Celebrating 30 Years of Scholarly Knowledge Creation & Dissemination

New Scholarly JOURNALS

175+ authoritative, peer-reviewed, academic journals in many scholarly research areas, such as:

- Business and Management
- Computer Science and Information Technology
- Education
- Engineering
- Environmental, Agricultural, and Physical Sciences
- Government and Law
- Library and Information Science
- Media and Communications
- Medical, Healthcare, and Life Sciences
- Security and Forensics
- Social Sciences and Humanities

Order Directly Through the IGI Global Online Bookstore and Receive 20% Off All Publications
Visit www.igi-global.com or see back cover for more details.
Dear Colleagues,

I am pleased to present IGI Global's collection of more than 175+ scholarly journals contributed to by some of the most prominent researchers in the field. Each journal contains authoritative research focused in 11 different subject areas: Business and Management, Computer Science and Information Technology, Education, Engineering, Environmental, Agricultural, and Physical Sciences, Government and Law, Library and Information Science, Media and Communications, Medical, Healthcare, and Life Sciences, Security and Forensics, and Social Sciences and Humanities. Due to their transparent publishing process and rigorous double-blind peer review, IGI Global journals are highly-cited and recognized in a number of prestigious indices. Professionals, consultants, students, educators, and independent researchers will greatly benefit from the vetted content found within these scholarly sources.

Kind Regards,

Lindsay Wertman
Managing Director

InfoSci®-Journals

A Collection of 175+ Scholarly Journals Containing 22,000+ Quality, Vetted Articles With Over One Million Reference Citations

Annual Subscription Price for New Customers, As Low As:

US$4,950*

*Receive a 25% Discount When You Sign Up For an IGI Global Library Account

This comprehensive collection of over 175 e-journals offers unlimited access to over 22,000 highly-cited, forward-thinking research articles that are included in prestigious indices such as Web of Science, Scopus, Ei Compendex, INSPEC, and more. All journals within InfoSci-Journals are available in full-text PDF and XML format with no DRM.

Librarian Features:
• No Set-Up or Maintenance Fees
• Guarantee of No More Than 5% Annual Increases
• COUNTER 4 Usage Reports
• Complimentary Archival Access
• Free MARC Records

Researcher Features:
• Unlimited Simultaneous Users
• No Embargo of Content
• Full Journal Issue Download
• Full-Text Search Engine
• No DRM

To Find Out More or Request a Free Trial:
eresources@igi-global.com • 1-866-342-6657 ext. 100 • 717-533-8845 ext. 100 • www.igi-global.com/infosci-journals

*InfoSci®-Journals annual subscription price is only available for new InfoSci®-Journal subscriptions. The InfoSci®-Journal annual subscription price cannot be combined with any other offer.
Subject Area Coverage

**Business & Management**
- Accounting and Finance
- Business Education
- Business Ethics and Law
- Business and Organizational Research
- Business Information Systems
- Business Policy
- E-Business
- E-Commerce
- Economics and Economic Theory
- Electronic Services
- Entrepreneurship
- Global Business
- Hospitality, Travel, and Tourism Management
- Human Aspects of Business
- Human Resource Management
- Industrial Informatics
- Management Science
- Marketing
- Operations and Service Management
- Risk Assessment
- Small and Medium Enterprises

**Computer Science & Information Technology**
- Artificial Intelligence
- Cognitive Informatics
- Computer Engineering
- Computer Science Education
- Data Analysis and Statistics
- Data Mining and Databases
- Decision Support Systems
- Global Information Technology
- High Performance Computing
- Human Computer Interaction
- IT Policy and Standardization
- IT Research and Theory
- Network Architecture
- Systems and Software Engineering
- Theoretical Computer Science
- Web Technologies

**Education**
- Curriculum Development and Instructional Design
- Educational Administration and Leadership
- Educational Marketing
- Educational Technologies
- Higher Education
- Teacher Education
- Learning Assessment and Measurement
- K-12 Education
- Special Education

**Engineering**
- Aerospace Engineering
- Aviation Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Engineering Education
- Engineering Science
- Industrial Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Mining Engineering
- Optical Engineering

**Environmental, Agricultural, & Physical Sciences**
- Agricultural and Food Technologies
- Earth Science
- Environmental Engineering
- Environmental Science and Technologies
- Geographic Information Systems
- Sustainability

**Government & Law**
- Civic Engagement
- Crisis Response and Management
- Electronic Government
- Government and Law
- Public and Sector Management
- Public Health and Welfare

**Library & Information Science**
- Information Resources Management
- Information Retrieval
- Knowledge Management
- Library Administration
- Library Science
- Research Methods

**Medical, Healthcare, & Life Sciences**
- Bioinformatics
- Biology
- Chemistry
- Clinical Sciences
- Emergency Medicine
- Health Information Systems
- Healthcare Administration
- Medical Diagnosis and Practice
- Medical Education
- Medical Engineering
- Medical Ethics
- Medical Technologies
- Nutrition and Food Science
- Pharmacology
- Psychiatry and Mental Health

**Media & Communications**
- Art and Design
- Communications Theory
- Digital Communications
- Digital Media
- Networking and Telecommunications
- Mass Communications
- Mobile and Wireless Computing
- Multimedia Technology
- Social Computing

**Security & Forensics**
- Cyber Warfare and Cyber Terrorism
- Cyber and Network Security
- Criminal Science and Forensics
- IT Security and Ethics
- National Security
- Surveillance Systems

**Social Sciences & Humanities**
- Archaeology and Anthropology
- Digital Humanities
- Ethics and Social Responsibility
- Gender and Diversity
- Human Aspects of Technology
- Linguistics
- Philosophy
- Political Science
- Psychology
- Religious Studies
- Socio-Economic Development
- Sociology

SIGN UP FOR A Free IGI Global Library Account and Receive a 25% Discount on All Purchases

- A 25% discount on all purchases made directly through IGI Global!
- Multiple payment options.
- Instantly access electronic purchases through IGI Global’s InfoSci® platform.
- Product referrals and recommendations.
- First-rate customer service.

*List includes 2017 and earlier titles. For a complete list, please contact marketing@igi-global.com*
International Journal of Responsible Leadership and Ethical Decision-Making

Editor(s)-in-Chief: Dr. Jason Jackson (Jackson Research Institute, USA)

The International Journal of Responsible Leadership and Ethical Decision-Making (IJRLEDM) focuses on the role of science to help improve leadership within business, to include traditional and emerging future leadership roles, responsibilities, cognition, leadership decision-making, ethics, and research methods supporting qualitative and quantitative study of these areas of life, business, and academics.

International Journal of Islamic Marketing and Business Strategy

Editor(s)-in-Chief: Prof. Obeid Ruff (Bloomburg University of Pennsylvania, USA) and Prof. Asif Zaman (Cardiff Metropolitan University, UK)

Islamic business practices are evolving as new means of business are created. The International Journal of Islamic Marketing and Business Strategy (IJIMBS) will identify and research the permissibility and viability of new innovation or ideas in the business world as it pertains to the Muslim community in various regions of the world. This journal aims to enlighten those observing Islamic principles to have a guide from which to derive a source of modern business, technological, and financial legislation for the accommodation of Islamic principles that will compliment business activities.

International Journal of R&D Innovation Strategy

Editor(s)-in-Chief: Dr. Donghun Yoon (Korea Basic Science Institute, Korea, Republic Of)

The International Journal of R&D Innovation Strategy (IJRDIS) is a leading international journal on research for R&D innovation strategy, science and technology policy, and technology management. This journal is focused on R&D strategy issues for the advancement, the policy, and the efficiency improvement in science and technology. Covering the full range of topics in R&D strategy design, R&D innovation, strategy mechanism, science and technology policy, interdisciplinary research, and R&D education issues.
International Journal of Asian Business and Information Management

Editor(s)-in-Chief: Dr. Patricia Ordóñez de Pablos (Universidad de Oviedo, Spain)

Provides timely and in-depth analysis on the globalization and sustained development of Asian commerce and management technologies with a clear international and interdisciplinary approach.

