgraduate business students seeking current research on business in the digital environment.

Corporate Insolvency Law and Bankruptcy Reforms in the Global Economy

Amit Kashyap (Nirma University, India)

An essential reference source that discusses the importance of insolvency laws in the financial architecture of emerging economies, as well as its fundamental issues.

Crowdsourcing and Knowledge Management in Contemporary Business Environments

Regina Lenart-Gansiniec (Jagiellonian University, Poland)

A collection of innovative research on the methods and applications of crowdsourcing in collaboration, idea implementation, and organizational development. This book is ideally designed for business managers, business professionals, business and social researchers, graduate-level students, and academicians.

Co-Manufacturing and New Economic Paradigms

Giulio Focardi (Osun WES, Italy) and Lorenza Salati (Osun WES, Italy)

Provides innovative insights into shared workspaces as independent socio-economic environments. The content within this publication explores the ideas of knowledge sharing, work culture, and economic planning.

Contemporary Human Resources Management in the Tourism Industry

Demet Tüzünkan (Okan University, Turkey) and Volkan Altnbag (Izmir Katip Celebi University, Turkey)

A pivotal reference source that provides research on the role of human resource departments in creating value for the workplace through innovation and efficient work processes.

Handbook of Research on Microfinancial Impacts on Women Empowerment, Poverty, and Inequality

Ramesh Chandra Das (Katwa College, India)

An essential reference source that discusses the role of financial inclusion in gender equality, as well as economic independence and self-employment. This publication is ideally designed for policy makers, economic researchers, and academicians seeking coverage on social mobilization, capital formation, capacity building, and pro-poor economy designs.
Corporate Social Responsibility: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
A vital reference source on the ways in which corporate entities can implement responsible strategies and create synergistic value for both businesses and society.

Corporate Social Responsibility and Strategic Market Positioning for Organizational Success
Carlton Brown (University of Plymouth, UK), et al.
A critical scholarly resource that explores different approaches to understanding the nexus between business, marketing, technology, education, engagement, and sustainability.

Emerging Economic Models for Global Sustainability and Social Development
Bryan Christiansen (Global Research Society, LLC, USA), et al.
An essential reference source that discusses economic, political, and social environments in the modern age, as well as economic development in an era of global hyper-competition, dwindling natural resources, and a growing global skills gap.

Law, Ethics, and Integrity in the Sports Industry
Konstantinos Margaritis (University of Crete, Greece)
An essential reference source that discusses the legitimacy and integrity of sports institutions by focusing on the social, economic, and political influence of sports.

Software Engineering for Enterprise System Agility: Emerging Research and Opportunities
Sergey V. Zykov (National Research University Higher School of Economics, Russia), et al.
A collection of innovative research that identifies the critical technological and management factors in ensuring the agility of business systems and more.

Strategic Perspectives in Destination Marketing
Mark Anthony Camilleri (University of Malta, Malta)
A collection of innovative research on the methods and applications of branding in the tourism, travel, and hospitality industry sectors. It explores the pedagogical applications of socio-economic, environmental, and technological impacts of tourism through various regional-focused empirical studies and contemporary discussions.

Institutional and Organizational Transformations in the Robotic Era: Emerging Research and Opportunities
Albena Antonova (Sofia University, Bulgaria)
An essential reference source that explores some of the common characteristics of the recent technology transformations and the characteristics of the industrial revolutions. It analyzes recent changes in the global economy, providing evidence of expanding social issues that can undermine further sustainable development.
Utilizing Big Data Paradigms for Business Intelligence

Jérôme Darmont (Université Lumière Lyon 2, France), et al.

A pivotal reference source that provides vital research on how to address the challenges of data extraction in business intelligence using the five "Vs" of big data: velocity, volume, value, variety, and veracity. This book is ideally designed for business analysts, investors, corporate managers, entrepreneurs, and researchers in the fields of computer science, data science, and business intelligence.

Managerial Competencies for Multinational Businesses

Macarena López-Fernández (University of Cádiz, Spain) and Pedro M. Romero-Fernández (University of Cádiz, Spain)

A collection of innovative research on the methods of leadership styles and skills required for managers to be successful in an international company. Highlights a range of topics, including human resource management, industrial relations, and international careers.

Mission-Driven Approaches in Modern Business Education

Brent Smith (Saint Joseph's University, USA)

Provides innovative insights into the ways that mission values can be seamlessly, efficiently, and effectively integrated into the core of any business course to inspire and influence quality business education. The content within this publication represents the work of educators in finance, management, marketing, international business, and other fields.

Creating Business Value and Competitive Advantage With Social Entrepreneurship

N. Oyku iyigun (Istanbul Commerce University, Turkey)

A useful scholarly resource that examines the broad topic of social entrepreneurship by looking at relevant theoretical frameworks and fundamental terms. Focuses on topics such as creating business value, promoting social entrepreneurship, and enacting programs of social change.

Optimizing Millennial Consumer Engagement With Mood Analysis

Sabyasachi Dasgupta (Symbiosis International (Deemed University), India) and Priya Grover (Symbiosis International (Deemed University), India)

A critical scholarly resource that explores how companies ensure brand sustainability through influencing the minds and moods of consumers to create an interactive customer experience. Features coverage on a broad range of topics such product presentation, brand fandom, social media, lifestyle products, and buying behavior.

Smart Marketing With the Internet of Things

Dora Simões (University of Aveiro, Portugal), et al.

An essential reference source that discusses the use of the internet of things in marketing, as well as its importance in enhancing the customer experience. Featuring research on topics such as augmented reality, sensor networks, and wearable technology, this book is ideally designed for business professionals, marketing managers, marketing strategists, academicians, researchers, and graduate-level students seeking coverage on the use of IoT in enhancing customer marketing outcomes.

Effective Open Innovation Strategies in Modern Business: Emerging Research and Opportunities

N. Raghavendra Rao (FINAIT Consultancy Services, India)

A comprehensive resource that focuses on the importance of interdisciplinary concepts in open innovation projects.

Handbook of Research on Knowledge Management for Contemporary Business Environments

Armando Malheiro (University of Porto, Portugal), et al.

A critical scholarly publication that examines the management of knowledge resources in modern business contexts.

Advances in Data Communications and Networking for Digital Business Transformation

Debashis Saha (Indian Institute of Management Calcutta, India)

A critical scholarly resource that examines transformative technologies from the perspective of data communication and networking and research challenges faced by the industry and research and development laboratories.

Diverse Methods in Customer Relationship Marketing and Management

In Lee (Western Illinois University, USA)

A critical scholarly resource that examines how marketing has shifted to a relationship-oriented model.
Social Media Marketing: Breakthroughs in Research and Practice (2 Vols.)
Information Resources Management Association (USA)

Handbook of Research on Expanding Business Opportunities With Information Systems and Analytics
George Leal Jamil (Informações em Rede Consultoria e Treinamento Ltda., Brazil)
A vital scholarly publication that examines technological advancements in data collection that will influence major change in many aspects of business through a multidisciplinary approach.

Utilizing Consumer Psychology in Business Strategy
Tevfik Dalgic (University of Texas at Dallas, USA), et al.

Qualitative Techniques for Workplace Data Analysis
Manish Gupta (IFHE University, India), Musarrat Shaheen (IFHE University, India) and K. Prathap Reddy (IFHE University, India)
An essential reference source that discusses the qualitative methods used to analyze workplace data, as well as what measures should be adopted to ensure the credibility and dependability of qualitative findings in the workplace.

Strategic Optimization of Medium-Sized Enterprises in the Global Market
Milan Vemić (DAI Europe, Serbia)
A critical scholarly resource that highlights the optimization of management functions, such as working capital and marketing, and how to implement sustainable business management practices in the global world market. Features coverage on a broad range of topics such as social entrepreneurship, marketing optimization, and globalization.

Machine Learning Techniques for Improved Business Analytics
Dileep Kumar G. (Adama Science and Technology University, Ethiopia)
A collection of innovative research on the methods and applications of artificial intelligence in strategic business decisions and management. Features coverage on a broad range of topics such as data mining, portfolio optimization, and social network analysis.

Techno-Social Systems for Modern Economical and Governmental Infrastructures
Alexander Troussov (Russian Presidential Academy of National Economy and Public Administration, Russia), et al.
Provides emerging research exploring the theoretical and practical aspects of mining technological and social systems for the creation of scalable methods, systems, and applications within economic and government disciplines.
Knowledge Management and Innovation in Network Organizations: Emerging Research and Opportunities
Jerzy Kisekiewicz (Warsaw University, Poland) and Olga Sobolewska (Warsaw University of Technology, Poland)
An essential scholarly resource that explores the use of information communication technologies in management models and the development of network organizations operating in various sectors of the economy.

Enhancing Competitive Advantage With Dynamic Management and Engineering
Carolina Machado (University of Minho, Portugal) and J. Paulo Davim (University of Aveiro, Portugal)
An essential reference source containing scholarly research on the relevant theoretical frameworks and the latest empirical research findings of strategic administration in engineering. It also explores how to better merge interrelationship organizations, management, and employee needs in order to increase efficiency, productivity, and profitability.

Marketing Techniques for Financial Inclusion and Development
Dhiraj Jain (Symbiosis International University (Deemed), India), et al.
A critical scholarly resource on the marketing techniques adopted by various financial institutions and societies for promoting financial inclusion initiatives for the development of the society at large. Featuring coverage on a broad range of topics such as consumer awareness, financial literacy, and micro-enterprises.

Handbook of Research on Cross-Cultural Business Education
Chandan Maheshkar (University of Indore, India) and Vinod Sharma (Christ Institute of Management, India)
An important research publication that explores the role of teaching tools used in business education to increase competitive business skills and make them applicable in cross-cultural business environments. It also provides business and management educators with teaching practices that promote learning via exposure to global cultures.

Servant Leadership Styles and Strategic Decision Making
Yasir Hayat Mughal (Qurtuba University, Pakistan) and Shahid Kamal (Gomal University, Pakistan)
Provides the relevant theoretical framework and the latest empirical research on servant leadership styles and cognitive styles from an Eastern perspective. Featuring coverage on a variety of topics including autocratic leadership, leadership effectiveness, and organizational support, this book explores decision-making theories as moderators and mediators for leadership effectiveness.

Cases on Quality Initiatives for Organizational Longevity
Archana Krishnan (Institute of Innovation in Technology and Management, India)
A scholarly publication that examines cases on practices in organizations and how they have facilitated transformation over the years. Features coverage on a broad range of topics such as customer loyalty, benchmarking, and employee training.

Globalization and Trade Integration in Developing Countries
Ahu Çoşkun Özer (Marmara University, Turkey)
Provides emerging research on the difficulties and challenges developing countries face in world trade as well as their performance. While highlighting topics such as economic growth, foreign trade policy, and trade competitiveness, this publication explores the trade integrations and commercial trends in advancing countries.
Innovation in the Modern Business Era
Entrepreneurship, Collaboration, and in Contemporary Organizations
Bruno Sergi (Harvard University, USA), et al.

After the Financial Crisis
Regaining Global Stability
and Technology, Botswana), et al.
Norman Gwangwava
(Botswana International University of Science
and Technology, Botswana), et al.

E-Manufacturing and E-Service Strategies in Contemporary Organizations
Norman Gwangwava
(Botswana International University of Science
and Technology, Botswana), et al.

Disruptive Technologies for Business Development and Strategic Advantage
Anatoly V. Zhuplev
(Loyola Marymount University, USA)

Maintaining Sustainable Accounting Systems in Small Business
Luísa Cagica Carvalho (Open University, Portugal)
and Elisa Truant (University of Turin, Italy)

Information Technology as a Facilitator of Social Processes in Project Management and Collaborative Work
Timothy C. Bagwell (Walden University, USA), et al.
The Handbook of Research on Strategic Innovation Management for Improved Competitive Advantage provides emerging research on the use of information and knowledge to promote development in various business agencies. While covering topics such as design thinking, financial analysis, and policy planning, this publication explores the wide and complex relationships that constitute strategic innovation management principals and processes.

Global Business Expansion: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Global Business Expansion: Concepts, Methodologies, Tools, and Applications is a comprehensive reference source for the latest scholarly material on the emergence of new ideas and opportunities in various markets and provides organizational leaders with the tools they need to be successful.
Contemporary Approaches and Strategies for Applied Logistics
Lincoln C. Wood (University of Otago, New Zealand)

Reputation Management Techniques in Public Relations
Ayse Erdemir (Istanbul Commerce University, Turkey)
List Price: US $225 | Hardcover + E-Book: US $270

Contemporary Identity and Access Management Architectures: Emerging Research and Opportunities
Alex Chi Keung Ng (Federation University, Australia)
List Price: US $175 | Hardcover + E-Book: US $210

Research, Practices, and Innovations in Global Risk and Contingency Management
Kenneth David Strang (State University of New York, USA & APPC Research, Australia), et al.

Statistical Tools and Analysis in Human Resources Management
Dipak Kumar Bhattacharya (Xavier University, India)
List Price: US $175 | Hardcover + E-Book: US $210

Building Brand Identity in the Age of Social Media: Emerging Research and Opportunities
Amir Ekhlassi (University of Tehran, Iran), et al.

Modeling and Simulation Techniques for Improved Business Processes
Maryam Ebrahimi (Azad University, Iran)

Business Strategies and Advanced Techniques for Entrepreneurship 4.0
Jose Manuel Saiz-Alvarez (Tecnológico de Monterrey, Mexico)

Optimizing Current Practices in E-Services and Mobile Applications
Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)

Digital Marketing and Consumer Engagement: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)

Accountancy and the Changing Landscape of Integrated Reporting
Ioana Dragu (Babes-Bolyai University, Romania)

Foreign Direct Investments (FDIs) and Opportunities for Developing Economies in the World Market
Venkataramanaiah Malepati (University of Gondar, Ethiopia), et al.