International Journal of E-Services and Mobile Applications

Editor(s)-in-Chief: Dr. Mirjana Pejic-Bach (University of Zagreb, Croatia)

Provides comprehensive coverage and understanding of all aspects of e-services, self-services and mobile communication from different fields including marketing, management, and MIS.

International Journal of Business Intelligence Research

Editor(s)-in-Chief: Dr. William Yeoh (Deakin University, Australia)

A peer-reviewed publication dedicated to exchanging the latest academic research and practical findings on all aspects of managing business intelligence in organizations. LJBR serves to improve the role, scope, and impact of BI on decision making and to provide a mechanism for sharing research to a global audience.

International Journal of Operations Research and Information Systems

Editor(s)-in-Chief: Dr. John Wang (Montclair State University, USA)

Examines current, state-of-the-art advances in the interactions, linkages, applications, and support of operations research with information systems. Covering emerging theories, principles, models, processes, and applications within the field, this journal provides practitioners, educators, and researchers with an international collection of all operations research facets.

International Journal of Customer Relationship Marketing and Management

Editor(s)-in-Chief: Prof. Riyad Eid (United Arab Emirates University, UAE)

Addresses critical success factors for CRM implementation, activities that are affected by the use of CRM programs, and consequent performance outcomes. JCRM documents the role of CRM in different sectors and industries and identifies marketing activities that are affected by its usage.

International Journal of E-Business Research

Editor(s)-in-Chief: Dr. Payam Hanafizadeh (Allameh Tabataba’i University, Iran) and Dr. Jeffrey Hsu (Fairleigh Dickinson University, USA)

Provides an international forum for researchers and practitioners to advance the knowledge and practice of all facets of electronic business.
Publishes high-quality and significant research from disciplines like healthcare, manufacturing, natural resources, agriculture, government, education, military, transportation, finance, and technology.

The journal encourages risk and contingency research from disciplines like healthcare, manufacturing, natural resources, agriculture, government, education, military, transportation, finance, and technology.

Presented current studies on the nature, processes, and practices of e-entrepreneurship and innovation, this journal contains theoretical and practical approaches, as well as challenges, legal and ethical issues, and future trends.

E-Entrepreneurship and Innovation

Dr. Kenneth David Strang (State University of New York, USA, and APPC Research, Australia)

The journal encourages risk and contingency research from disciplines like healthcare, manufacturing, natural resources, agriculture, government, education, military, transportation, finance, and technology.

The journal encourages risk and contingency research from disciplines like healthcare, manufacturing, natural resources, agriculture, government, education, military, transportation, finance, and technology.

Published new research, innovations, developments, and ideas in the areas of productivity, efficiency, and performance measurement and management, including new techniques, approaches, and related reflective analysis.

International Journal of Sustainable Economies Management

Dr. Dorel Dusmanescu (Petroleum - Gas University of Ploiesti, Romania), Dr. Andrei Jean-Vasile (Petroleum - Gas University of Ploiesti, Romania) and Prof. Gheorghe H. Popescu (Stantul Pantelimon Emergency Hospital, Romania)

Publishes analysis, research papers, and essays that examine issues of major economic importance for academics and the business community.

Economies Management

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.

International Journal of Online Marketing

Economies Management

Dr. Hatem El-Gohary (Birmingham City University Business School, UK and Cairo University Business School, Egypt)

Offers an important and critical platform for researchers, practitioners, entrepreneurs, policymakers, and educators to present and discuss their experiences and perspectives on important issues and current trends related to marketing activities and research in an online context.
International Journal of Business Analytics

Editor(s)-in-Chief: Dr. John Wang (Montclair State University, USA)

Bridges the gap among different disciplines such as data mining, business process optimization, applied business statistics, and business intelligence/information systems. The journal supports and provides tools to allow companies and organizations to make frequent, faster, smarter, and data-driven, and real-time decisions.

International Journal of Corporate Finance and Accounting

Editor(s)-in-Chief: Prof. Constantine Cantzos (Technological Education Institute (TEI) of Piraeus, Greece), et al.

Publishes innovating research results involving the use of advanced quantitative methods in corporate finance and accounting, as well as articles that adopt an integrated and interdisciplinary approach toward addressing important decision- and policy-making problems in these fields.

International Journal of Applied Management Sciences and Engineering

Editor(s)-in-Chief: Dr. Carolina Machado (University of Minho, Portugal) and Dr. J. Paulo Davim (University of Aveiro, Portugal)

Communicates the latest developments on the subject of management worldwide. UAMSE links management sciences and engineering disciplines to promote sustainable development.

International Journal of Food and Beverage Manufacturing and Business Models

Editor(s)-in-Chief: Dr. Constantin Zopounidis (Technical University of Crete, Greece), et al.

Presents innovative research on topics pertaining to key business issues within the food and beverage industries, including, but not limited to promotional strategies, managerial practice, logistics and operations management, and economic considerations.

International Journal of Sustainable Entrepreneurship and Corporate Social Responsibility

Editor(s)-in-Chief: Dr. Amulya Gurtu (University of Wisconsin-Green Bay, USA), et al.

A peer-reviewed publication dedicated to social entrepreneurship. It is a multi-disciplinary, multi-functional, and multi-contextual scholarly forum for exchanging the latest research on all aspects of sustainable entrepreneurship.

International Journal of Tourism and Hospitality Management in the Digital Age

Editor(s)-in-Chief: Dr. Angelo A. Camillo (Woodbury University, USA)

Explores managerial solutions, business models, digital tools, and service innovations for maintaining a competitive edge in the travel and leisure industry.

International Journal of Marketing and Sales Education

Editor(s)-in-Chief: Dr. Brent Smith (Saint Joseph’s University, USA)

A peer-reviewed publication that features a diverse portfolio of contributions that advance teaching and learning from marketing and sales perspectives. The journal acknowledges the unique value of different yet complementary perspectives, and provides an inclusive space for academics, administrators, and practitioners from around the world.
International Journal of Cyber-Physical Systems

**Editor(s)-in-Chief:** Dr. Jing Wang (Bradley University, USA)

The *International Journal of Cyber-Physical Systems* (IJCPS) aims at presenting the state-of-the-art on controls of distributed cyber-physical systems. The particular focus is on distributed control, estimation, optimization and applications of networked cyber-physical systems.

International Journal of Data Warehousing and Mining

**Editor(s)-in-Chief:** Dr. David Taniar (Monash University, Australia)

Disseminates the latest international research findings in the areas of data management and analyzation. IJDWM provides a forum for state-of-the-art developments and research, as well as current innovative activities focusing on the integration between the fields of data warehousing and data mining.

International Journal on Semantic Web and Information Systems

**Editor(s)-in-Chief:** Dr. Miltiadis D. Lytras (The American College of Greece, Greece)

Promotes a knowledge transfer channel where academics, practitioners, and researchers can discuss, analyze, criticize, synthesize, communicate, elaborate, and simplify the more-than-promising technology of the semantic Web in the context of information systems. The journal aims to establish value-adding knowledge transfer and personal development channels in three distinctive areas: academia, industry, and government.
Journal of Cases on Information Technology
Editor(s)-in-Chief: Dr. Andrew Borchers (Lipscomb University, USA)

Publishes comprehensive, real-life teaching cases, empirical and applied research-based case studies, and case studies based on individual, organizational, and societal experiences related to the utilization and management of information technology.

International Journal of Standardization Research
Editor(s)-in-Chief: Dr. Kai Jakobs (RWTH Aachen University, Germany)

Publishes the latest research related to standards and standardization in organizations of all types and society at large. Emphasizes theoretical perspectives, empirical research, and real-world case studies and examples.

International Journal of Information Technology and Web Engineering
Editor(s)-in-Chief: Dr. Ghazi I. Alkhatib (The Hashemite University, Jordan)

Publishes refereed papers in the area covering information technology (IT) concepts, tools, methodologies, and ethnography in the contexts of global communication systems and Web engineered applications.