Neuromarketing and Big Data Analytics for Strategic Consumer Engagement: Emerging Research and Opportunities
Joana Coutinho de Sousa (Unlimited-Hashtag, Portugal)

Handbook of Research on Promoting Business Process Improvement Through Inventory Control Techniques
Nita H. Shah (Gujarat University, India), et al.

Supply Chain Management Strategies and Risk Assessment in Retail Environments
Akhilesh Kumar (Indian Institute of Technology Kharagpur, India), et al.
List Price: US $225 | Hardcover + E-Book: US $270

Holistic Approaches to Brand Culture and Communication Across Industries
Sabyasachi Dasgupta (O.P. Jindal Global University, India), et al.
List Price: US $225 | Hardcover + E-Book: US $270

Ethics and Decision-Making for Sustainable Business Practices
Ioana Oncioiu (Titu Maiorescu University, Romania)
List Price: US $225 | Hardcover + E-Book: US $270

Management Strategies and Technology Fluidity in the Asian Business Sector
Patricia Ordóñez de Pablos (University of Oviedo, Spain)
List Price: US $225 | Hardcover + E-Book: US $270

Economic Growth in Latin America and the Impact of the Global Financial Crisis
Mauricio Garita (Universidad del Valle de Guatemala, Guatemala), et al.

Management Control Systems in Complex Settings
Nita H. Shah (Gujarat University, India), et al.

Managing Control Systems in Complex Settings
Nita H. Shah (Gujarat University, India), et al.

Global Perspectives on Religious Tourism and Pilgrimage
Hatem El-Gohary (Birmingham City University, UK & Cairo University, Egypt), et al.

Professors: Your expert opinion counts. Recommend IGI Global publications to your institution’s librarian today.
Multi-Platform Advertising Strategies in the Global Marketplace
Kenneth C. C. Yang (The University of Texas at El Paso, USA)
List Price: US $295 Hardcover + E-Book: US $245

Value Sharing for Sustainable and Inclusive Development
Mario Risso (Nicolò Cusano University, Italy), et al.

Supporting Innovation Through National R&D Programs: Emerging Research and Opportunities
Amiram Porath (Independent Researcher, Israel)

Always-On Enterprise Information Systems for Modern Organizations
Nijaz Bajgoric (University of Sarajevo, Bosnia and Herzegovina)

Arab Women and Their Evolving Roles in the Global Business Landscape
Ebtihaj Al-Ali (University of Bahrain, Bahrain), et al.

Risk and Contingency Management: Breakthroughs in Research and Practice
Information Resources Management Association (USA)

Knowledge Integration Strategies for Entrepreneurship and Sustainability
Neeta Baporikar (Namibia University of Science and Technology, Namibia & University of Pune, India)

Legal and Economic Considerations Surrounding Reproductive Tourism: Emerging Research and Opportunities
Anastasia Paraskou (CROSSBEES Healthcare Consultancy, Cyprus & Swiss Management Center University, Switzerland), et al.

Driving Green Consumerism Through Strategic Sustainability Marketing
Farzana Quoquab (Universiti Teknologi Malaysia, Malaysia), et al.

Handbook of Research on Technological Developments for Cultural Heritage and eTourism Applications
João M. F. Rodrigues (University of Algarve, Portugal), et al.

Handbook of Research on Applied Optimization Methodologies in Manufacturing Systems
Ömer Furuk Yılmaz (Istanbul Technical University, Turkey & Yalova University, Turkey), et al.

Radical Reorganization of Existing Work Structures Through Digitalization
Punta Duhan (Meera Bai Institute of Technology, India), et al.

Handbook of Research on Entrepreneurial Ecosystems and Social Dynamics in a Globalized World
Luísa Cagica Carvalho (Universidade Aberta, Portugal & Universidade de Évora, Portugal)

Entrepreneurship and Business Development in the Renewable Energy Sector
Adrian Dumitru Tantau (Bucharest University of Economic Studies, Romania), et al.

Operations and Service Management: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)

Uncertainties and Risk Assessment in Trade Relations
Marianne Op (George Mason University, USA)
List Price: US $225 Hardcover + E-Book: US $270

Start-Up Enterprises and Contemporary Innovation Strategies in the Global Marketplace
Rajagopal (EGADE Business School, Tecnologico de Monterrey, Mexico), et al.

Business Architectures for Risk Assessment and Strategic Planning: Emerging Research and Opportunities
James McKee (Wollongong University, Australia)
List Price: US $155 Hardcover + E-Book: US $185

Global Practices in Knowledge Management for Societal and Organizational Development
Neeta Baporikar (Namibia University of Science and Technology, Namibia & University of Pune, India)

Creativity in Workforce Development and Innovation: Emerging Research and Opportunities
Sally Blake (Flagler College, USA), et al.

Digital Marketing Strategies for Fashion and Luxury Brands
Wilson Ozuem (University of Gloucestershire, UK), et al.

User Innovation and the Entrepreneurship Phenomenon in the Digital Economy
Pedro Isaias (The University of Queensland, Australia), et al.

Social Media for Knowledge Management

Vojo Bubleski (Independent Researcher, UK)

Managerial Strategies for Business Sustainability During Turbulent Times

Ranoma-Diana Leon (National University of Political Studies and Public Administration, Romania)
List Price: US $225 | Hardcover + E-Book: US $270

Virtual Traumascapes and Exploring the Roots of Dark Tourism

Maximiliano Korstanje (University of Palermo, Argentina), et al.

Transformative Practice and Research in Organizational Communication

Philip J. Salem (Texas State University, USA), et al.

Social Media for Knowledge Management Applications in Modern Organizations

Francesca Di Virgilio (University of Molise, Italy)

Mobile Commerce: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)
List Price: US $175 | Hardcover + E-Book: US $210

Information Technology Risk Management and Compliance in Modern Organizations

Manish Gupta (State University of New York, Buffalo, USA), et al.
List Price: US $165 | Hardcover + E-Book: US $200

Green Initiatives for Business Sustainability and Value Creation

Arun Kumar Paul (Xavier University, India), et al.
List Price: US $225 | Hardcover + E-Book: US $270

Geopolitics and Strategic Management in the Global Economy

Angelos Presenna (University of Molise, Italy), et al.
List Price: US $225 | Hardcover + E-Book: US $270

Enterprise Resiliency in the Continuum of Change: Emerging Research and Business Sustainability

Raj Kumar Bhattacharai (Tribhuvan University, Nepal)

Driving Traffic and Customer Activity Through Affiliate Marketing

Surabhi Singh (Jaipuria School of Business, India)
List Price: US $175 | Hardcover + E-Book: US $210

Corporate Social Responsibility for Valorization of Cultural Organizations

Maria del Pilar Muñoz Dueñas (University of Vigo, Spain), et al.

Employment Protection Legislation in Emerging Economies

Samir Amine (Universite du Quebec en Outaouais, Canada)

Organizational Leadership for the Fourth Industrial Revolution: Emerging Research and Opportunities

Peter A.C. Smith (The Leadership Alliance Inc., Canada), et al.

Management Techniques for a Diverse and Cross-Cultural Workforce

Naman Sharma (Arity University, India), et al.
List Price: US $225 | Hardcover + E-Book: US $270

Fractal Approaches for Modeling Financial Assets and Predicting Crises

Inna Nekrasova (Southern Federal University, Russia), et al.

Improving Business Performance Through Effective Managerial Training Initiatives

Luisa dall’Acqua (Scientific Lyceum TCO, Italy & Live Editions Inc., USA), et al.

Lean Six Sigma for Optimal System Performance in Manufacturing and Service Organizations: Emerging Research and Opportunities

Edem G. Tetteh (Rowan College at Burlington County, USA), et al.

Improving E-Commerce Web Applications Through Business Intelligence Techniques

G. Sreedhar (Rashtriya Sanskrit Vidyapeetha (Deemed University), India)
List Price: US $225 | Hardcover + E-Book: US $270

Analyzing Attachment and Consumers’ Emotions: Emerging Research and Opportunities

Giuseppe Pedeliento (University of Bergamo, Italy)

Green Computing Strategies for Competitive Advantage and Business Sustainability

Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)
Nature-Inspired Algorithms for Big Data Frameworks

Hema Banati (University of Delhi, India), et al.
A collection of innovative research on the methods and applications of extracting meaningful information from data using algorithms that are capable of handling the constraints of processing time, memory usage, and the dynamic and unstructured nature of data.

Extracting Knowledge From Opinion Mining

Rashmi Agrawal (Manav Rachna International University, India), et al.
An essential resource that presents detailed information on web mining, business intelligence through opinion mining, and how to effectively use knowledge retrieved through mining operations.

The Rise of Fog Computing in the Digital Era

K.G. Srinivas (Chaudhary Brahm Prakash Government Engineering College, India), et al.
Provides innovative insights into the present generation of computing devices, as well as new approaches to computational platforms through fog computing.

Optoelectronics in Machine Vision-Based Theories and Applications

Moises Rivas-Lopez (Autonomous University of Baja California, Mexico), et al.
Provides innovative insights on theories and applications of optoelectronics in machine vision-based systems.

Novel Design and Applications of Robotics Technologies

Dan Zhang (York University, Canada), et al.
Provides innovative insights into the state-of-the-art technologies in the design and development of robotic technologies and their real-world applications.

Algorithms, Methods, and Applications in Mobile Computing and Communications

Agustinus Borgy Waluyo (Monash University, Australia)
Examines the various aspects of mobile computing and communications from engineering, business, and organizational perspectives.
Exploring Critical Approaches of Evolutionary Computation
Muhammad Sarfraz (Kuwait University, Kuwait)
A vital scholarly publication that explores the latest developments, methods, approaches, and applications of evolutionary models in a variety of fields. It also emphasizes evolutionary models of computation such as genetic algorithms, evolutionary strategies, classifier systems, evolutionary programming, genetic programming, and related fields such as swarm intelligence and other evolutionary computation techniques.

Applications of Security, Mobile, Analytic, and Cloud (SMAC) Technologies for Effective Information Processing and Management
P. Karthikeyan (Thiagarajar College of Engineering, India) and M. Thangavel (Thiagarajar College of Engineering, India)
A vital resource that discusses various research findings and innovations in the areas of big data analytics, mobile communication and mobile applications, distributed systems, and information security.

Smart Grid Analytics for Sustainability and Urbanization
Zbigniew H. Gontar (SGH Warsaw School of Economics, Poland)
Provides emerging research on the development of information technology and communication systems in smart cities and smart grids. While highlighting topics such as process mining, innovation management, and sustainability optimization, this publication explores technology development and the mobilization of different environments in smart cities.

Vehicular Cloud Computing for Traffic Management and Systems
Jyoti Grover (Manipal University Jaipur, India), et al.
Provides innovative research on the rapidly advancing applications of vehicle-to-vehicle and vehicle-to-infrastructure communication. It also covers the need to fully utilize vehicular ad-hoc network (VANET) resources to provide updated and dynamic information about the conditions of road traffic so that the number of road accidents can be minimized.

Optimization Techniques for Problem Solving in Uncertainty
Surafel Luleseged Tilahun (University of Zululand, South Africa) and Jean Medard T. Ngnotchouye (University of KwaZulu-Natal, South Africa)
A scholarly reference resource that looks at uncertain aspects involved in different disciplines and applications. Featuring coverage on a wide range of topics including uncertain preference, fuzzy multilevel programming, and metaheuristic applications, this book is geared towards engineers, managers, researchers, and post-graduate students seeking emerging research in the field of optimization.

Handbook of Research on Investigations in Artificial Life Research and Development
Maki Habib (The American University in Cairo, Egypt)
A vital scholarly reference source that examines emergent research in handling real-world problems through the application of various computation technologies and techniques. Examining topics such as computational intelligence, multi-agent systems, and fuzzy logic, this publication is a valuable resource for academicians, scientists, researchers, and individuals interested in artificial intelligence developments.
The Premier Reference for Information Science & Technology

Encyclopedia of Information Science and Technology, Fourth Edition

Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)
ISBN: 978-1-5225-2255-3; © 2018; Pg: 8,104; Release Date: June 1st, 2017

Take 50% off* when purchasing the Encyclopedia directly through IGI Global’s Online Bookstore. Plus, receive the complimentary e-books for the first, second, and third editions with the purchase of the Encyclopedia of Information Science and Technology, Fourth Edition e-book.**

This offer provides over 1,900 additional in-depth articles that discuss concepts, issues, and challenges that are still relevant today. Discover first-hand why these ground-breaking publications have become the foremost sources of knowledge for all aspects of information science and technology. Don’t miss this opportunity to own the full historical set at an unprecedented price!

The Encyclopedia of Information Science and Technology, Fourth Edition is a 10-volume set which includes 705 original and previously unpublished research articles covering a full range of perspectives, applications, and techniques contributed by thousands of experts and researchers from around the globe. This authoritative encyclopedia is an all-encompassing, well-established reference source that is ideally designed to disseminate the most forward-thinking and diverse research findings. With critical perspectives on the impact of information science management and new technologies in modern settings, including but not limited to computer science, education, healthcare, government, engineering, business, and natural and physical sciences, it is a pivotal and relevant source of knowledge that will benefit every professional within the field of information science and technology and is an invaluable addition to every academic and corporate library.
Mehdi Khosrow-Pour, who also edited the first three editions of the renowned Encyclopedia of Information Science and Technology, Fourth Edition is edited by the esteemed Dr. Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)

The Encyclopedia of Information Science and Technology, Fourth Edition is edited by the esteemed Dr. Mehdi Khosrow-Pour, who also edited the first three editions of the renowned Encyclopedia of Information Science and Technology. As the author/editor of more than 50 books in information technology management, Dr. Khosrow-Pour lends over 30 years of expertise to this prominent publication.

Critical Developments and Applications of Swarm Intelligence
Yuhui Shi (Southern University of Science and Technology, China)

Intelligent Systems: Concepts, Methodologies, Tools, and Applications (4 Vols.)
Information Resources Management Association (USA)
Contains a compendium of the latest academic material on the latest breakthroughs and recent progress in intelligent systems. Includes innovative studies on information retrieval, artificial intelligence, and software engineering.

Handbook of Research on Cloud and Fog Computing Infrastructures for Data Science
Pethuru Raj (Reliance Jio Infocomm. Ltd., India) and Anupama Raman (Societe Generale Global Solution Center, India)
A key reference volume on the latest research on the role of next-generation systems and devices that are capable of self-learning and how those devices will impact society. Features wide-ranging coverage across a variety of relevant views and themes such as cognitive analytics, data mining algorithms, and the internet of things.

Advanced Synchronization Control and Bifurcation of Chaotic Fractional-Order Systems
Abdesselem Boukloune (Jijel University, Algeria) and Samir Ladaci (National Polytechnic School of Constantine, Algeria)
A scholarly publication that explores new developments related to novel chaotic fractional-order systems, control schemes, and their applications. Features coverage on a wide range of topics including chaos synchronization, nonlinear control, and cryptography.

Innovative Methods, User-Friendly Tools, Coding, and Design Approaches in People-Oriented Programming
Steve Goschnick (Swinburne University of Technology, Australia)
A critical scholarly resource that examines development and customization user interfaces for advanced technologies and how these interfaces can facilitate new developments in various fields. Features coverage on a broad range of topics such as role-based modeling, end-user composition, and wearable computing.

Analysis and Applications of Lattice Boltzmann Simulations
Pedro Valero-Lara (Barcelona Supercomputing Center (BSC), Spain)
Provides emerging research on the efficient and standard implementations of simulation methods on current and upcoming parallel architectures. While highlighting topics such as hardware accelerators, numerical analysis, and sparse geometries, this publication explores the techniques of specific simulators as well as the multiple extensions and various uses computing, and numerical and flow simulations.
Cyber-Physical Systems for Next-Generation Networks
Joel J. P. C. Rodrigues (National Institute of Telecommunications (Inatel), et al.
Provides emerging research on using cyber-physical systems (CPS) as a method to control design and operation of intelligent systems through next-generation networks. Highlights issues such as increasing CPS complexity due to components within physical and industrial systems.

Handbook of Research on Pattern Engineering System Development for Big Data Analytics
Vivek Tiwari (International Institute of Information Technology, India), et al.
A critical scholarly resource that examines the incorporation of pattern management in business technologies as well as decision making and prediction process through the use of data management and analysis.

Advancements in Computer Vision and Image Processing
Jose Garcia-Rodriguez (University of Alicante, Spain)
A critical scholarly resource that explores the impact of new technologies on computer vision and image processing methods in everyday life. Features coverage on a wide range of topics including 3D visual localization, cellular automata-based processing methods, and eye and face recognition.

Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
A comprehensive reference source for the latest scholarly material on the trends, techniques, and uses of virtual and augmented reality in various fields, and it examines the benefits and challenges of these developments. Highlights a range of pertinent topics, such as human-computer interaction, digital self-identity, and virtual reconstruction.

Optimizing Contemporary Application and Processes in Open Source Software
Mohdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)
A critical scholarly resource that explores the impact of new technologies on computer vision and image processing methods in everyday life. Features coverage on a wide range of topics including 3D visual localization, cellular automata-based processing methods, and eye and face recognition.

Fuzzy Logic Dynamics and Machine Prediction for Failure Analysis
Tawanda Mushiri (University of Johannesburg, South Africa), et al.
A critical scholarly resource that examines relevant theoretical frameworks, current practice guidelines, industry standards, and the latest empirical research findings in web-based systems. Featuring coverage on a wide range of topics such as data integration, mobile applications, and semantic web, this publication is geared toward computer engineers, IT specialists, software designers, professionals, researchers, and upper-level students seeking current and relevant research on the prevalence of these systems and advancements made to them.
### Handbook of Research on Big Data Storage and Visualization Techniques (2 Vols.)

Richard S. Segall (Arkansas State University, USA) and Jeffrey S. Cook (Independent Researcher, USA)

A critical scholarly resource that explores big data analytics and technologies and their role in developing a broad understanding of issues pertaining to the use of big data in multidisciplinary fields. Features coverage on a broad range of topics, such as architecture patterns, programing systems, and computational energy.

#### ISBN:
- 978-1-5225-3142-5

- Hardcover: US $665
- E-Book: US $665
- Hardcover + E-Book: US $680

### Aligning Perceptual and Conceptual Information for Cognitive Contextual System Development: Emerging Research and Opportunities

Gary Kuvich (IBM, USA)

An innovative source of academic content on approaches to cognitive and perceptual systems development in artificial intelligence. Including a range of relevant topics such as object processing, implicit symbols, and knowledge representation, this book is ideally designed for engineers, academics, practitioners, and students interested in perceptual and conceptual interpretation in artificial intelligence.

#### ISBN:
- 978-1-5225-2431-1
- 978-1-5225-2432-8

#### Pricing
- Hardcover: US $165
- E-Book: US $165
- Hardcover + E-Book: US $195
**Education**

IGI Global’s Education subject area pioneers the latest theories and practices that pave the way for better teaching and learning experiences, both in a classroom and online setting. Through studies that examine the use of educational technologies, new directions in curriculum development and instructional design, and some of the latest issues in leadership and administration, readers will find coverage of some of the most innovative practices that encourage structure, inclusivity, and engagement at all ages and levels.

All IGI Global Education titles are available in the InfoSci®-Education subject database.
Handbook of Research on Engineering Education in a Global Context (2 Vols.)
Elena V. Smirnova (Bauman Moscow State Technical University, Russia), et al.

Provides innovative insights into the importance of quality training and preparation for engineering students. It explores the common and current problems encountered in areas such as quality and standards, management information systems, innovation and enhanced learning technologies in education, as well as the challenges of employability, entrepreneurship, and diversity.

Diverse Learning Opportunities Through Technology-Based Curriculum Design
Demetrick Williams (Rowan University, USA) and N. Nsombi Harkness (The Independence Center CNA School, USA)

Provides innovative insights into the development and advancement of online instruction and educational technology to engage students from diverse backgrounds. The content within this publication addresses academic performance, technology integration, and online learning.

Implicit Pedagogy for Optimized Learning in Contemporary Education
Jurka Lepičnik Vodopivec (University of Primorska, Slovenia), Lucija Jančec (Dormitory “Podmurvice” Rijeka, Croatia) and Tina Štemberger (University of Primorska, Slovenia)

A pivotal reference source that provides vital research on the application of assessment methods for the evaluation of indirect and direct educational methods. While highlighting topics such as language development, teacher agency, and learning process, this publication explores hidden curricula as well as the methods of learning outside of the prescribed school curriculum.

Open and Social Learning in Impact Communities and Smart Territories
Lídia Oliveira (University of Aveiro, Portugal) and Ana Luísa Rego Melro (University of Aveiro, Portugal)

An essential reference source that discusses the learning processes in impact communities and in smart territories through case studies and other research methods. Featuring research on topics such as learning processes, smart communities, and social entrepreneurship, this book is ideally designed for entrepreneurs, managers, academicians, and researchers seeking coverage on the concept of impact communities and smart territories.

Educational Research in the Age of Anthropocene
Vicente Reyes (University of New England, Australia), et al.

Provides innovative insights into the importance of educational research exploring the theoretical and practical aspects of digital games and technological resources and applications within contemporary education. Features coverage on a broad range of topics such as digital integration, educational simulation, and learning theories.

Creating Caring and Supporting Educational Environments for Meaningful Learning
Kisha Daniels (Duke University, USA), et al.

An essential reference source that provides innovative insights into the development and advancement of online instruction and educational technology to engage students from diverse backgrounds. The content within this publication addresses academic performance, technology integration, and online learning.

Advanced Online Education and Training Technologies
Maki Habib (The American University in Cairo, Egypt)

An essential reference source that explores student and teacher learning through various online platforms. Featuring research on topics such as professional development in the twenty-first century and cultural differences in online learning environments, this book is ideally designed for educators, students, academicians, and other education professionals seeking coverage on enhanced student learning through technology-based learning tools.

Multicultural Andragogy for Transformative Learning
David P Peltz (University of Phoenix, USA), et al.

Features research on topics such as learning processes, smart communities, and social entrepreneurship, this book is ideally designed for entrepreneurs, managers, academicians, and researchers seeking coverage on the concept of impact communities and smart territories.

Handbook of Research on Promoting Higher-Order Skills and Global Competencies in Life and Work
Jared Keengwe (University of North Dakota, USA), et al.

All IGI Global books are available online through the InfoSci® Platform. For more information on IGI Global’s InfoSci® Platform, please visit www.igi-global.com/e-resources.
Emerging Research and Opportunities

Autism-Focused Virtual Communities: In the Global Marketplace and Opportunities for Growth

Krishna Bista (Morgan State University, USA), et al.

Provides emerging research exploring the theoretical and practical aspects of nontraditional education and applications within curriculum development and instructional design. Features coverage on a broad range of topics such as experiential learning, instructional design, and formative assessment.

Mentorship Strategies in Teacher Education

Kenan Dikilitas (Bahçeşehir University, Istanbul, Turkey), et al.

Examining the Teacher Induction Process in Contemporary Education Systems

Mustafa Öztürk (Hacettepe University, Turkey) and Paul Robert Hoard (Hacettepe University, Turkey)

Addresses the construct of teacher induction through theoretical and empirical research. It also provides an in-depth conceptualization of being a novice teacher through micro-political realities of teaching in different geographical and cultural regions.

Social Media in Education: Breakthroughs in Research and Practice

Information Resources Management Association (USA)

Handmade Teaching Materials for Students With Disabilities

Shigeru Ikuta (Otsuma Women's University, Japan)

Provides emerging research exploring the theoretical and practical aspects of materials and technology made to help teachers in providing content and aid for students with disabilities and their applications within education. Features coverage on a broad range of topics such as assistive technologies, instructional practice, and teaching materials, provided for teachers of disabled students.

International Student Mobility and Opportunities for Growth in the Global Marketplace

Krishna Bista (Morgan State University, USA)

Teaching Literature and Language Through Multimodal Texts

Elena Domínguez Romero (Universidad Complutense de Madrid, Spain), et al.

Provides innovative insights into multiple language teaching modalities for the teaching of language through literature in the context of primary, secondary, and higher education. It covers a wide range of good practice and innovative ideas and offers insights on the impact of such practice on learners, with the intention to inspire other teachers to reconsider their own teaching practices.

English as a Foreign Language Teachers' TPACK: Emerging Research and Opportunities

Mehrak Rahimi (Shahid Rajaee Teacher Training University, Iran) and Shakka Poumehrabz (Shahid Rajaee Teacher Training University, Iran)

Provides emerging research exploring the theoretical and practical aspects of materials and technology made to help teachers in providing content and aid for students with disabilities and their applications within education. Features coverage on a broad range of topics such as assistive technologies, instructional practice, and teaching materials, provided for teachers of disabled students.

Outcome-Based Strategies for Adult Learning

Janice E. Jones (Cardinal Stritch University, USA), et al.

Provides emerging research exploring the theoretical and practical aspects of nontraditional education and applications within curriculum development and instructional design. Features coverage on a broad range of topics such as experiential learning, instructional design, and formative assessment.

Global Perspectives on Social Media in Tertiary Learning and Teaching: Emerging Research and Opportunities

Inna Piven (Unitec Institute of Technology, New Zealand), et al.

Globalized Curriculum Methods for Modern Mathematics Education

Adedeji Tella (University of Ibadan, Nigeria)

A comprehensive and timely publication that contains the latest research in mathematics education and modern globalized curriculum development and technologies. The book examines subjects such as teaching competencies, digital games for teaching and learning mathematics, and the challenges and prospects of globalized science curriculum.
Technology-Supported Teaching and Research Methods for Educators
Lazarus Ndiku Makewa (Lukeny University, Kenya),
Baraka Manjale Ngussa (University of Arusha, Tanzania) and Joshua Michael Kuboja (University of Arusha, Tanzania)

Provides innovative insights into the utilization and maintenance of technology-supported teaching and research methods for educators. The content within this publication represents the work of e-learning, digital technologies, and current issues and trends in the field of teaching and learning in the context of contemporary technologies.

Metasystems Learning Design of Open Textbooks: Emerging Research and Opportunities
Elena Railean
(University of European Studies, Moldova)

An essential reference source that discusses the role of open education in improving the quality of education, as well as facilitating policy dialogue, knowledge sharing, and capacity building. This book is ideally designed for educators, academicians, education administrators, curriculum developers, and researchers.

Design, Motivation, and Frameworks in Game-Based Learning
Wee Hoe Tan
(Sultan Idris Education University, Malaysia)

A critical scholarly resource that examines the themes of game-based learning. These themes, through a multidisciplinary perspective, juxtapose successful practices. Featuring coverage on a broad range of topics such as educational game design, gamification in education, and game content curation, this book is geared towards academicians, researchers, and students seeking current research on justifying the roles and importance of motivation in making games fun and engaging for game-based learning practice.