International Journal of Cognitive Informatics and Natural Intelligence
Editor(s)-in-Chief: Dr. Yingyu Wang (University of Calgary, Canada)

Encourages submissions that transcend disciplinary boundaries, and is devoted to rapid publication of high quality papers. IJCIINI publishes regular papers, technical correspondences, case studies, letters to the editor, book reviews, conference reports, and special issues.

International Journal of Information Technology Research
Editor(s)-in-Chief: Prof. Francisco José García-Peñalvo (University of Salamanca, Spain)

Presents comprehensive interdisciplinary and refereed research on the most emerging and breakthrough areas of information science and technology. The journal seeks to improve and expand existing research in underrepresented areas of information science and technology in all areas of global implication.

International Journal of Grid and High Performance Computing
Editor(s)-in-Chief: Dr. Ching-Hsien Hsu (Chung Hua University Kingsville, USA)

Examines current, state-of-the art research on all aspects of grid and cloud evolution, middleware, standards, API, economy, education, services, algorithms, flow management, wireless systems, and more.

International Journal of Swarm Intelligence Research
Editor(s)-in-Chief: Dr. Yuhui Shi (Southern University of Science and Technology (SUSTech), China)

Serves as a forum for facilitating and enhancing the information sharing among swarm intelligence researchers in the field, ranging from algorithm developments to real-world applications.

International Journal of E-Adoption
Editor(s)-in-Chief: Dr. Sushil Sharma (Ball State University, USA) and Dr. Hayden Wimmer (Georgia Southern University, USA)

A double-blind refereed international journal whose focus is to promote research in the area of e-adoption. UJE distinguishes itself as a unique journal to cover the wide facets of e-adoption ranging from infrastructural research to socio-economic impact.

International Journal of Intelligent Information Technologies
Editor(s)-in-Chief: Dr. Vijayan Sugumaran (Oakland University, USA)

Brings together researchers in related fields such as information systems, distributed AI, intelligent agents, and collaborative work, to explore and discuss various aspects of design and development of intelligent technologies.
Journal of Global Information Management

Editor(s)-in-Chief: Dr. Zuopeng (Justin) Zhang (State University of New York, USA)

The organizational applications and managerial implications of technology resources warrant a forum for the discussion. The Journal of Global Information Management (JGIM) has an important role to play in providing such a forum for researchers and practitioners to share leading-edge knowledge in the global information resource management area.

Print + E-Journal: US $920

Topics Covered
- Global enterprise systems and e-commerce
- Global IT and government
- Global IT diffusion and infrastructure
- Global IT in library and information management
- Global manufacturing and R&D information systems
- Global marketing and human resources information systems
- Global qualitative IS research
- Global telecommunications and data security
- IT in Europe
- IT in Latin and North America
- IT in the Asia Pacific
- IT in the Middle East and Africa

International Journal of Distributed Systems and Technologies

Editor(s)-in-Chief: Dr. Nik Bessis (Edge Hill University, UK)

Focuses on integration techniques, methods, and tools employed in applied distributed computing systems, architectures, and technologies. JDST pays particular attention to this dimension as a means of diversifying and broadening the applicability and scope of knowledge in the area of distributed systems and technologies.

International Journal of Agent Technologies and Systems

Editor(s)-in-Chief: Prof. Saeed Balochian (Islamic Azad University of Gonabad, Islamic Republic of Iran)

This journal serves as an inclusive forum for discussion of theoretical and practical issues of intelligent agent technologies and multi-agent systems while bringing together scientists from different areas of computer science as well as researchers.

ISSN: 1943-0744; EISSN: 1943-0752
Established 2009; Published Semi-Annually

International Journal of Web Portals

Editor(s)-in-Chief: Dr. Maria Manuela Cruz-Cunha (Polytechnic Institute of Cavado and Ave, Portugal) and Prof. Emanuel Soares Peres (University of Trás-os-Montes and Alto Douro, Portugal)

This journal serves as means for researchers, developers, and industry practitioners to publish their research and practical experiences in the technological, business, organizational, and social dimensions of Web portals development and applications.

ISSN: 1938-0194; EISSN: 1938-0208

International Journal of Synthetic Emotions

Editor(s)-in-Chief: Dr. Amira S. Ashour (Tanta University, Egypt) and Dr. Nilanjnan Dey (Techno India College of Technology, India)

Covers the main issues relevant to the generation, expression, and use of synthetic emotions in agents, robots, systems, and devices. This journal covers a wide range of topics such as emotion recognition, sociable robotics, and emotion-based control systems useful to field practitioners, researchers, and academicians.

ISSN: 1942-3262; EISSN: 1942-3934

International Journal of Open Source Software and Processes

Editor(s)-in-Chief: Dr. Antonio Pecchia (Università degli Studi di Napoli Federico II, Italy)

Publishes high-quality peer-reviewed and original research articles on the special development process performed by a large number of geographically dispersed programmers, community issues like coordination and communication, motivations of the participants, and also economic and legal issues.

ISSN: 1942-9037
Established 2009; Published Quarterly

Pricing

International Journal of Software Science and Computational Intelligence

Editor(s)-in-Chief: Dr. Yingyu Wang (University of Calgary, Canada)

A transdisciplinary, archived, and rigorously refereed journal that publishes and disseminates cutting-edge research findings and technological developments in the emerging fields of software science and computational intelligence, as well as their engineering applications.

ISSN: 1947-9093; EISSN: 1947-9107
Established 2010; Published Semi-Annually

International Journal of Adaptive, Resilient and Autonomic Systems

*Editor(s)-in-Chief:* Dr. Mehdi Khosrow-Pour (Information Resources Management Association, USA)

Examines systems and organizations characterized by the following two properties: the ability to self-adapt to the characteristics of rapidly changing and turbulent environments by adopting complex individual and social strategies and the ability to control their changes to prevent the invalidation of their original mission statements.

International Journal of Computer Vision and Image Processing

*Editor(s)-in-Chief:* Dr. Jose Garcia-Rodriguez (University of Alicante, Spain)

Provides the latest industry findings useful to academicians, researchers, and practitioners regarding the latest developments in the areas of science and technology of machines, imaging, and their related applications, systems, and tools. This journal contains unique articles of original, innovative research in computer science, education, security, government, engineering disciplines, software industry, vehicle industry, and other fields.

International Journal of Technology Diffusion

*Editor(s)-in-Chief:* Dr. Ali Hussein Saleh Zolait (University of Bahrain, Bahrain)

An international journal publishing original scientific and quality research articles on management information systems, technology diffusion, and business systems application aspects of e-commerce, e-government, and mobile applications.

International Journal of Organizational and Collective Intelligence

*Editor(s)-in-Chief:* Dr. Victor Chang (Xi’an Jiaotong Liverpool University, China) and Dr. Dickson K.W. Chiu (The University of Hong Kong, Hong Kong)

Focuses on computing theories and empirical analyses of shared knowledge relevant to businesses. Containing both practical and theoretical articles on the technical and managerial aspects of intelligent computing, this journal reflects on current advancements in a variety of areas including knowledge computing, decision science, organizational systems, and robotics.

International Journal of Rough Sets and Data Analysis

*Editor(s)-in-Chief:* Dr. Nilanjan Dey (Techno India College of Technology, India)

A multidisciplinary journal that publishes high-quality and significant research in all fields of rough sets, granular computing, and data mining techniques. Rough set theory is a mathematical approach concerned with the analysis and modeling of classification and decision problems involving vague, imprecise, uncertain, or incomplete information.

Journal of Database Management

*Editor(s)-in-Chief:* Dr. Keng Siu (Missouri University of Science and Technology, USA)

Publishes original research on all aspects of database management, systems analysis and design, and software engineering. The primary mission of JDM is to be instrumental in the improvement and development of theory and practice related to information technology and management of information resources. The journal is targeted at both academic researchers and practicing IT professionals.
International Journal of System Dynamics Applications

Editor(s)-in-Chief: Dr. Ahmad Taher Azar (Benha University, Egypt)
Publishes original scientific and quality research on the theory of and advances in dynamical systems with analyses of measure-theoretical and topological aspects. Provides audiences with an extensive exploration of the perspectives and methods of system dynamics and system thinking.