Coaching for Student Retention and Success at the Postsecondary Level: Emerging Research and Opportunities
Ruth Claire Black (Imperial College London, UK)

A pivotal reference source that provides vital research on the application of student support systems as a promising intervention for post-secondary retention and student success. While highlighting topics such as student assessment, online programs, and professional identity, this publication explores support strategies that boost retention, as well as the methods of using support and guidance to promote student success.

Emerging Trends, Techniques, and Tools for Massive Open Online Course (MOOC) Management
Ricardo Queirós
(Polytechnic Institute of Porto, Portugal)

A critical scholarly resource that examines the importance of effective professional development for educators planning and teaching online or blended courses. It also establishes the benefits of technology-mediated learning environments over traditional learning methods.

Handbook of Research on Virtual Training and Mentoring of Online Instructors
Jared Keengwe (University of North Dakota, USA)

A critical scholarly resource that highlights the issues, challenges, and online engagement experiences to enhance effective teaching and learning in this learning environment. Featuring coverage on a broad range of topics such as media literacy, professional development, and virtual learning environments, this book is geared towards educational administrators, educators, and instructional designers interested in quality online instruction.

Handbook of Research on Blended Learning Pedagogies and Professional Development in Higher Education
Jared Keengwe (University of North Dakota, USA)

A critical research publication that delves into the importance of effective professional development for educators planning and teaching online or blended courses. It also establishes the benefits of technology-mediated learning environments over traditional learning methods.

Computer-Mediated Learning for Workforce Development
Dominic Mentor
(Teachers College, Columbia University, USA)

- Engineering
- Environmental, Agricultural, and Physical Sciences
- Education
- Government and Law
- Library and Information Science
- Medical, Healthcare, and Life Sciences
- Media and Communications
- Social Sciences and Humanities

Index
Engineering

IGI Global’s Engineering subject area highlights different methods, applications, discoveries, and dialogues on some of the most prevalent research topics, including energy optimization, structural engineering, metal-corrosion protection, hydropower, biomedical robotics, petroleum engineering, flood prevention, and others. Those currently practicing and researching will find these resources to provide well-rounded accounts of the latest successes, pitfalls, and future directions in their respective area of specialty.

All IGI Global Engineering titles are available in the InfoSci®-Engineering subject database.

The Geometry of Higher-Dimensional Polytopes
Gennadiy Vladimirovich Zhizhin
(Russian Academy of Sciences, Russia)
Contains innovative research on the methods and applications of the structures of binary compounds. It explores the study of geometry polytopes from a higher-dimensional perspective, taking into account the features of polytopes.

Handbook of Research on Methods and Tools for Assessing Cultural Landscape Adaptation
Isabel de Sousa Rosa
(University of Lisbon, Portugal), et al.
Provides emerging research on the cultural relationships between a community and the ecological system in which they live.

E-Planning and Collaboration: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
Contains a compendium of the latest academic material on the emerging interdisciplinary areas of e-planning and collaboration.

Electronic Nose Technologies and Advances in Machine Olfaction
Yousif Albastaki (University of Bahrain, Bahrain), et al.
An academic scholarly resource that examines the emerging applications of odor-sensing devices as well as a better understanding of the designing process with the aid of neural networks and various other technologies.

Handbook of Research on Ergonomics and Product Design
Juan Luis Hernández Arellano (Autonomous University of Ciudad Juárez, Mexico), et al.
A critical scholarly resource that provides new theories, methodologies, and applications of ergonomics and product design and redesign.

Recent Advancements in Airborne Radar Signal Processing: Emerging Research and Opportunities
Amir Almslmany (Independent Researcher, Egypt)
A critical scholarly resource exploring an airborne radar system that will help to improve the function of airborne radar and self-deception spoofing jammer sources.
Smart Cities and Smart Spaces: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
An innovative reference source that discusses social, economic, and environmental issues surrounding the evolution of smart cities.

Optimal Power Flow Using Evolutionary Algorithms
Provas Kumar Roy (Kalayani Government Engineering College, India), et al.
Provides emerging research exploring the theoretical and practical aspects of optimizing power system operation through advanced electronic power devices.

Non-Conventional Machining in Modern Manufacturing Systems
Kaushik Kumar (Birla Institute of Technology, India), et al.
Provides emerging research exploring the theoretical and practical aspects of technological advancements in industrial environments and applications in manufacturing.

Emerging Synthesis Techniques for Luminescent Materials
Ratnesh Tiwari (Bhilai Institute of Technology, India), et al.
A critical scholarly resource that explores the important field of emerging synthesis techniques of luminescent materials and its practical applications. Features coverage on a broad range of topics such as electroluminescence, glow curve analysis, and more.

Contemporary Strategies and Approaches in 3-D Information Modeling
Bimal Kumar (Glasgow Caledonian University, UK)
A critical scholarly resource that examines building information modeling and the integration of 3-D information in the urban built environments. Features coverage on a broad range of topics such as integrated project delivery, design collaboration, and 3-D model visualization.

New Approaches, Methods, and Tools in Urban E-Planning
Carlos Nunes Silva (University of Lisbon, Portugal)
A key resource for the latest academic research on recent innovations in urban e-planning, citizen e-participation, the use of social media, and new forms of data collection and idea generation for urban planning.

Wearable Technologies: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
A comprehensive reference source for the latest scholarly material on the development and implementation of wearables within various environments, emphasizing the valuable resources offered by these advances.

Multidisciplinary Approaches to Service-Oriented Engineering
Mehdi Khoosrow-Pour, D.B.A. (Information Resources Management Association, USA)
A well-rounded collection of research that examines methods of providing optimal system design for service systems and applications engineering. Explores topics such as cloud ecosystems, interface localization, and requirement prioritization.

Composites and Advanced Materials for Industrial Applications
K. Kumar (Birla Institute of Technology, India) and J. Paulo Davim (University of Aveiro, Portugal)
A critical scholarly resource that examines recent advances in the field of application of composite materials. Features coverage on a broad range of topics such as nanocomposites, hybrid composites, and fabrication techniques.
Intelligent Transportation and Planning: Breakthroughs in Research and Practice (2 Vols.)

Information Resources Management Association (USA)

An innovative reference source for the latest academic material on the applications, management, and planning of intelligent transportation systems.

Design Solutions for nZEB Retrofit Buildings

Elzbieta Rynska (Warsaw University of Technology, Poland), et al.

A critical scholarly resource that examines the importance of creating architecture that not only promotes the daily function of these buildings, but is also environmentally sustainable.

Electromagnetic Compatibility for Space Systems Design

Christos D. Nikolopoulos (National Technical University of Athens, Greece)

A critical scholarly resource that examines the applications of electromagnetic compatibility and electromagnetic interference in the space industry. Features coverage on a wide range of topics, such as magnetometers, electromagnetic environmental effects, and electromagnetic shielding.

Dynamic Knowledge Representation in Scientific Domains

Cyril Pshenichny (ITMO University, Russia), et al.

Provides emerging research on the internal and external changes in knowledge within various subject areas and their visual representations. Highlights topics such as behavior diagrams, distribution analysis, and qualitative modeling.

Modeling and Simulations for Metamaterials: Emerging Research and Opportunities

Ammar Armghan (Alijouf University, Saudi Arabia), et al.

A critical scholarly resource that examines the physics of metamaterials with an emphasis on negative-index metamaterials and their applications at terahertz frequencies.

Design and Optimization of Mechanical Engineering Products

K. Kumar (Birla Institute of Technology, India) and J. Paulo Davim (University of Aveiro, Portugal)

An essential research source that explores the structure and processes used in creating goods and the methods by which these goods are improved in order to continue competitiveness in the consumer market. Features coverage on a broad range of topics including modeling and simulation, new product development, and multi-criteria decision making.

Stochastic Methods for Estimation and Problem Solving in Engineering

Sefedine Kadry (Beirut Arab University, Lebanon)

Provides emerging research on the role of random probability systems in mathematical models used in various fields of research. Highlights topics such as random probability distribution, linear systems, and transport profiling.
Environmental, Agricultural, and Physical Sciences

IGI Global’s Environmental, Agricultural, and Physical Sciences subject area offers innovative solutions and emerging technologies essential for the successful stabilization of the environment and its inhabitants. Individuals pursuing dynamic investigations of different methods, theories, and policies currently being utilized and/or introduced for achieving long-term sustainability on local and international levels will find these titles to be extremely useful.

All IGI Global Environmental, Agricultural, and Physical Sciences titles are available in the InfoSci®-Environmental, Agricultural, and Physical Sciences subject database.
Impacts of Violent Conflicts on Resource Control and Sustainability

Esther Akumbo Nyam
(Plateau State University, Nigeria), et al.

Provides innovative insights into the dimensions and ramifications of violent conflicts, how they are managed, and how resolution efforts contribute to resource control and sustainability. The content within this publication includes information on media coverage of conflict, religious ideology conflict, and global development.

Advanced Oxidation Processes (AOPs) in Water and Wastewater Treatment

Hamidi Abdul Aziz
(Universiti Sains Malaysia, Malaysia) et al.

A pivotal reference source that provides vital research on the current, green, and advanced technologies for wastewater treatment. Highlights topics such as groundwater treatment, environmental legislation, and oxidation processes.

Advanced Treatment Techniques for Industrial Wastewater

Athar Hussain (Chaudhary Brahmparkash Government Engineering College, India), et al.

An innovative collection of research that covers the different aspects of environmental engineering in water and wastewater treatment processes as well as the different techniques and systems for pollution management. Highlights a range of topics such as agriculture pollution, hazardous waste management, and sewage farming.

Promoting Global Environmental Sustainability and Cooperation

Sofia Idris (Independent Researcher, Pakistan)

A pivotal reference source featuring the latest scholarly research on the rising awareness of environmental issues and their relationships with sustainable development. Highlights topics including global governance, international business, and sustainable consumption.

Environmental Awareness and the Role of Social Media

Sumit Narula (Amity University, India), et al.

An essential reference source for individuals seeking to raise awareness of environmental issues through social media platforms. The book examines social media’s use in disaster awareness, sustainability promotion, and marketing environmentally friendly products from an international perspective.

Emerging Trends in Open Source Geographic Information Systems

Naveenchandra N. Srivastava
(Bhaskaracharya Institute for Space Applications and Geo-Informatics, India)

Provides emerging research on the applications of free and open software in geographic information systems in various fields of study. Highlights topics such as data warehousing, hydrological modeling, and software packages, this publication explores the assessment and techniques of open software functionality and interfaces.

Recent Challenges and Advances in Geotechnical Earthquake Engineering

T.G. Sitharam (Indian Institute of Science, India) and J. S. Vinod (University of Wollongong, Australia)

Recent Challenges and Advances in Geotechnical Earthquake Engineering provides innovative insights into the methods of structural engineering techniques, as well as disaster management strategies. The content within this publication represents the work of rock fracturing, hazard analysis, and seismic acceleration. It is a vital reference source for civil engineers, researchers, and academicians, and covers topics centered on improving a structure’s safety, stability, and resistance to seismic hazards.
Climate Change and Environmental Concerns: Breakthroughs in Research and Practice (2 Vols.)

Information Resources Management Association (USA)

A comprehensive reference source for the latest scholarly material on the environmental effects of climate change on human health, and the mitigation of climate change on both a local and global level.

Handbook of Research on Microbial Tools for Environmental Waste Management

Vinay Mohan Pathak (Gurukul Kangri University, India) and Navneet (Gurukul Kangri University, India)

A critical scholarly resource that explores the advanced biological approaches that are used as remediation for pollution cleanup processes. Features coverage on a broad range of topics such as biodegradation, microbial dehalogenation, and pollution controlling treatments.

Microbial Biotechnology in Environmental Monitoring and Cleanup

Pankaj (G. B. Pant University of Agriculture and Technology, India), et al.

A critical scholarly resource that examines the toxic hazardous substances and their impact on the environment. Features coverage on a broad range of topics such as pollution of microorganisms, phytoremediation, and bioremediation.

Innovations and Trends in Environmental and Agricultural Informatics

Petra Papajorgji (University of New York Tirana, Albania), et al.

Provides emerging research on the design, development, and implementation of complex agricultural and environmental information systems, addressing the integration of several scientific domains including agronomy, mathematics, economics, and computer science.

Handbook of Research on Renewable Energy and Electric Resources for Sustainable Rural Development

Valeriy Kharchenko (Federal Scientific Agroengineering Center VIM, Russia) and Pandian Vasant (Universiti Teknologi PETRONAS, Malaysia)

A critical scholarly resource that examines efficient use of electric resources and renewable energy sources which have a positive impact on sustainable development.

Effective Solutions to Pollution Mitigation for Public Welfare

Ahmet Ozan Gezerman (Yıldız Technical University, Turkey), et al.

A critical scholarly resource that examines alternative solution methods to mitigate the pollution generated by industrial sources. Features coverage on a broad range of topics such as renewable energy, climate change, and water security.

Food Systems Sustainability and Environmental Policies in Modern Economies

Abiodun Elijah Obayelu (Federal University of Agriculture – Abeokuta (FUNAAB), Nigeria)

A relevant research publication that explores the importance of viable food structures as well as the critical positive impact these viable structures have on food security, nutrition, and poverty.

Environmental Policies for Emergency Management and Public Safety

Augustine Nduka Eneanya (University of Lagos, Nigeria)

A pivotal reference source for the latest research findings on the examination of environmental policies and its interface with management and public safety from various country’s perspectives, its local impacts and global lessons.
Geospatial Technologies in Urban System Development: Emerging Research and Opportunities

Alok Bhushan Mukheerjee (Birla Institute of Technology, India), et al.

A pivotal reference source for the latest research findings on the various tools and techniques ranging from mathematical sciences to spatial sciences which can be effective in unveiling the complexity of an urban system. Features extensive coverage on relevant areas such as urban traffic, remote sensing, and geographic information systems.

EISBN: 978-1-5225-3415-0
© 2018; 295 pp.

Pricing
Hardcover: US $185
E-Book: US $185
Hardcover + E-Book: US $220

Utilizing Innovative Technologies to Address the Public Health Impact of Climate Change: Emerging Research and Opportunities

Debra Weiss-Randall (Florida Atlantic University, USA)

Presents an ambitious examination on the implementation of technology to mitigate and create resilience against the impacts of climate change. Highlights a range of topics such as water management, vulnerable populations, and disaster risk analysis.

EISBN: 978-1-5225-2768-8
© 2018; 165 pp.

Pricing
Hardcover: US $165
E-Book: US $165
Hardcover + E-Book: US $195

Green Production Strategies for Sustainability

Sang-Bing Tsai (University of Electronic Science and Technology of China Zhongshan Institute), et al.

An essential reference source for the latest empirical research and relevant theoretical frameworks on creating profit through environmentally friendly operating processes. Includes coverage on a range of topics such as corporate social responsibility, environmental performance, and green supply chain.

EISBN: 978-1-5225-3538-6
© 2018; 325 pp.

Pricing
Hardcover: US $235
E-Book: US $235
Hardcover + E-Book: US $280

Economical and Technical Considerations for Solar Tracking: Methodologies and Opportunities for Energy Management

S. Soulayman (Higher Institute for Applied Sciences and Technology, Syria)

An essential reference source for the latest scholarly research on economic and technical considerations of long-term and short-term solar tracking. Features coverage on a broad range of topics such as sun position, solar radiation, and geographic orientation.

EISBN: 978-1-5225-2951-4
© 2018; 647 pp.

Pricing
Hardcover: US $245
E-Book: US $245
Hardcover + E-Book: US $295

Spatial Analysis Techniques Using MyGeoffice®

João Garrott Marques Negrêos (University of Saint Joseph, China & Macau Polytechnic Institute, China)

An information reference source for the latest academic material on emerging software developments for the exploration of spatial data and its various applications. Includes a range of topics such as digital image processing, spatial autocorrelation, and system functionality.

EISBN: 978-1-5225-3271-2
© 2018; 336 pp.

Pricing
Hardcover: US $225
E-Book: US $225
Hardcover + E-Book: US $270

Hydric and Water Resource Management: Breakthroughs in Research and Practice

Information Resources Management Association (USA)

An innovative source of scholarly research on the latest technologies and techniques in optimizing current processes in managing water resources. Highlights a range of pertinent topics such as climate change, sustainability, and water treatment.

EISBN: 978-1-5225-3441-9
© 2018; 457 pp.

Pricing
Hardcover: US $345
E-Book: US $345
Hardcover + E-Book: US $415

Hydrology and Best Practices for Managing Water Resources in Arid and Semi-Arid Lands

Christopher Misiuki Ondieki (Kenyaatta University, Kenya), et al.

A crucial scholarly resource that outlines current trends in water management and offers solutions for the future of this growing field. Highlights pertinent topics such as hydrological processes modeling, satellite hydrology, water pollution, and climate resources.

EISBN: 978-1-5225-2720-6
© 2018; 266 pp.

Pricing
Hardcover: US $205
E-Book: US $205
Hardcover + E-Book: US $245

Computational Techniques for Modeling Atmospheric Processes

Vitaliy Prusov (University of Kyiv, Ukraine), et al.

An academic reference source that encompasses novel methods for the collection and study of meteorological data. Includes a range of perspectives on pertinent topics such as air pollution, parameterization, and thermodynamics, processes.

EISBN: 978-1-5225-2637-7
© 2018; 480 pp.

Pricing
Hardcover: US $205
E-Book: US $205
Hardcover + E-Book: US $245
Government and Law

IGI Global’s Government and Law subject area offers pioneering revelations and solutions in key areas including, but not limited to, conflict resolution, e-government applications, and civic engagement. Through the presented research covering the latest principles, regulations, and policies of governments all over the world, readers will benefit from in-depth investigations into both modern and more traditional government structures, aiding in the development of new concepts for creating more supportive, engaging, and transparent political systems.

All IGI Global Government and Law titles are available in the InfoSci®-Government and Law subject database.
Media Diplomacy and Its Evolving Role in the Current Geopolitical Climate
Swati Jaywant Rao Bute
(Jagran Lakecity University, India)
Provides emerging research on the changing practices in diplomacy, new media, and the connections between media and policy. It highlights how the media is changing countries' approaches to diplomacy and readers will learn the valuable aspects of the role that communication technology plays in resolving regional and international issues. This book is an important resource for professionals and researchers working in the field of media diplomacy, internet and diplomacy, e-diplomacy, international relations and media diplomacy, and contemporary diplomatic policy seeking current research on the best ways to globally expand on media and policy.

Global Leadership Initiatives for Conflict Resolution and Peacebuilding
Andrew H. Campbell (International Peace and Leadership Institute, USA)
Provides emerging research on a leader's role in the international, national, and nongovernmental organization within post-conflict resolution and peaceful leadership. While highlighting topics, such as civil society organizations, leadership education, and social reconstruction, this book explores leadership theories and practice models to conceptualize the intersection of leadership within conflict management and resolution. This book is an important resource for leaders, scholar-practitioners, educators, and researchers seeking current research on the strategic and diplomatic methods of a peaceful global organization.

Financial Sustainability and Intergenerational Equity in Local Governments
Manuel Pedro Rodríguez Bolívar (University of Granada, Spain) and María Deseada López Subires (University of Granada, Spain)
A critical scholarly resource that analyzes the financial sustainability of local governments with the aim of ensuring equality and intergenerational equity. Featuring coverage on a broad range of topics such as intergenerational equity, public policies, and sustainability management, this book is geared towards government officials, managers, academicians, practitioners, students, and researchers seeking current research on identifying public policies to ensure financial balance.

Operations Research for Military Organizations
Hakan Tozan (Istanbul Medipol University, Turkey) and Mumtaz Karataş (Turkish Naval Academy, Turkey)
A critical scholarly resource that examines the issues that have an impact on aspects of contemporary quantitative applications of operations research methods in the military. It also addresses innovative applications, techniques, and methodologies to assist in solving defense and military-related problems. Featuring coverage on a broad range of topics such as combat planning, tactical decision aids, and weapon system simulations, this book is geared towards defense contractors, military consultants, military personnel, policy makers, and government departments seeking current research on defense methodologies.

Strategic Management and Innovative Applications of E-Government
Andrea Molnar (Lancaster University, UK)
A pivotal reference source that provides organizational and managerial directions, applications, and theoretical and philosophical discussions on current issues relating to the practice of electronic government. While highlighting topics such as citizen trust in government and smart government, this publication explores electronic government technology adoption, as well as the methods of government social media practices. This book is a vital reference source for policy makers, IT specialists, government professionals, academicians, researchers, and graduate-level students seeking current research on e-government applications.
Emergency and Disaster Management: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

Emergency and Disaster Management: Concepts, Methodologies, Tools, and Applications is an innovative reference source for the latest research on the theoretical and practical components of initiating crisis management and emergency response. Highlighting a range of topics such as preparedness and assessment, aid and relief, and the integration of smart technologies, this multi-volume book is designed for emergency professionals, policy makers, practitioners, academicians, and researchers interested in all aspects of disaster, crisis, and emergency studies.

Handbook of Research on Modernization and Accountability in Public Sector Management

Graça Maria do Carmo Azevedo
(University of Aveiro, Portugal), et al.

An essential scholarly publication that focuses on responsibility within public sector institutions and the importance of these institutions being ethical, transparent, and rigorous. Featuring coverage on a broad range of topics, such as corporate social responsibility, e-government, and financial accountability, this publication is geared toward regulatory authorities, researchers, managers, and professionals working in the public domain.

Handbook of Research on Knowledge-Based Urban Development in the Middle East

Ali A. Alraouf (Qatar Urban Planning, Qatar)

Provides emerging research on the contemporary practices of architecture, urban design, and implementation in contemporary Middle Eastern cities. Highlighting a range of pertinent topics, such as creative economy, knowledge development, and learning communities, this book is an important resource for academics, researchers, practitioners, and decision makers seeking current research on the issues and challenges of implementing knowledge-based urban development in Middle Eastern cities.

Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa

Kassa Teshager Alemu (Ethiopian Civil Service University, Ethiopia) and Mulunesh Abebe Alebachew (Bahir Dar University, Ethiopia)

Provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion of prosperity. While highlighting sustainable education, pastoral development pathways, and the public-sector role, readers will learn about the history of sustainable development and governmental approaches to improving Africa’s economy.

Handbook of Research on Urban Governance and Management in the Developing World

Joshua Mugambwa (Makerere University, Uganda) and Mesharch W. Katusiimeh (Makerere University, Uganda)

The Handbook of Research on Urban Governance and Management in the Developing World is a research publication that explores contemporary issues in regional political and administrative practices and key challenges in implementing these strategies in growing nations. Featuring coverage on a wide range of topics such as urban and regional economics, supply chain management, and environmental concerns, this book is geared toward city development planners, policy makers, researchers, academics, and students seeking current and relevant research on the regional bureaucracy and its practices and how they affect growing nations.
Political Mediation in Modern Conflict Resolution: Emerging Research and Opportunities
José Pascal da Rocha (Columbia University, USA)
A critical scholarly resource that examines the pursuit of peace in global civil war and conflict through the use of mediation. Featuring coverage on a broad range of topics such as intercultural communication, social psychology, and conflict theory, this publication is geared toward academicians, students, and researchers seeking relevant and current research on governmental approaches to pursuing peace in instances of conflict and strife.

Positioning Markets and Governments in Public Management
Helisse Levine (Long Island University, USA) and Karina Moreno (Long Island University, USA)
An advanced reference publication featuring the latest scholarly research on modern-day issues within political economy. Including coverage on a range of topics such as public policy, healthcare, and immigration, this book is ideally designed for professionals, researchers, and students interested in research and frameworks concerning governments and markets.

Socio-Economic and Education Factors Impacting American Political Systems: Emerging Research and Opportunities
Pamela Hampton-Garland (University of the District of Columbia, USA), et al.
Provides emerging research on the most current issues facing the American public and political system. While highlighting the changes America is making in the social, economic, and cultural regions of society, readers will learn how these changes are coming to shape their lives in the country.

Examining the Private Sector’s Role in Wealth Creation and Poverty Reduction
Scott A. Hipsher (Webster University, Thailand)
Explores poverty alleviation in developing economies through the creation of livelihood options developed by private sector activities. Examines relevant topics such as corporate social responsibility (CSR) frameworks, multinational enterprises, and responsible tourism.
Library and Information Science

IGI Global’s Library and Information Science subject area aids in the implementation of new techniques and technologies that advance library services and processes. The ability to access content expeditiously, whether for leisure or research, is of the utmost importance to library patrons. Librarians looking for professional development materials for themselves or their staff will find that these titles examine both technological and organizational progressions in K-12, college and university, joint-use, special, corporate, and public libraries, and take budget, staff, and space concerns into consideration.

All IGI Global Library and Information Science titles are available in the InfoSci® Library and Information Science subject database.
Innovative Applications of Knowledge Discovery and Information Resources Management
Susan Swayze (The George Washington University, USA) and Valerie Ford (ISP Global Communications LLC, USA)

Offers in-depth coverage on the pervasiveness of technological change with a collection of material on topics such as the impact of permeable work-life boundaries, burnout and turnover, big data usage, and computer-based learning.

Library and Information Science in the Age of MOOCs
Anna Kaushik (University of Kota, India)

A critical scholarly resource that explores the ideas on how library and information science professionals implement the use of massive open online courses in the library and information science domain. Featuring coverage on a broad range of topics, such as distance learning, technology enhanced learning, and online learning, this book is geared towards academicians, librarians, and researchers seeking current research on solving problems related to massive open online courses.

Handbook of Research on Form and Morphogenesis in Modern Architectural Contexts
Domenico D’Uva (Politecnico di Milano, Italy)

Provides emerging research on the process of architectural form-finding as an effort to balance perceptive efficiency with functionality. While highlighting topics such as architectural geometry, reverse modeling, and digital fabrication, this book details the geometric process that forms the shape of a building.

Handbook of Research on Heritage Management and Preservation
Patrick Ngulube (University of South Africa, South Africa)

A critical scholarly resource that examines different aspects of heritage management and preservation ranging from theories that underlie the field, areas of convergence and divergence in the field, infrastructure, and the policy framework that governs the field, and the influence of the changing landscape on practice.

Effective Knowledge Management Systems in Modern Society
Murray E. Jennex (San Diego State University, USA)

Effective Knowledge Management Systems in Modern Society is a critical scholarly resource that presents an overview of how technical, social, and process changes are impacting the way knowledge systems are being designed. Featuring coverage on a broad range of topics such as knowledge engineering, cognitive ergonomics, and interorganizational knowledge, this book is geared toward consultants, practitioners, and researchers seeking current research on how new approaches in knowledge management impact information technology professionals.
Changing the Scope of Library Instruction in the Digital Age

Swati Bhattacharya (University of California – Riverside, USA) and K Rama Paraik (Indian Institute of Management Bangalore, India)

Provides emerging information on data visualization tools, creating effective instructions, and instructional design in library sciences. While highlighting the challenges of effectively training new and seasoned librarians in these various aspects of data technology and teaching methods, readers will learn the importance of giving librarians the tools they need to complete their new responsibilities. This book is an important resource for entry level and seasoned librarians, researchers, and instructional design specialists seeking current research on up to date library instruction in the modern technology age.