International Journal of Fuzzy System Applications

Editor(s)-in-Chief: Prof. Deng-Feng Li (Fuzhou University, China)
A comprehensive reference journal, dedicated to presenting the most innovative systematic and practical facets of fuzzy systems to students, scholars, and academicians, as well as practitioners, engineers and professionals.

International Journal of Conceptual Structures and Smart Applications

Editor(s)-in-Chief: Prof. Simon Polovina (Sheffield Hallam University, UK) and Prof. Simon Andrews (Sheffield Hallam University, UK)
Provides a forum for the role of Conceptual Structures (CS) and Smart Applications (SA) in arts, business, science and social applications. Brings together research that spans these domains to explore ways that CS and SA can enrich these human endeavors.

International Journal of Robotics Applications and Technologies

Editor(s)-in-Chief: Prof. Dan Zhang (York University, Canada)
A multidisciplinary journal that publishes high-quality and significant research in all fields of robotics. Contributions conduct state-of-the-art research on technologies and practical applications that support and foster the improvement of robots.

International Journal of Environmental Computing and Internet of Things

Editor(s)-in-Chief: Dr. Abhijit S. Chatterjee (Indian Agricultural Research Institute, India)
Provides a forum for the role of Conceptual Structures (CS) and Smart Applications (SA) in arts, business, science and social applications. Brings together research that spans these domains to explore ways that CS and SA can enrich these human endeavors.

International Journal of Software Innovation

Editor(s)-in-Chief: Dr. Roger Y. Lee (Central Michigan University, USA) and Prof. Lawrence Chung (The University of Texas at Dallas, USA)
Covers state-of-the-art research and development in all aspects of evolutionary and revolutionary ideas pertaining to software systems and their development.
International Journal of Teacher Education and Professional Development

**Editor(s)-in-Chief:** Dr. Molly Zhou (Dalton State College, USA)

Invites quantitative and qualitative research and interdisciplinary studies in education, especially in teacher preparation, to include areas of assessment, technology, diversity, and cultural competency. By establishing an academic open discourse on this growing and vital profession, this journal provides a venue for educators, education professionals, and researchers to share emerging topics, issues, findings, and results concerning education and teacher preparation. Articles, reviews, and research projects included in the journal provide insights to the understanding of teaching and learning, and add new knowledge to enrich continued discussion on teaching as a profession.

International Journal of Distance Education Technologies

**Editor(s)-in-Chief:** Dr. Maiga Chang (Athabasca University, Canada)

A forum for researchers and practitioners to disseminate practical solutions to the automation of open and distance learning. Targeted to academic researchers and engineers who work with distance learning programs and software systems, as well as general users of distance education technologies and methods, IJDET discusses computational methods, algorithms, implemented prototype systems, and applications of open and distance learning. All manuscripts submitted to the journal are peer-reviewed according to the procedure consisting of initial review, peer review, and recommendation.

International Journal of Adult Vocational Education and Technology

**Editor(s)-in-Chief:** Dr. Victor C. X. Wang (Grand Canyon University, USA), Prof. Lyle Yorks (Columbia University, USA) and Prof. John A. Henschke (Lindenwood University, USA)

Provides a global look at educational technologies for adult learners with content drawing from theory, research, practice, individual experience, and insight by leading scholars, theorists, and practitioners worldwide. IJAVET provides educators, researchers, practitioners, and graduate students with insight into all areas affecting teaching, learning, research, and practice, sharing innovative pedagogies and inspirational insights into career and technical education (CTE), adult education, and technology.

International Journal of Bias, Identity and Diversities in Education

**Editor(s)-in-Chief:** Prof. Fred Dervin (University of Helsinki, Finland), Dr. Julie Byrd Clark (Western University, Canada) and Prof. Yongjian Li (Renmin University of China, China and University of Helsinki, Finland)

Investigates critically the positioning of diverse individuals in formal and informal contexts of education – from kindergarten to adult education, but also lifelong learning. Diversities here refer to different identity markers such as ethnicity, religion, gender, social class, disabilities and language. UBIDE is clearly positioned within a non-essentialist, non-culturalist perspective. UBIDE also aims to promote original research methods by linking up macro- and micro-approaches.

International Journal of Online Pedagogy and Course Design

Editor(s)-in-Chief: Dr. Chia-Wen Tsai (Ming Chuan University, Taiwan) and Prof. Pei-Di Shen (Ming Chuan University, Taiwan)

This journal provides effective Web-based teaching methods for teachers and educators. IJOPCD presents critical viewpoints for academic professionals in the development of online learning.

International Journal of Mobile and Blended Learning

Editor(s)-in-Chief: Dr. David Parsons (The Mind Lab by Unitec, New Zealand)

This journal contains useful articles for those seeking to learn, analyze, improve, and apply technologies in mobile and blended learning. The journal spans theoretical, technical, and pedagogical issues in mobile and blended learning.

International Journal of Game-Based Learning

Editor(s)-in-Chief: Prof. Patrick Felicia (Waterford Institute of Technology, Ireland)

This journal publishes theoretical manuscripts, empirical studies, and literature reviews. The journal publishes this multidisciplinary research from fields that explore the cognitive and psychological aspects that underpin successful educational video games.

International Journal of Computer-Assisted Language Learning and Teaching

Editor(s)-in-Chief: Prof. Bin Zou (Xi’an Jiaotong-Liverpool University, China) and Prof. Michael Thomas (University of Central Lancashire, UK)

This journal provides opportunities to evaluate, improve, and apply such strategies in the fields of CALL and foreign/second language learning.

International Journal of Virtual and Personal Learning Environments

Editor(s)-in-Chief: Prof. Thomas Connolly (University of the West of Scotland, United Kingdom)

Publishes high quality contributions (papers, book reviews) on a range of fields associated with Course Management Systems (CMS), Learning Management Systems (LMS), Virtual Learning Environments (VLE), Social Networking Sites (SNS), Personalized Learning Environments (PLE), and 3D virtual worlds, including for example Second Life (SL).

International Journal of Information and Communication Technology Education

Editor(s)-in-Chief: Dr. David D. Carbonara (Duquesne University, USA)

This journal's purpose is to grow this body of research, propose new applications of technology for teaching and learning, and document those practices that contribute irrefutable verification of information technology education as a discipline.

International Journal of Ethics in Digital Research and Scholarship

Prof. Jeffrey Hsu (Fairleigh Dickinson University, USA)

Publishes empirical research, theoretical studies, case studies, and book reviews that focus on ethics and the integrity of computer use in education, industry, medicine, government, and in the global business community.

International Journal of Technology and Educational Marketing

Dr. Purnendu Tripathi (IGNOU, India) and Dr. Siran Mukerji (IGNOU, India)

This journal publishes insightful books reviews, case studies on educational institutions and their marketing initiatives across the globe, and technological initiatives taken by institutions for marketing their educational programs.
Engineering

International Journal of Modern Statistical Thermodynamics

Editor(s)-in-Chief: Prof. Alireza Heidari (California South University, USA)

Aims to offer a platform for scientists all over the world to promote, share and discuss various new issues and developments in the areas of statistical thermodynamics. IUMST has an editorial policy of publishing original, high scientific quality research articles, reviews, mini reviews, case reports, image articles, rapid and short communications, perspectives, editorials, letters, notes, opinions, commentaries, methods, techniques and evaluation reports in all areas of statistical thermodynamics.

International Journal of Strategic Engineering

Editor(s)-in-Chief: Dr. Amin Hosseinian-Far (University of Northampton, UK)

Aims to provide a platform for researchers, academics, practitioners and emerging scholars to share their invaluable knowledge and expertise on the continuous development within the field of Strategic Engineering. Endurance, resilience, reliability and sustainability of applied systems are all of great importance to many businesses and industries. Complexity however is considered as one of the main obstacles. Modeling and optimization are often seen as a good initial point to tackle the complications in understanding of such systems.