Enhancing Knowledge Discovery and Innovation in the Digital Era

Miltiadis D. Lytras (The American College of Greece, Greece), et al.

A vibrant reference source on the latest research on student education, open information, technology enhanced learning (TEL), and student outcomes. Featuring widespread coverage across a range of applicable perspectives and topics, such as engineering education, data mining, and 3D printing, this book is ideally designed for professionals, upper-level students, and academics seeking current research on knowledge management and innovation networks.

Handbook of Research on Innovative Techniques, Trends, and Analysis for Optimized Research Methods

Victor X. Wang (Grand Canyon University, USA) and Thomas G. Reio Jr. (Florida International University, USA)

A comprehensive reference source focused on the latest research methods currently facing educational technology and learners. While highlighting the innovative trends and methods, readers will learn valuable ways to conduct research and advance the understanding of ideas based on the results of their research. This publication is an important asset for teachers, researchers, practitioners, and graduate students looking to gain more knowledge on research trends and their applications.

Information Retrieval and Management: Concepts, Methodologies, Tools, and Applications (4 Vols.)

Information Resources Management Association (USA)

An innovative reference source for the latest academic material in the field of information and communication technologies and explores how complex information systems interact with and affect one another. Highlighting a range of topics such as knowledge discovery, semantic web, and information resources management, this multi-volume book is ideally designed for researchers, developers, managers, strategic planners, and advanced-level students.

Predictive Analysis on Large Data for Actionable Knowledge: Emerging Research and Opportunities

Muhammad Usman (Shaheed Zulfikar Ali Bhutto Institute of Science and Technology, Pakistan) and M. Usman (Pakistan Scientific and Technological Information Center (PASTIC), Pakistan)

Provides emerging information on extraction and prediction patterns in data mining along with knowledge discovery. While highlighting the current issues in data extraction, readers will learn new methodologies comprising of different algorithms that automate the multidimensional schema that remove the manual processes. This book is a vital resource for researchers, academics, and those seeking new information on data mining techniques and trends.

Ensuring Research Integrity and the Ethical Management of Data

Cees Th. Smit Sibinga (University of Groningen, The Netherlands)

An essential resource that examines the best approaches for providing quality research, as well as how to effectively manage that information in a reputable way. Featuring extensive research on relevant topics such as qualitative data collection, data sharing, data misinterpretation, and intellectual property, this scholarly publication is an ideal reference source for academicians, students, and researchers interested in current trends and techniques in ethical research and data management.
Library Science and Administration: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

A comprehensive reference source for the latest scholarly material on trends, techniques, and management of libraries and examines the benefits and challenges of library administration.

Promoting Interdisciplinarity in Knowledge Generation and Problem Solving

Mohammed Nasser Al-Suqri (Sultan Qaboos University, Oman), et al.

A pivotal reference source for the latest scholarly research on interdisciplinary projects from around the world, highlighting the broad range of circumstances in which this approach can be effectively used to solve problems and generate new knowledge.

Maximizing Social Science Research Through Publicly Accessible Data Sets

S. Marshall Perry (Saint Mary’s College of California, USA)

An essential reference source for the latest academic perspectives on a wide range of methodologies and large data sets with the purpose of enhancing research in the areas of human society and social relationships. Featuring coverage on a broad range of topics such as student achievement, teacher efficacy, and instructional leadership, this book is ideally designed for academicians, researchers, and practitioners seeking material on the availability and distribution methods of research content.

Handbook of Research on Managing Intellectual Property in Digital Libraries

Adeyinka Tella (University of Ilorin, Nigeria) and Tom Kwnanya (The Technical University of Kenya, Kenya)

A pivotal reference source for the latest scholarly research on strategies in which digital libraries engage in the management of increasing digital intellectual property to protect both the users and the creators of the resources. Featuring coverage on a broad range of topics such as student achievement, teacher management, open access, and software programs, this book is ideally designed for academicians, researchers, and practitioners seeking material on property rights and e-resources.
Media and Communications

IGI Global’s Media and Communications subject area explores critical topics such as political rhetoric, digital media progressions, creative interfaces, communication theory, and many others. The pace at which individuals are sharing information is at an all-time high, and research focused on advancements in communication is essential. Those desiring explorations of different verbal, non-verbal, and technological trends and their societal impacts will find these titles to be extremely beneficial.

All IGI Global Media and Communications titles are available in the InfoSci®-Media and Communications subject database.
Examining Cloud Computing Technologies Through the Internet of Things
Pradeep Tomar (Gautam Buddha University, India), et al.

Advanced Mobile Technologies for Secure Transaction Processing: Emerging Research and Opportunities
Raghvendra Kumar (LNCT Group of Colleges, India), et al.

Exploring Journalism Practice and Perception in Developing Countries
Abidun Salau (North-West University, South Africa), et al.

Techniques for Coding Imagery and Multimedia: Emerging Research and Opportunities
Shalin Hai-Jew (Kansas State University, USA)

Content Generation Through Narrative Communication and Simulation
Takashi Ogata (Iwate Prefectural University, Japan) and Shin Asakawa (Tokyo Woman’s Christian University, Japan)

Examining Developments and Applications of Wearable Devices in Modern Society
Saul Emanuel Delabrida Silva (Federal University of Ouro Preto, Brazil), et al.

Digital Multimedia: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)

Psycholinguistics and Cognition in Language Processing
Duygu Buğa (Independent Researcher, Turkey) and Muhlis Coşgun Oğeyik (Trakya University, Turkey)

Empirical Research on Semiotics and Visual Rhetoric
Marcel Danesi (University of Toronto, Canada)

Image Retrieval and Analysis Using Text and Fuzzy Shape Features: Emerging Research and Opportunities
P. Sumathy (Bharathidasan University, India), P. Shanmugavadivu (Gandhigram Rural Institute, India) and A. Vadivel (SRM University, India)

A critical scholarly resource that examines the mystery of language and the obscurity of psychology using innovative studies. Features coverage on a broad range of topics, such as language acquisition, emotional aspects in foreign language learning, and speech learning model.

A critical research publication that explores story and the application of story in various forms of media as well as the challenges of automated story. Features coverage on a wide range of topics such as narrative or story generation systems, the film and movie narrative generation, and narrative evaluation.
Media Influence: Breakthroughs in Research and Practice
Information Resources Management Association (USA)
A comprehensive reference source for the latest scholarly material on the effect of media on cultures, individuals, and groups. Highlights a range of pertinent topics such as social media, media ethics, and audience engagement, this multi-volume book is ideally designed for researchers, academics, professionals, students, and practitioners interested in media influence.

Exploring Transmedia Journalism in the Digital Age
Renira Rampazzo Gambarato (National Research University Higher School of Economics, Russia), et al.
Provides emerging research on multimedia journalism across various platforms and formats using digital technologies. Highlights topics such as immersive journalism, nonfictional narratives, and design practice, this book explores the theoretical and critical approaches to journalism through the lens of various technologies and media platforms.

Selfies as a Mode of Social Media and Work Space Research
Shalin Hai-Jew (Kansas State University, USA)
A comprehensive reference source for the latest research on explicit and implicit messaging of self-portraiture and its indications about individuals, groups, and societies. Featuring coverage on a broad range of topics including dating, job hunting, and marketing, this publication is ideally designed for academicians, researchers, and professionals interested in the current phenomenon of selfies and their impact on society.

Global Perspectives on Frameworks for Integrated Reporting: Emerging Research and Opportunities
Ioana Dragu (Babes-Bolyai University, Romania), et al.
A critical scholarly resource that examines the characteristics of communications released by organizations, and evaluates the compliance with the model proposed. Features coverage on a wide range of topics such as corporate citizenship, country-specific indicators, and modeling relations.

Affordability Issues Surrounding the Use of ICT for Development and Poverty Reduction
Sam Takavarasha Jr. (University of Fort Hare, South Africa & University of Zimbabwe, Zimbabwe), et al.
A relevant scholarly publication that examines the importance of information and communications technology (ICT) and its ability to aid in developing countries and the methods to make such technologies more accessible and cost less.

Positioning and Navigation in Complex Environments
Kegen Yu (Wuhan University, China)
A critical scholarly resource that examines the methodologies and advances in technologies that allow for indoor navigation. Featuring insight on a broad scope of topics, such as multipath mitigation, Global Navigation Satellite System (GNSS), and multi-sensor integration, this book is directed toward data scientists, engineers, government agencies, researchers, and graduate-level students.

Powering the Internet of Things With 5G Networks
Vasuky Mohanan (Universiti Sains Malaysia, Malaysia), et al.

Concept Parsing Algorithms (CPA) for Textual Analysis and Discovery: Emerging Research and Opportunities
Uri Shafir (University of Toronto, Canada), et al.

Graph Theoretic Approaches for Analyzing Large-Scale Social Networks
Natarajan Meghanathan (Jackson State University, USA)

Handbook of Research on Advanced Concepts in Real-Time Image and Video Processing
Md. Imtiaz Anwar (National Institute of Technology, Jalandhar, India), et al.

Powering the Internet of Things With 5G Networks
Vasuky Mohanan (Universiti Sains Malaysia, Malaysia), et al.

Novel Design and the Applications of Smart-M3 Platform in the Internet of Things: Emerging Research and Opportunities
Dmitry Korzun (Petrozavodsk State University (PetrSU), Russia), et al.
Medical, Healthcare, and Life Sciences

IGI Global's Medical, Healthcare, and Life Sciences subject area takes into consideration the need to further advance innovation through titles focused on medical education, ethics, service delivery, research methods, administration, and leadership. Through critical findings and discussions surrounding successes, pitfalls, and future directions in a variety of fields, knowledge seekers will discover the latest concepts and theories utilized within all facets of the healthcare industry that will ultimately lead to more successful procedures and better healthcare delivery options.

All IGI Global Healthcare, and Life Sciences titles are available in the InfoSci®-Healthcare, and Life Sciences subject database.

Chronic Illness and Long-Term Care: Breakthroughs in Research and Practice (2 Vols.)
Information Resources Management Association (USA)
Features current research on the diagnosis, monitoring, management, and treatment of chronic diseases such as diabetes, Parkinson's disease, autoimmune disorders, and many more.

EISBN: 978-1-5225-7123-0
© 2019; 600 pp.

Pricing
Hardcover: US $465
E-Book: US $465
Hardcover + E-Book: US $560

Complementary and Alternative Medicine: Breakthroughs in Research and Practice
Information Resources Management Association (USA)
A critical reference source for the latest research findings on the application of complementary and alternative medicine in the prevention and treatment of numerous diseases.

EISBN: 978-1-5225-7040-0
© 2019; 700 pp.

Pricing
Hardcover: US $435
E-Book: US $435
Hardcover + E-Book: US $525

Medical Image Processing for Improved Clinical Diagnosis
A. Swarnambiga (Indian Institute of Technology, India)
Provides emerging research exploring the theoretical and practical aspects of computer-based imaging and applications within healthcare and medicine. Features coverage on a broad range of topics such as biomedical imaging, pattern recognition, and medical diagnosis.

EISBN: 978-1-5225-5877-4
© 2019; 300 pp.

Pricing
Hardcover: US $245
E-Book: US $245
Hardcover + E-Book: US $295

Healthcare Policy and Reform: Concepts, Methodologies, Tools, and Applications (3 Vols.)
Information Resources Management Association (USA)
A comprehensive source of academic material on the importance of policy and policy reform initiatives in modern healthcare systems.

EISBN: 978-1-5225-6916-9
© 2019; 2,000 pp.

Pricing
Hardcover: US $2,950
E-Book: US $2,950
Hardcover + E-Book: US $3,570

Handbook of Research on Critical Examinations of Neurodegenerative Disorders
Md. Sahab Uddin (Southeast University, Bangladesh), et al.
Provides an extensive explanation of various neurodegenerative disorders based on existing studies.

EISBN: 978-1-5225-5283-3
© 2019; 420 pp.

Pricing
Hardcover: US $345
E-Book: US $345
Hardcover + E-Book: US $415

Clinical Costing Techniques and Analysis in Modern Healthcare Systems
Ronald Ma (Austin Health, Australia)
Provides innovative insights into the connections between statistical information and financial systems within clinical settings.

EISBN: 978-1-5225-5083-9
© 2019; 275 pp.

Pricing
Hardcover: US $235
E-Book: US $235
Hardcover + E-Book: US $280

Professors: Your expert opinion counts. Recommend IGI Global publications to your institution’s librarian today.
Biomedical Engineering: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

An authoritative reference source for emerging scholarly research on trends, techniques, and future directions in the field of biomedical engineering technologies.

Advanced Systems for Improved Public Healthcare and Disease Prevention: Emerging Research and Opportunities

Thierry Oscar Edoh (Technical University of Munich, Germany)

Provides emerging research on care delivery issues in global public healthcare and explores information and communication technology-based solutions for public healthcare improvement and disease prevention.

Health Care Delivery and Clinical Science: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

A comprehensive reference source for the latest scholarly material on emerging strategies and methods for delivering optimal healthcare and examines the latest techniques and methods of clinical science.
Security and Forensics

IGI Global’s Security and Forensics subject area contains the most forward-thinking discoveries, practices, and systems utilized for protection from technological and physical harm. New research on the best practices for securing identities, solving crimes, thwarting cyberattacks, and safeguarding organizations and governments continue to emerge at a rapid pace. Ranging from security concerns to the ethics behind surveillance systems, researchers will find all the latest research on protecting livelihoods and information.

All IGI Global Security and Forensics titles are available in the InfoSci® Security and Forensics subject database.
Cyber Security and Threats: Concepts, Methodologies, Tools, and Applications (3 Vols.)

Information Resources Management Association (USA)

Contains a compendium of the latest academic material on new methodologies and applications in the areas of digital security and threats. This multivolume book is an ideal source for IT specialists, administrators, researchers, and students interested in uncovering new ways to thwart cyber breaches and protect sensitive digital information.

Handbook of Research on Network Forensics and Analysis Techniques

Gulshan Shrivastava (National Institute of Technology Patna, India), et al.

A current research publication that examines the advancements and growth of forensic research from a relatively obscure trade craft to an important part of many investigations. This publication is geared toward professionals, computer forensics practitioners, engineers, researchers, and academicians seeking relevant research on the development of forensic tools.

Multidisciplinary Perspectives on Human Capital and Information Technology Professionals

Vandana Ahuja (Jaypee Institute of Information Technology, India) and Shubhangini Rathore (IBS Gurgaon, India)

A critical scholarly resource that focuses on IT as an industry and examines it from an array of academic viewpoints. Featuring coverage on a wide range of topics, such as employee online communities, role stress, and competence frameworks, this book is targeted toward academicians, students, and researchers seeking relevant research on IT as an industry.

Security and Privacy in Smart Sensor Networks

Yassine Maleh (University Hassan I, Morocco), et al.

A critical scholarly resource that examines recent developments and emerging trends in smart sensor security and privacy by providing new models, practical solutions, and technological advances related to security. Featuring coverage on a broad range of topics such as cloud security, encryption, and intrusion detection systems, this book is geared towards academicians, engineers, IT specialists, researchers, and students seeking current research on authentication and intrusion detection.

Security and Privacy Management, Techniques, and Protocols

Yassine Maleh (University Hassan I, Morocco)

A critical scholarly resource that examines emerging protocols and methods for effective management of information security at organizations. Featuring coverage on a broad range of topics such as cryptography, secure routing protocols, and wireless security, this book is geared towards academicians, engineers, IT specialists, researchers, and students seeking current research on security and privacy management.

Multidisciplinary Perspectives on Human Capital and Information Technology Professionals

Vandana Ahuja (Jaypee Institute of Information Technology, India) and Shubhangini Rathore (IBS Gurgaon, India)

A critical scholarly resource that focuses on IT as an industry and examines it from an array of academic viewpoints. Featuring coverage on a wide range of topics, such as employee online communities, role stress, and competence frameworks, this book is targeted toward academicians, students, and researchers seeking relevant research on IT as an industry.

Security, Privacy, and Anonymization in Social Networks: Emerging Research and Opportunities

B. K. Tripathy (VIT University, India) and Kiran Bakhita (VIT University, India)

A pivotal reference source for the most up-to-date research on edge clustering models and weighted social networks. This book is ideally designed for academicians, researchers, post-graduates, and practitioners seeking current research on undirected networks and greedy algorithms for social network anonymization.

Algorithmic Strategies for Solving Complex Problems in Cryptography

Kannan Balasubramanian (Mepco Schlenk Engineering College, India), et al.

An essential reference source that discusses the evolution and current trends in cryptography, and it offers new insight into how to use strategic algorithms to aid in solving intricate difficulties within this domain.
Social Sciences and Humanities

IGI Global’s Social Sciences and Humanities subject area offers in-depth examinations, theories, and predictions on cultural practices and how they affect individual lives, relationships, and routines. Society is constantly evolving, creating an interesting foundation for research into the ways in which humans are developing and interacting as part of this shift. It is necessary for research in this field to range between a focus on individuals, to a broader, societal context. Researchers interested in this field will find many diverse aspects covered, from psychology and sociology to controversial discussions on diversity.

All IGI Global Social Sciences and Humanities titles are available in the InfoSci® Social Sciences and Humanities subject database.

Featured Title

Post-Holocaust Studies in a Modern Context
Nitza Davidovitch (Ariel University, Israel), Ronen A. Cohen (Ariel University, Israel) and Eyal Lewin (Ariel University, Israel)

Post-Holocaust Studies in a Modern Context is a critical scholarly resource that explores the impact of post-Holocaust issues on current social issues across the globe such as the Western approach to immigration and the shaping and reshaping of national ethos across the globe. Featuring a wide range of topics such as millennials, cultural heritage, artistry, educational programs, and historical experience, this book is a vital resource for students, professors, researchers, and readers of popular social science interested in the fate of the Jewish people and the sociological forces that influence the post-WWII era.

EISBN: 978-1-5225-6259-7
© 2019; 295 pp.

Pricing
Hardcover: US $185
E-Book: US $185
Hardcover + E-Book: US $220
Social Issues Surrounding Harassment and Assault: Breakthroughs in Research and Practice (2 Vols.)

Information Resources Management Association (USA)
Explores the social and cultural influences of harassment and assault on human life and activity. Highlights a range of pertinent topics such as child abuse and neglect, support services, and sexual harassment.

Digital Curation: Breakthroughs in Research and Practice

Information Resources Management Association (USA)
A critical source of academic knowledge on the preservation, selection, collection, maintenance, and archiving of digital materials. Highlights a range of pertinent topics such as electronic resource management, digital preservation, and virtual restoration.

Quality Assurance and Assessment Practices in Translation and Interpreting

Elsa Huertas-Barros (University of Westminster, UK), et al.
A critical scholarly resource that serves as a guide to overcoming the challenge of how translation and interpreting results should be observed, given feedback, and assessed. It also informs the design of new ways of evaluating students as well as suggesting criteria for professional quality control.

Handbook of Research on Technology Integration in the Global World

Efosa C. Idemudia (Arkansas Tech University, USA)
An essential reference source that examines a variety of approaches to integrating technology through technology diffusion, e-collaboration, and e-adoption. The book explores topics such as information systems agility, semantic web, and the digital divide. This publication is a valuable resource for academicians, practitioners, researchers, and upper-level graduate students.

Scientific Concepts Behind Happiness, Kindness, and Empathy in Contemporary Society

Nava R. Silton (Marymount Manhattan College, USA)
An essential reference source that offers in-depth studies that anchor concepts of happiness, kindness, wellbeing, and empathy from a scientific perspective. Features research on topics such as cognitive revolution, neurobiology of wellbeing, and rational emotive behavior therapy.

Intimacy and Developing Personal Relationships in the Virtual World

Rejani Thudalikunnil Gopalan (Gujarat Forensic Sciences University, India)
Sheds light on the various issues that accompany online interactions. The book examines activities that have gone from occurring in reality to taking place in the online world such as cyberbullying, online social networking, and online dating. The publication also highlights the negative effects of spending a lot of time online such as mental health issues, internet addiction, and body image control.

Handbook of Research on Children’s Consumption of Digital Media

Gülşah San (Cumhuriyet University, Turkey)
The Handbook of Research on Children’s Consumption of Digital Media is a scholarly research publication that examines how children have become consumers as well as how their consumption habits have changed in the age of digital and media technologies. Featuring current research on cyber bullying, social media, and digital advertising, this book is geared toward marketing and advertising professionals, consumer researchers, international business strategists, academicians, and upper-level graduate students seeking current research on the transformation of child to consumer.
Practice and Progress in Social Design and Sustainability

Kin Wai Michael Siu (The Hong Kong Polytechnic University, Hong Kong) and Yin Lin Wong (The Hong Kong Polytechnic University, Hong Kong)

A critical scholarly resource that provides groundbreaking research on social contributions to design. This book is geared towards architects, designers, program planners, entrepreneurs, and engineers seeking information about design for resolving social issues.

Handbook of Research on Transmedia Storytelling and Narrative Strategies

Recep Yilmaz (Ondokuz Mayis University, Turkey), M. Nur Erdem (Ondokuz Mayis University, Turkey) and Filiz Resuloglu (Kocaeli University, Turkey)

A critical scholarly resource that explores the connections between consumers of media content and information parts that come from multimedia platforms, as well as the concepts of narration and narrative styles. Featuring coverage on a wide range of topics such as augmented reality, digital society, and marketing strategies, this book explores narration as a method of relating to consumers.

Handbook of Research on Multicultural Perspectives on Gender and Aging

Rekha Pande (University of Hyderabad, India) and Theo van der Weide (Radboud University Nijmegen, The Netherlands)

Provides emerging research on midlife issues, physical aspects of aging, and the emotional value in the context of the culture in which people are living. While highlighting topics such as elderly disabilities, quality of life, and gender dimensions, this publication explores self-esteem in older members of society.

Narratives and the Role of Philosophy in Cross-Disciplinary Studies: Emerging Research and Opportunities

Ana-Maria Pascal (Regent’s University London, UK)

A critical scholarly research publication that focuses on the multidisciplinary aspects of philosophy. This book is geared toward academicians, researchers, and students seeking current and relevant research on the importance of narrative in a multidisciplinary investigation into the identity of people and events.

Gender and Diversity: Concepts, Methodologies, Tools, and Applications (4 Vols.)

Information Resources Management Association (USA)

Gender and Diversity: Concepts, Methodologies, Tools, and Applications provides a critical look at gender and modern-day discrimination and solutions to creating sustainable diversity across numerous contexts and fields. Highlighting a range of topics such as anti-discrimination measures, workforce diversity, and gender inequality, this multi-volume book is designed for legislators and policy makers, practitioners, academicians, gender studies researchers, and graduate-level students interested in all aspects of gender and diversity studies.
InfoSci®-Books

A Collection of 4,500+ Reference Books Containing Over 88,000 Full-Text Chapters Focusing on Emerging Research

2019 InfoSci-Books Subscription As Low As

US$ 8,580*

This database is a collection of 4,500+ IGI Global single and multi-volume reference books, handbooks of research, and encyclopedias, encompassing groundbreaking research from prominent experts worldwide. These books are highly cited and currently recognized in prestigious indices such as: Web of Science™ and Scopus®.

Librarian Features:
- No Set-Up or Maintenance Fees
- Guarantee of No More Than A 5% Subscription Price Increase
- COUNTER 4 Usage Reports
- Complimentary Archival Access
- Free MARC Records

Researcher Features:
- Unlimited Simultaneous Users
- No Embargo of Content
- Full Book Download
- Full-Text Search Engine
- No DRM

| Accountancy and the Changing Landscape of Integrated Reporting | 10 |
| Administrative Leadership in Open and Distance Learning Programs | 29 |
| Advanced Concept Maps in STEM Education: Emerging Research and Opportunities | 29 |
| Advanced Mobile Technologies for Secure Transaction Processing: Emerging Research and Opportunities | 48 |
| Advanced Numerical Simulations in Mechanical Engineering | 33 |
| Advanced Online Education and Training Technologies | 23 |
| Advanced Oxidation Processes (AOPs) in Water and Wastewater Treatment | 35 |
| Advanced Solid Catalysts for Renewable Energy Production | 33 |
| Advanced Synchronization Control and Bifurcation of Chaotic Fractional-Order Systems | 18 |
| Advanced Systems for Improved Public Healthcare and Disease Prevention: Emerging Research and Opportunities | 52 |
| Advanced Treatment Techniques for Industrial Wastewater | 35 |
| Advancements in Applied Metaheuristic Computing | 21 |
| Advancements in Computer Vision and Image Processing | 19 |
| Advances in Data Communications and Networking for Digital Business Transformation | 5 |
| Advances in System Dynamics and Control | 18 |
| Advocacy in Academia and the Role of Teacher Preparation Programs | 28 |
| Affordability Issues Surrounding the Use of ICT for Development and Poverty Reduction | 49 |
| Agricultural Finance and Opportunities for Investment and Expansion | 8 |
| Agrifood Economics and Sustainable Development in Contemporary Society | 34 |
| Algorithmic Strategies for Solving Complex Problems in Cryptography | 55 |
| Algorithms, Methods, and Applications in Mobile Computing and Communications | 14 |
| Aligning Perceptual and Conceptual Information for Cognitive Contextual System Development: Emerging Research and Opportunities | 20 |
| Alternative Decision-Making Models for Financial Portfolio Management: Emerging Research and Opportunities | 12 |
| Always-On Enterprise Information Systems for Modern Organizations | 11 |
| Analysis and Applications of Lattice Boltzmann Simulations | 18 |
| Analyzing Attachment and Consumers’ Emotions: Emerging Research and Opportunities | 13 |
| Analyzing Human Behavior in Cyberspace | 56 |
| Analyzing the Impacts of Industry 4.0 in Modern Business Environments | 7 |
| Analyzing the Role of Risk Mitigation and Monitoring in Software Development | 19 |
| Analyzing Workplace Arrogance and Organizational Effectiveness: Emerging Research and Opportunities | 9 |
| Androids, Cyborgs, and Robots in Contemporary Culture and Society | 21 |
| Application Development and Design: Concepts, Methodologies, Tools, and Applications (3 Vols.) | 21 |
| Applications of CALL Theory in ESL and EFL Environments | 29 |
| Applications of Conscious Innovation in Organizations | 9 |
| Applications of Neuroscience: Breakthroughs in Research and Practice | 52 |
| Applications of Security, Mobile, Analytic, and Cloud (SMAC) Technologies for Effective Information Processing and Management | 15 |
| Applied Computational Intelligence and Soft Computing in Engineering | 21 |
| Applying Big Data Analytics in Bioinformatics and Medicine | 53 |
| Applying Business Intelligence Initiatives in Healthcare and Organizational Settings | 6 |
| Arab Women and Their Evolving Roles in the Global Business Landscape | 11 |
| A Simplex Approach to Learning, Cognition, and Spatial Navigation: Emerging Research and Opportunities | 28 |
| Assessing Social Support and Stress in Autism-Focused Virtual Communities: Emerging Research and Opportunities | 24 |
| Augmented Reality for Enhanced Learning Environments | 26 |
| Autism Spectrum Disorders: Breakthroughs in Research and Practice | 53 |
| Big Data Analytics for Satellite Image Processing and Remote Sensing | 20 |
| Big Data Analytics in HIV/AIDS Research | 52 |
| Big Data Management and the Internet of Things for Improved Health Systems | 53 |
| Biomedical Engineering: Concepts, Methodologies, Tools, and Applications (3 Vols.) | 52 |
| Biomedical Signal and Image Processing in Patient Care | 53 |
| Biostimulation Remediation Technologies for Groundwater Contaminants | 36 |
| Brand Culture and Identity: Concepts, Methodologies, Tools, and Applications (3 Vols.) | 3 |
| Bridging Relational and NoSQL Databases | 21 |
| Building Brand Equity and Consumer Trust Through Radical Transparency Practices | 12 |
| Building Brand Identity in the Age of Social Media: Emerging Research and Opportunities | 10 |
| Burstiness Management for Smart, Sustainable and Inclusive Growth: Emerging Research and Opportunities | 4 |
| Business Architectures for Risk Assessment and Strategic Planning: Emerging Research and Opportunities | 11 |
| Business Community Engagement for Educational Initiatives | 2 |
| Business Education and Ethics: Concepts, Methodologies, Tools, and Applications (3 Vols.) | 13 |
| Business Models for Renewable Energy Initiatives: Emerging Research and Opportunities | 12 |
| Business Strategies and Advanced Techniques for Entrepreneurship 4.0 | 10 |
| Cases on Audio-Visual Media in Language Education | 29 |
| Cases on Global Competencies for Educational Diplomacy in International Settings | 27 |
| Cases on Quality Initiatives for Organizational Longevity | 7 |
| Censorship, Surveillance, and Privacy: Concepts, Methodologies, Tools, and Applications (4 Vols.) | 54 |
| Centrality Metrics for Complex Network Analysis: Emerging Research and Opportunities | 47 |
| Changing the Scope of Library Instruction in the Digital Age | 44 |
| Changing Urban Landscapes Through Public Higher Education | 26 |
| Chemical Compound Structures and the Higher Dimension of Molecules: Emerging Research and Opportunities | 33 |
| Chronic Illness and Long-Term Care: Breakthroughs in Research and Practice (2 Vols.) | 50 |
| Climate Change and Environmental Concerns: Breakthroughs in Research and Practice (2 Vols.) | 36 |
| Clinical Costing Techniques and Analysis in Modern Healthcare Systems | 50 |
| Cloud Computing Technologies for Green Enterprises | 12 |
| Coaching for Student Retention and Success at the Postsecondary Level: Emerging Research and Opportunities | 25 |
| Co-Manufacturing and New Economic Paradigms | 3 |
| Complementary and Alternative Medicine and Kidney Health | 53 |
| Complementary and Alternative Medicine: Breakthroughs in Research and Practice | 50 |
| Composites and Advanced Materials for Industrial Applications | 31 |
| Computational Psychoanalysis and Formal Bi-Logic Frameworks | 59 |
| Computational Techniques for Modeling Atmospheric Processes | 37 |
| Computer-Mediated Learning for Workforce Development | 25 |