International Journal of Secure Software Engineering

Editor(s)-in-Chief: Dr. Martin Gilje Jaatun (SINTEF ICT, Norway)

Publishes original research on the security concerns that construe during the software development practice. IJSSE promotes the idea of developing security-aware software systems from the ground up. This journal examines the software security from a software engineering perspective and addresses technical, as well as managerial aspects of secure software engineering. IJSSE includes all aspects of software security in the development, deployment, and management processes of software systems.

International Journal of Energy Optimization and Engineering

Editor(s)-in-Chief: Dr. Pandian Vasant (Universiti Teknologi Petronas, Malaysia), Dr. Gerhard-Wilhelm Weber (Poznan University of Technology, Poland) and Prof. Dieu Ngoc Vo (Ho Chi Minh City University of Technology, Vietnam)

Publishes global research in the areas of energy optimization and engineering. This journal provides relevant theoretical frameworks and the latest empirical research findings in the areas of energy systems and hybrid intelligent optimization.
International Journal of Materials Forming and Machining Processes

**Editor(s)-in-Chief:** Prof. J. Paulo Davim (University of Aveiro, Portugal)

A refereed journal that publishes high quality articles with an emphasis on research and development in forming materials and machining processes. The journal promotes environmentally friendly forming and machining technologies as well.

**Pricing**

International Journal of Manufacturing, Materials, and Mechanical Engineering

**Editor(s)-in-Chief:** Prof. J. Paulo Davim (University of Aveiro, Portugal)

A refereed, interdisciplinary journal that publishes high quality articles with special emphasis on research and development in manufacturing, materials and mechanical engineering.

**Pricing**

International Journal of Surface Engineering and Interdisciplinary Materials Science

**Editor(s)-in-Chief:** Prof. J. Paulo Davim (University of Aveiro, Portugal)

A refereed, interdisciplinary journal that publishes high quality articles on materials science with special emphasis in aspects related to surface engineering.

**Pricing**

International Journal of Chemoinformatics and Chemical Engineering

**Editor(s)-in-Chief:** Prof. A.K. Haghi (University of Guilan, Iran), et al.

Publishes significant research reporting new methodologies and important applications in the fields of chemical informatics as well as includes the latest coverage of chemical databases and the development of new computational methods and efficient algorithms.

**Pricing**

International Journal of Aviation Systems, Operations and Training

**Editor(s)-in-Chief:** Dr. Massoud Bazargan (Embry Riddle Aeronautical University, USA)

Consists of peer-reviewed technical and research papers, providing coverage of important insights, challenges, opportunities, trends, and innovative solutions to some of the most pressing concerns facing the industry.

**Pricing**

International Journal of Applied Industrial Engineering

**Editor(s)-in-Chief:** Dr. Landonn Ocampa (Cebu Technological University, Philippines)

Focuses on applied research in the areas of industrial engineering with a bearing on inter and intra disciplinary research. This journal publishes full-length research manuscripts, insightful research, and practice notes, as well as case studies.

**Pricing**

International Journal of Measurement Technologies and Instrumentation Engineering

**Editor(s)-in-Chief:** Prof. Ireneusz Jabłonski (Wroclaw University of Technology, Poland), et al.

A dedicated source for high quality papers on measurement and instrumentation and displays how every process must be represented by means of data and the outcome must be referred to the true value.

**Pricing**

International Journal of E-Planning Research

**Editor(s)-in-Chief:** Dr. Carlos Nunes Silva (University of Lisbon, Portugal)

Publishes original theoretical and innovative empirical research on the many aspects of the emerging interdisciplinary area of urban e-planning. The journal is mainly focused on urban e-planning theory, history, methods, ethics, future developments, and on the software technology associated with urban e-planning.

**Pricing**

International Journal of Quality Assurance in Engineering and Technology Education

**Editor(s)-in-Chief:** Dr. Arun Patil (Amity University Rajasthan, India)

An international refereed journal focusing on the best practices in the management of change and improvement in higher education. This journal provides valuable resources for academics and experts to publish in engineering education journals worldwide.

**Pricing**

All IGI Global journals are available online through InfoSci-Journals. New annual subscriptions available for as low as US$ 4,950. Contact eresources@igi-global.com for details.
Environmental, Agricultural, and Physical Sciences

International Journal of Agricultural and Environmental Information Systems
Edit(s)-in-Chief: Prof. Petraq Papajorgji (University of New York Tirana, Albania) and Dr. François Pinet (Institut National de Recherche pour l’Agriculture, l’Alimentation et l’Environnement - Clermont Ferrand, France)

Presents high quality research papers on the design and implementation of information systems in the fields of agronomics, mathematics, economics, computer science, and the environment. IJAES provides the latest innovative technologies in the construction of complex information systems and discusses the analysis, visualization, management, and dissemination of information, as well as the effective integration of agricultural and environmental information systems.

ISSN: 1947-3192; EISSN: 1947-3206
Established 2010; Published Quarterly

International Journal of Green Computing
Edit(s)-in-Chief: Dr. Mehdi Khosrow-Pour (Information Resources Management Association, USA)

Provides managers, academicians, scientists, and researchers in various government, public, and private sectors coverage of topical issues like green strategy, green transformation, green technology, green revolution, ecology system, sustainability supply chain, green and sustainable innovation, global warming, energy efficient system, recycling and reuse systems, product usability, reverse supply chain, closed loop supply chain, environmental issues, carbon footprints, renewable energy, applied ergonomics, and climate change. This journal offers research contributions, constructive debates, and investigations on new legislations on green IT, green processes, healthcare informatics, and applications in terms of environmental and climate issues for both manufacturing and service industry.

ISSN: 1948-5018; EISSN: 1948-5026
Established 2010; Published Semi-Annually

International Journal of Geotechnical Earthquake Engineering
Edit(s)-in-Chief: Prof. T.G. Sitharam (Indian Institute of Science, India) and Prof. J. S. Vinod (University of Wollongong, Australia)

Encourages publication and dissemination of research and development on geotechnical engineering, geophysics and geothermal engineering, pavement engineering, engineering seismology, engineering geology, disaster mitigation, and structural engineering. This journal presents original articles on the latest findings and industry solutions for those fields by the leading experts. The journal reports and archives cutting-edge research in a timely manner in the form of original research articles, review articles, technical notes, and discussion.

ISSN: 1947-8488; EISSN: 1947-8496
Established 2010; Published Semi-Annually

International Journal of 3-D Information Modeling
Edit(s)-in-Chief: Prof. Jason Underwood (University of Salford, UK), Dr. Sisi Zlatanova (University of New South Wales, Sydney, Australia) and Dr. Umit Isikdag (Mimar Sinan Fine Arts University, Turkey)

Focuses on three research domains: building information modeling, 3D GIS, and integration of 3D information in the urban built environment. IJ3DIM facilitates the exchange of current scientific information, as well as sharing of state-of-the art technological developments within the AEC industry.

ISSN: 2156-1710; EISSN: 2156-1702
Established 2012; Published Quarterly

www.igi-global.com Professors: Your expert opinion counts. Recommend IGI Global journals to your institution’s librarian today.
International Journal of Social Ecology and Sustainable Development

Editor(s)-in-Chief: Dr. Elias G. Carayannis (George Washington University, USA)

The International Journal of Social Ecology and Sustainable Development (IJSESD) addresses issues of sustainable economic, environmental, and financial development in advancing, developing, and transitioning economies through eco-innovation and eco-entrepreneurship-driven ideas and solutions. This journal contains a cross-disciplinary focus and presents leverage synergies from the synthesis of knowledge, learning, and experience from diverse fields of theory and practice. IJSESD provides coverage of timely and significant issues of sustainability and development with social ecology-driven concepts and practices.