Corporate and Global Standardization Initiatives in Contemporary Society .................................................................................. 18
Corporate Insolvency Law and Bankruptcy Reforms in the Global Economy .................................................................................. 3
Corporate Social Responsibility and Strategic Market Positioning for Organizational Success ......................................................... 4
Corporate Social Responsibility: Concepts, Methodologies, Tools, and Applications (3 Vols.) ................................................................. 4
Corporate Social Responsibility for Valorization of Cultural Organizations .................................................................................. 13
Creating Business Value and Competitive Advantage With Social Entrepreneurship ..................................................................... 5
Creating Caring and Supporting Educational Environments for Meaningful Learning ................................................................. 23
Creativity in Load-Balance Schemes for Multi/Many-Core Heterogeneous Graph Computing: Emerging Research and Opportunities .................................................................................. 19
Creativity in Workforce Development and Innovation: Emerging Research and Opportunities .......................................................... 11
Critical Assessment and Strategies for Increased Student Retention.................................................................................. 28
Critical Developments and Applications of Swarm Intelligence ................................................................................................. 18
Critical Research on Scalability and Security Issues in Virtual Cloud Environments .............................................................................. 55
Critical Theory and Transformative Learning ................................................................................................................................. 42
Cross-Cultural Analysis of Image-Based Assessments: Emerging Research and Opportunities ......................................................... 21
Cross-Cultural Perspectives on Technology-Enhanced Language Learning ........................................................................................ 25
Cross-Disciplinary Approaches to Action Research and Action Learning ..................................................................................... 45
Cross-Media Authentication and Verification: Emerging Research and Opportunities .................................................................................. 46
Crowdfunding and Sustainable Urban Development in Emerging Economies .................................................................................. 9
Crowdsourcing and Knowledge Management in Contemporary Business Environments ................................................................. 3
Cultivating Diverse Online Classrooms Through Effective Instructional Design .................................................................................. 28
Culturally Engaging Service-Learning With Diverse Communities ................................................................................................. 28
Curriculum Development for Gifted Education Programs ................................................................................................................ 26
Curriculum Integration in Contemporary Teaching Practice: Emerging Research and Opportunities ......................................................... 27
Curriculum Internationalization and the Future of Education ................................................................................................................ 26
Cyber Harassment and Policy Reform in the Digital Age: Emerging Research and Opportunities ......................................................... 47
Cyber-Physical Systems for Next-Generation Networks ....................................................................................................................... 19
Cyber Security and Threats: Concepts, Methodologies, Tools, and Applications (3 Vols.) ................................................................. 55
Data Leadership for K-12 Schools in a Time of Accountability .............................................................................................................. 27
Deconstructing Stigma in Mental Health ............................................................................................................................................ 52
Deep Learning Innovations and Their Convergence With Big Data ........................................................................................................ 21
Design and Development of Affordable Healthcare Technologies .................................................................................................... 51
Design and Optimization of Mechanical Engineering Products ........................................................................................................ 32
Design and Use of Virtualization Technology in Cloud Computing ................................................................................................... 20
Designing Grid Cities for Optimized Urban Development and Planning ............................................................................................ 25
Design Parameters of Electrical Network Grounding Systems ........................................................................................................ 33
Design Solutions for nZEB Retrofit Buildings ..................................................................................................................................... 32
Developing Effective Literacy Intervention Strategies: Emerging Research and Opportunities ......................................................... 27
Developing In-House Digital Tools in Library Spaces ......................................................................................................................... 45
Developing Organizational Maturity for Effective Project Management .................................................................................................. 9
Developments and Trends in Intelligent Technologies and Smart Systems ........................................................................................ 21
Deviant Communication in Teacher-Student Interactions: Emerging Research and Opportunities ......................................................... 28
Differentiated Instructional Design for Multicultural Environments: Emerging Research and Opportunities ........................................... 27

Effective Open Innovation Strategies in Modern Business: Emerging Research and Opportunities ... 5
Effective Solutions to Pollution Mitigation for Public Welfare .............................. 36
Effective Techniques for Managing Trigeminal Neuralgia ......................................... 52
EHT Transmission Performance Evaluation: Emerging Research and Opportunities ........ 33
Electrocardiogram Signal Classification and Machine Learning: Emerging Research and Opportunities ......................................................................................... 51
Electromagnetic Compatibility for Space Systems Design ............................................ 32
Electronic Nose Technologies and Advances in Machine Olfaction ............................ 30
E-Manufacturing and E-Service Strategies in Contemporary Organizations ................. 8
Emergency and Disaster Management: Concepts, Methodologies, Tools, and Applications (3 Vols.) ........................................................................................................... 40
Emergent Research on Polymeric and Composite Materials ........................................ 33
Emerging Applications in Supply Chains for Sustainable Business Development ........ 2
Emerging Developments and Practices in Oncology ....................................................... 53
Emerging Economic Models for Global Sustainability and Social Development .......... 4
Emerging Self-Directed Learning Strategies in the Digital Age .................................... 27
Emerging Synthesis Techniques for Luminescent Materials ......................................... 31
Emerging Technologies and Work-Integrated Learning Experiences in Allied Health Education .................................................................................................................. 27
Emerging Trends in Cyber Ethics and Education ......................................................... 23
Emerging Trends in Open Source Geographic Information Systems ............................ 35
Emerging Trends, Techniques, and Tools for Massive Open Online Course (MOOC) Management ................................................................................................................ 25
Empirical Research on Semiotics and Visual Rhetoric .................................................. 48
Employment Protection Legislation in Emerging Economies .................................... 13
Encyclopedia of Information Science and Technology, Fourth Edition ......................... 16
End-User Considerations in Educational Technology Design ...................................... 29
Energetic Materials Research, Applications, and New Technologies .......................... 33
Engaged Scholarship and Civic Responsibility in Higher Education ............................ 28
Engaging Adolescent Students in Contemporary Classrooms: Emerging Research and Opportunities ............................................................................................................... 27
Engaging STEM Students From Rural Areas: Emerging Research and Opportunities .......... 22
English as a Foreign Language Teachers’ TRAACK: Emerging Research and Opportunities .................................................................................................................. 24
Enhancing Art, Culture, and Design With Technological Integration .......................... 47
Enhancing Competitive Advantage With Dynamic Management and Engineering ...... 7
Enhancing Education and Training Initiatives Through Serious Games ....................... 28
Enhancing Education Through Open Degree Programs and Prior Learning Assessment ...... 26
Enhancing Knowledge Discovery and Innovation in the Digital Era ............................ 44
Enhancing Social Presence in Online Learning Environments .................................... 26
Enhancing Software Fault Prediction With Machine Learning: Emerging Research and Opportunities ............................................................................................................... 20
Ensuring Research Integrity and the Ethical Management of Data ............................... 44
Enterprise Resiliency in the Continuum of Change: Emerging Research and Opportunities .................................................................................................................. 13
Entrepreneurship and Business Development in the Renewable Energy Sector .......... 11
Entrepreneurship, Collaboration, and Innovation in the Modern Business Era .......... 8
Environmental Awareness and the Role of Social Media ............................................. 35
Environmental Information Systems: Concepts, Methodologies, Tools, and Applications (3 Vols.) ............................................................................................................... 34
E-Planning and Collaboration: Concepts, Methodologies, Tools, and Applications (3 Vols.) .................................................................................................................. 30
Equity, Equality, and Reform in Contemporary Public Education ......................... 26
Establishing Food Security and Alternatives to International Trade in Emerging Economies .................................................................................................................. 41
Ethical Issues in Social Work Practice ........................................................................ 59
Ethical Standards and Practice in International Relations ........................................... 59
Ethics and Decision-Making for Sustainable Business Practices ......................... 10
Evaluating Media Richness in Organizational Learning .............................................. 12
Evolving Entrepreneurial Strategies for Self-Sustainability in Vulnerable American Communities ................................................................................................................. 12
Examining Cloud Computing Technologies Through the Internet of Things .............. 48
Examining Developments and Applications of Wearable Devices in Modern Society ........ 48
Examining the Changing Role of Supervision in Doctoral Research Projects: Emerging Research and Opportunities .......................................................... 29
Examining the Emotional Dimensions of Academic Librarianship: Emerging Research and Opportunities ................................................................................................. 45
Examining the Private Sector’s Role in Wealth Creation and Poverty Reduction .......... 41
Examining the Role of Women Entrepreneurs in Emerging Economies .................... 7
Examining the Teacher Induction Process in Contemporary Education Systems ....... 24
Experience-Based Human-Computer Interactions: Emerging Research and Opportunities .................................................................................................................. 21
Expert System Techniques in Biomedical Science Practice ........................................ 51
Exploring Critical Approaches of Evolutionary Computation .................................. 15
Exploring Journalism Practice and Perception in Developing Countries .................. 48
Exploring the Convergence of Big Data and the Internet of Things ....................... 21
Exploring the Global Competitiveness of Agri-Food Sectors and Serbia’s Dominant Presence: Emerging Research and Opportunities ...................................... 12
Exploring the Pressures of Medical Education From a Mental Health and Wellness Perspective ................................................................................................................ 53
Exploring the Relationship Between Media, Libraries, and Archives ...................... 42
Exploring the Rise of Fandom in Contemporary Consumer Culture ....................... 12
Exploring the Role of Social Media in Transnational Advocacy ................................ 58
Exploring Transmedia Journalism in the Digital Age .................................................. 49
Extending the Principles of Flipped Learning to Achieve Measurable Results: Emerging Research and Opportunities .......................................................... 29
Extracting Knowledge From Opinion Mining ............................................................ 14
Faculty Mentorship at Historically Black Colleges and Universities ....................... 26
Fashion and Textiles: Breakthroughs in Research and Practice ................................. 12
Feature Dimension Reduction for Content-Based Image Identification .................... 46
Financial Entrepreneurship for Economic Growth in Emerging Nations .................. 12
Financial Sustainability and Intergenerational Equity in Local Governments ............ 39
Fog Computing: Breakthroughs in Research and Practice ........................................... 18
Food Science and Nutrition: Breakthroughs in Research and Practice .......................... 53
Food Systems Sustainability and Environmental Policies in Modern Economies .......... 36
Foreign Direct Investments (FDIs) and Opportunities for Developing Economies in the World Market ................................................................................................. 10
Formation Methods, Models, and Hardware Implementation of Pseudorandom Number Generators: Emerging Research and Opportunities ...................................... 21
Formative Assessment Practices for Pre-Service Teacher Practicum Feedback: Emerging Research and Opportunities .......................................................... 29

All IGI Global books are available online through the InfoSci® Platform. For more information on IGI Global’s InfoSci® Platform, please visit www.igi-global.com/e-resources.