Topics Covered:
- Biodiversity related to eco-innovation and eco-entrepreneurship
- Biotechnology related to eco-innovation and eco-entrepreneurship
- Clean/green technology valuation and risk capital financing
- Computational economics related to eco-innovation and eco-entrepreneurship
- Discontinuous innovations
- Disruptive Technologies
- Eco-entrepreneurship business models and value proposition case studies
- Eco-innovation and eco-entrepreneurship
- E-development (e-learning, e-health, e-business, e-government, and e-society)
- Environmental change and human development
- Environmental Informatics
- Game theory related to eco-innovation and eco-entrepreneurship
- Globalization
- ICT and knowledge for development
- Innovation networks
- Knowledge clusters
- Market and technology pull and push eco-innovation diffusion drivers
- Nanotechnology related to eco-innovation and eco-entrepreneurship
- Network science related to eco-innovation and eco-entrepreneurship
- Public-private sector partnerships for research and technology development
- Real options related to eco-innovation and eco-entrepreneurship
- Regional economic development related to eco-innovation and eco-entrepreneurship
- Renewable energy sources and uses
- Social Networking
- Socio-economic and socio-technical aspects of eco-innovation
- Technological learning

International Journal of Applied Geospatial Research

Editor(s)-in-Chief: Dr. Donald Patrick Albert (Sam Houston State University, USA)

The International Journal of Applied Geospatial Research (IJAGR) is a quarterly, peer-reviewed journal specializing in studies from applied geography that interface with geographic information science and technology. Including both regular and special themed issues, this journal presents policy analysts, geospatial practitioners, and academicians with high-quality articles exemplifying various application domains within applied geospatial research. IJAGR is interested in research highlighting various GIS&T application domains that span the social and physical sciences. The limiting factor is less topical, but more whether such studies incorporate geospatial technologies (geospatial statistics, global positioning systems, geographic information systems, remote sensing, etc.) to answer practical, utilitarian, and applied geographic questions.

Topics Covered:
- Biogeography
- Business and marketing geography
- Climatology
- Economic Geography
- Geography of crime
- Geomorphology
- Historical geography
- Medical geography
- Military geography
- Natural hazards
- Other geographic subfields
- Political geography
- Population geography
- Soil geography
- Tourism geography
- Transportation geography

“The IJAGR initiative is great news for all current and future applied geographers, and I congratulate everyone for contributing to the launch of this enterprise.”

– Dr. Barry Wellar, University of Ottawa, Canada
International Journal of Disaster Response and Emergency Management

**Editor(s)-in-Chief:** Dr. Dean Kyne (The University of Texas Rio Grande Valley, USA), et al.

Provides a forum from multidisciplinary backgrounds including social sciences, behavioral sciences, environmental sciences, engineering, geography, management, public policy, and emergency management can share emerging knowledge and disseminate study findings in all aspects of disaster and emergency studies.

**ISSN:** 2572-4940; **EISSN:** 2572-4932

Information Resources Management Journal

Editor(s)-in-Chief: Prof. George Kelley (University of Massachusetts, USA)

An applied research, refereed, international journal providing coverage of challenges, opportunities, problems, trends, and solutions encountered by both scholars and practitioners in the field of information technology management. IRMJ emphasizes the managerial and organizational facets of information technology resources management. Articles published in IRMJ deal with a vast number of issues concerning usage, failure, success, policies, strategies, and applications of information technology in organizations. This journal presents the latest findings and expert opinions of leading information technology managers in various industries.

International Journal of Decision Support System Technology

Editor(s)-in-Chief: Prof. Pascale Zaraté (Toulouse University, France)

Provides comprehensive coverage for DMSS technology issues which can involve, among other things, new hardware and software for DMSS, new models to deliver decision making support, dialog management between the user and system, and data and model base management within the system.

International Journal of Strategic Information Technology and Applications

Editor(s)-in-Chief: Prof. Caroline Howard (HC Consulting, USA), et al.

Provides state-of-the-art research on the optimization of performance in corporations, groups, associations, communities of practice, community organizations, governments, non-profits, nations, and societies that implement information systems.
Library and Information Science

International Journal of Information Technologies and Systems Approach

Editor(s)-in-Chief: Dr. Manuel Mora (Universidad Autónoma de Aguascalientes, Mexico)

A refereed global journal where a systemic interdisciplinary and/or a multi-methodology perspective of information systems, software engineering, and systems engineering are encouraged.

International Journal of Knowledge Management

Editor(s)-in-Chief: Dr. Murray E. Jennex (San Diego State University, USA)

Covers all aspects of knowledge regulation and order including organizational issues, technology support, and knowledge representation. IJKM provides a forum for global aspects of this significant field of study differing cultural perspectives on its use of knowledge and knowledge management.

International Journal of Digital Literacy and Digital Competence

Editor(s)-in-Chief: Prof. Antonio Cartelli (University of Cassino and Southern Lazio, Italy)

This journal proposes new instruments for everyday instruction, without excluding lifelong learning and the more general problem of community and social knowledge, and suggests complete integration of digital literacy and digital competence in youth.

International Journal of Information Technology Project Management

Editor(s)-in-Chief: Dr. John Wang (Montclair State University, USA)

The journal encompasses theoretical, analytical, or empirical research, comprehensive reviews of relevant research, technical reports, book reviews, and also case studies of effective applications in this area. The use of new frameworks, principles, technologies, methods, and techniques are emphasized.

International Journal of Information Retrieval Research

Editor(s)-in-Chief: Prof. Zhongyu (Joan) Lu (University of Huddersfield, UK)

Publishes original, innovative, and creative research in the retrieval of information. This journal focuses on theories and methods with an enterprise-wide perspective and addresses interdisciplinary and multidisciplinary applications in data, text, and document retrieval.

International Journal of Library and Information Services

Editor(s)-in-Chief: Dr. Brian Doherty (New College of Florida, USA)

Provides comprehensive coverage on the latest developments and technological advancements in library service innovation. Public, academic, special, and school libraries, as well as information centers worldwide are continuously challenged as library spaces evolve.

International Journal of Knowledge-Based Organizations

Editor(s)-in-Chief: Dr. John Wang (Montclair State University, USA)

The International Journal of Knowledge-Based Organizations (IJKBO) examines current, state-of-the-art research in the areas of decision sciences and business intelligence, and the interactions, linkages, and applications of knowledge-based business with information systems. This journal provides an international forum for practitioners, educators, and researchers to advance the knowledge and practice of all facets of KBO, emphasizing emerging theories, principles, models, processes, and applications to inspire and circulate cutting-edge findings into research, business, and communities.
Journal of Media Management and Entrepreneurship  
**Editor(s)-in-Chief:** Dr. Datis Khajeheian (University of Tehran, Iran, Islamic Republic Of)  
Aims to shed a light on entrepreneurial activities of media firms and to foster studies in the field of media entrepreneurship and media management. This journal aims to publish original and informative contributions that will benefit to scholars, entrepreneurs, small firms, policy makers, and practitioners in the field of media industry. Although this journal accepts every valuable and insightful methodologies, but the main focus will be on case studies as a source of practical knowledge for readers.

International Journal of Mobile Computing and Multimedia Communications  
**Editor(s)-in-Chief:** Prof. Agustinus Waluyo (Monash University, Australia)  
Publishes original research papers, state of the art reviews, technical notes, case studies, innovative projects, and book reviews on topics leveraging all aspects of mobile and multimedia computing: from underlying technologies to applications, theory to practice, and servers to networks to devices. The coverage of this journal ranges from innovative topics to research findings to trends analysis on mobile multimedia and related theories, technologies, methods, applications, and services from all engineering, business and organizational perspectives.

International Journal of Virtual Communities and Social Networking  
**Editor(s)-in-Chief:** Dr. Subhasish Dasgupta (George Washington University, USA)  
Virtual communities and social networking are changing our social and work environments. The International Journal of Virtual Communities and Social Networking (IJVCSN) provides a forum for researchers, practitioners, and users to study and discuss technical, social and legal issues in this fast changing environment. IJVCSN strives to be an interdisciplinary journal that draws upon research from different fields such as information systems, computer science, sociology, and psychology.

International Journal of Business Data Communications and Networking  
**Editor(s)-in-Chief:** Prof. Zoubir Mammeri (IRIT - Paul Sabatier University, France)  
This journal includes analytical and empirical research articles, business case studies, and surveys that provide solutions and insight into challenges facing telecommunication service providers, equipment manufacturers, enterprise users, and policy makers. IJBD CN covers the principles of both wired and wireless communications of voice, data, images, and video and the impact of their business values on the organizations in which they are used.
International Journal of Gaming and Computer-Mediated Simulations

**Editor(s)-in-Chief:** Dr. Mehdi Khosrow-Pour (Information Resources Management Association, USA)

A peer-reviewed, international journal devoted to the theoretical and empirical understanding of electronic games and computer-mediated simulations. The journal is interdisciplinary in nature; it publishes research from fields and disciplines that share the goal of improving the foundational knowledge base of games and simulations. The journal publishes critical theoretical manuscripts as well as qualitative and quantitative research studies, meta-analyses, and methodologically-sound case studies. The journal also includes book reviews to keep readers on the forefront of this continuously evolving field. Occasional special issues from the journal provide deeper investigation into areas of interest within either gaming or simulations.

International Journal of Interdisciplinary Telecommunications and Networking

**Editor(s)-in-Chief:** Prof. Michael R Bartolacci (Pennsylvania State University-Berks, USA) and Dr. Steven R. Powell (California State Polytechnic University - Pomona, USA)

Examines timely and important telecommunications and networking issues, problems, and solutions from a multidimensional, interdisciplinary perspective for researchers and practitioners. IJITN emphasizes the cross-disciplinary viewpoints of electrical engineering, computer science, information technology, operations research, business administration, economics, sociology, and law. The journal publishes theoretical and empirical research findings, case studies, and surveys, as well as the opinions of leaders and experts in the field. The journal’s coverage of telecommunications and networking is broad, ranging from cutting edge research to practical implementations.

International Journal of e-Collaboration

**Editor(s)-in-Chief:** Dr. Mehdi Khosrow-Pour (Information Resources Management Association, USA)

Addresses the design and implementation of e-collaboration technologies, assesses its behavioral impact on individuals and groups, and presents theoretical considerations on links between the use of e-collaboration technologies and behavioral patterns. An innovative collection of the latest research findings, this journal covers significant topics such as Web-based chat tools, Web-based asynchronous conferencing tools, e-mail, listservs, collaborative writing tools, group decision support systems, teleconferencing suites, workflow automation systems, and document management technologies.

International Journal of Multimedia Data Engineering and Management

**Editor(s)-in-Chief:** Prof. Shu-Ching Chen (Florida International University, USA)

Addresses the corresponding issues and challenges and publishes original research on new theories, algorithms, technologies, system design, and implementation in multimedia data engineering and management.

International Journal of Creative Interfaces and Computer Graphics

**Editor(s)-in-Chief:** Dr. Ben Falchuk (Applied Communication Sciences, USA) and Dr. Adérito Fernandes-Marcos (Universidade Aberta, Portugal)

Provides coverage of the most innovative and cutting-edge computer graphics and interfaces. IJCIIG focuses on the latest visual technologies that raise the bar for novelty, aesthetic beauty, sophistication, and utility.

International Journal of Handheld Computing Research

**Editor(s)-in-Chief:** Dr. Wen-Chen Hu (University of North Dakota, USA)

Combines research from academicians and industrialists across the globe on advanced tools and technologies that perform wireless or mobile operations.

International Journal of Interactive Communication Systems and Technologies

**Editor(s)-in-Chief:** Prof. Rosanna E. Guadagno (The University of Texas at Dallas, USA)

Focuses on a broad spectrum of existing and emerging Internet-based social interaction technologies, including their applications, functions, and services.

International Journal of Vehicular Telematics and Infotainment Systems

**Editor(s)-in-Chief:** Prof. Daxin Tian (Beihang University, China), et al.

Presents and discusses the recent advances in theory and practice of vehicular systems. It will cover emerging research that aims at dealing with the challenges in designing the essential functional components of vehicular telematics.

International Journal of Embedded and Real-Time Communication Systems

**Editor(s)-in-Chief:** Prof. Sergey Balandin (FRUCT Oy, Finland)

An international refereed research journal integrating the disciplines of embedded systems, real-time systems, and communications system engineering.
Members of the Information Resources Management Association (IRMA) understand the importance of community within their field of study. The Information Resources Management Association is an ideal venue through which professionals, students, and academicians can convene and share the latest industry innovations and scholarly research that is changing the field of information science and technology. Become a member today and enjoy the benefits of membership as well as the opportunity to collaborate and network with fellow experts in the field.

**Become an IRMA Member and You Will Receive:**

- One free journal subscription
- 30% off additional journal subscriptions
- 20% off book purchases
- Updates on the latest events and research on Information Resources Management through the IRMA-L listserv
- Updates on new open access and downloadable content added to Research IRM
- A copy of the Information Technology Management Newsletter twice a year
- A certificate of membership

Medical, Healthcare, and Life Sciences

International Journal of Extreme Automation and Connectivity in Healthcare
Editor(s)-in-Chief: Prof. Sabah Mohammed (Lakehead University, Canada) and Prof. Jinan Fiaidhi (Lakehead University, Canada)
An academic journal for a range of emerging research issues related to the digital transformations in the Healthcare paradigm. Today’s world is wired differently compared to the past few years where almost everything can be made ubiquitously. Extreme connectivity enables more universal, global, and close-to-instant communication.

International Journal of Reliable and Quality E-Healthcare
Editor(s)-in-Chief: Dr. Anastasius Mourtzoglou (Hellenic Society for Quality & Safety in Healthcare and P & A. Kyriakou Children’s Hospital, Greece)
Addresses a variety of issues that relate to the quality and reliability assurance of e-healthcare, patient safety, patient empowerment, and e-medicine. The journal publishes international cutting-edge research and best practices in the field of e-health and quality and reliability assurance.

International Journal of Privacy and Health Information Management
Editor(s)-in-Chief: Dr. Ernesto Jimenez-Ruiz (University of Oslo, Norway)
Publishes original research and reviews on all aspects of privacy and health information management. The journal serves as a unique venue for researchers as well as practitioners interested in reviewing the latest research on application of computational methods to various aspects of privacy and the management of healthcare information.

International Journal of Healthcare Information Systems and Informatics
Editor(s)-in-Chief: Prof. Joseph Tan (McMaster University, Canada)
Disseminates current technological innovations and applications in the emerging field of information systems and informatics applications in the healthcare industry while directing frameworks to advancing healthcare and clinical practices and research.

International Journal of Quantitative Structure-Property Relationships
Editor(s)-in-Chief: Dr. Kunal Roy (Jadavpur University, India)
A new journal that will explore the latest research surrounding the topic of Quantitative Structure-Property Relationship (QSPR) models and the applications of these models across the fields of materials science, chemical engineering, pharmaceutical and medicinal chemistry, pharmacokinetics, toxicology (including ecotoxicology), and agricultural sciences, among others.

International Journal of Systems Biology and Biomedical Technologies
Editor(s)-in-Chief: Dr. Tagelsir Mohamed Gasmelseid (International University of Africa, Sudan)
Explores the scientific foundations involved in Systems Biology and advanced engineering models for Biomedical Technology development. The journal covers a variety of disciplines ranging from the biological and the mathematical foundations of Systems Biology to artificial life and bioengineering.
Security and Forensics

International Journal of Monitoring and Surveillance Technologies Research

**Editor(s)-in-Chief:** Prof. Nikolaos Bourbakis (Wright State University, USA), et al.

Serves as a unique forum where knowledge from the healthcare, safety, and privacy fields can be synergistically blended. This multi-disciplinary journal publishes research on theoretical, clinical, and practical achievements in the fields of bioengineering, medicine, computer engineering, assistive technologies, and smart surveillance systems.

International Journal of Cyber Warfare and Terrorism

**Editor(s)-in-Chief:** Dr. Graeme Pye (Deakin University, Australia)

Publishes original innovative findings on ethical, political, legal, and social issues relating to security and cybernetic wars. This journal focuses on cyber warfare and terrorism using examples from around the world. IJCWT covers technical aspects, management issues, social issues, and government issues that relate to cyber warfare and terrorism.

International Journal of Cyber Research and Education

**Editor(s)-in-Chief:** Dr. Lawrence A. Tomei (Robert Morris University, USA)

Covers applied, theoretical, and operational research, sponsored academic education and corporate training, and the application to knowledge in academia, government, corporate, and law enforcement. The journal will provide a unique place for scholars and practitioners to address emerging cyber and law enforcement challenges which are growing in scope and urgency as countries around the world are becoming increasingly dependent on digital information and networks.
International Journal of Digital Crime and Forensics

Editor(s)-in-Chief: Dr. Wei Qi Yan (Auckland University of Technology, New Zealand)

Provides state-of-the-art coverage in the development of legal evidence found in computers and electronic storage mediums. IJDCF addresses the use of electronic devices and software for crime prevention, investigation, and the application of a broad spectrum of sciences to answer questions of interest to the legal system. This fully refereed journal contains high quality theoretical and empirical research articles, research reviews, case studies, book reviews, tutorials, and editorials in this field.

International Journal of Technoethics

Editor(s)-in-Chief: Prof. Rocci Luppicini (University of Ottawa, Canada)

Advances scholarship on the impact of ethics in technological advances and applications, both in established areas (e.g. computer ethics, engineering ethics, and biotech ethics) and new areas of research (e.g. nanotechnology, artificial morality, and neuroethics). As a semi-annual journal that publishes empirical research, theoretical studies, innovative methodologies, practical applications, case studies, and book reviews, IJT provides moral and ethical aspects of technology in society.

International Journal of Information Security and Privacy

Editor(s)-in-Chief: Prof. Li Yang (University of Tennessee at Chattanooga, USA) and Prof. Dalei Wu (University of Tennessee at Chattanooga, USA)

Creates and fosters a forum where research in the theory and practice of information security and privacy is advanced. IJISP publishes high quality papers dealing with a wide range of issues, ranging from technical, legal, regulatory, organizational, managerial, cultural, ethical and human aspects of information security and privacy, through a balanced mix of theoretical and empirical research articles, case studies, book reviews, tutorials, and editorials.

International Journal of Technology and Human Interaction

Editor(s)-in-Chief: Dr. Anabela Mesquita (ISCAP/IPP and Algoritmi Centre, University of Minho, Portugal) and Prof. Chia-Wen Tsai (Ming Chuan University, Taiwan)

Aims to provide a platform for leading research that addresses issues of human and technology interaction. IJTHI seeks original contributions concerning any aspect of technology and human interaction dealing with the development, usage, failure, success, policies, strategies, and applications of them. The journal invites contributions from both scholars and practitioners involved in research, management, and the utilization of technology and human interaction.

International Journal of Systems and Society

Editor(s)-in-Chief: Prof. Frank Stowell (University of Portsmouth, UK)

The International Journal of Systems and Society (IJSS) is dedicated to support and encourage the publication of high quality articles that promote the way in which systems ideas are used. Papers are encouraged from practitioners, systems researchers, and systems academics. The focus of the journal is on the use and development of systems ideas within society and less on literature reviews, although some instances may occur where such papers are accepted. The journal encourages field research and research into real situations. All papers undergo a double blind peer review process and the difference in style of practitioner papers from academic is acknowledged. In the long tradition of the Systemist, opinion papers are considered for publication at the discretion of the Editor-in-Chief.

International Journal of Civic Engagement and Social Change

Editor(s)-in-Chief: Dr. Susheel Chhabra (Periyar Management and Computer College, India)

Governments, corporations, individuals, and civic society play essential roles in worldwide growth and development. Management of resources for socioeconomic development of society requires design, development, and implementation of value driven civic engagement processes, practices, and frameworks. These initiatives create an environment of public accountability to distribute benefits of development for the overall benefit of society. The International Journal of Civic Engagement and Social Change (IJCESC) compiles theoretical and empirical works that significantly contribute to the unexplored field of how bringing social change through civic engagement can enlarge public welfare activities.

Social Sciences and Humanities

International Journal of Information Communication Technologies and Human Development

Editor(s)-in-Chief: Prof. Hakikur Rahman (BRAC University, Bangladesh)

Information and communication technologies are directly influencing the way human beings are engaging themselves in their routine activities. The governance including socio-economic environment needs a catalyst for social change for human development. Currently, technologies are required to play the role of a catalyst to bring this social change for human development. The International Journal of Information Communication Technologies and Human Development (IJICTHD) will compile theoretical and empirical works that significantly contribute to the still unexplored field of how ICTs can make a difference in the lives of human beings and contribute to human development.

International Journal of E-Politics

**Editor(s)-in-Chief:** Prof. Yasmim Ibrahim (Queen Mary, University of London, United Kingdom) and Prof. Celia Romm Livermore (Wayne State University, USA)

Establishes the foundations of e-politics as an emerging interdisciplinary area of research and practice, as well as offers a venue for publications that focus on theories and empirical research on the manifestations of e-politics in various contexts and environments.

Journal of Organizational and End User Computing

**Editor(s)-in-Chief:** Prof. Steven Walczak (University of South Florida, USA)

The *Journal of Organizational and End User Computing (JOEUC)* provides a forum to information technology educators, researchers, and practitioners to advance the practice and understanding of organizational and end user computing. The journal features a major emphasis on how to increase organizational and end user productivity and performance, and how to achieve organizational strategic and competitive advantage. JOEUC publishes full-length research manuscripts, insightful research and practice notes, and case studies from all areas of organizational and end user computing that are selected after a rigorous blind review by experts in the field.

International Journal of Information Systems and Social Change

Editor(s)-in-Chief: Prof. John Wang (Montclair State University, USA)

The International Journal of Information Systems and Social Change (IJISSC) examines current, state-of-the-art research in the areas of information systems and social change, and the interactions, linkages, applications, and support of social change using information systems. This journal encompasses theoretical, analytical, and empirical research, comprehensive reviews of relevant research, technical reports, book reviews, and also case studies emphasizing the use of new frameworks, principles, technologies, methods, and techniques.

International Journal of Mobile Human Computer Interaction

Editor(s)-in-Chief: Dr. Joanna Lumsden (Aston University, UK)

Brings together a comprehensive collection of research articles from international experts on the design, evaluation, and use of innovative handheld, mobile, and wearable technologies. This journal will also consider issues associated with the social and/or organizational impacts of such technologies. Emerging theories, methods, and interaction designs are included and complemented with case studies, which demonstrate the practical application of these new ideas.

“The International Journal of Mobile Human Computer Interaction is a very valuable asset for researchers working in the mobile area. Before this journal came into existence, relevant references were scattered across so many journals and conferences that it was difficult to ensure that one had the best and most recent. That problem has thankfully been solved!”

– Gitte Lindgaard, Carleton University, Canada

International Journal of Cyber Behavior, Psychology and Learning

Editor(s)-in-Chief: Dr. Robert K. Atkinson (Arizona State University, USA)

Offers a forum for academic exchange of new ideas and research findings related to psychological aspects and serves as a vehicle for promoting techniques and methodologies derived from rigorous research and practices that use psychological and cognitive principles to design and develop cyber learning.

International Journal of Applied Behavioral Economics

**Editor(s)-in-Chief:** Prof. Rodica Ianole (University of Bucharest, Romania)

Encompasses how preferences, attitude, and behavioral issues influence economic agents involved in business and organizations. Special attention is given to the impact that globalization and digitalization have on businesses and organizations from a behavioral point of view.

---

International Journal of Social and Organizational Dynamics in IT

**Editor(s)-in-Chief:** Dr. Michael B. Knight (Texas A&M University - Kingsville, USA)

Provides an international forum for practitioners and researchers from social sciences, along with information systems professional practitioners to contribute and share developed, useful, and innovative research regarding the impact and future of IT in the workplace.

---

International Journal of Art, Culture and Design Technologies

**Editor(s)-in-Chief:** Prof. Jeffrey M. Morris (Texas A&M University, USA)

Links art, design, science, and culture with emerging technologies. IJACDT provides a forum for exchanging ideas and findings from researchers across the design, arts, and technology disciplines.

---

International Journal of Actor-Network Theory and Technological Innovation

**Editor(s)-in-Chief:** Prof. Ivan Tchalakov (Plovdiv University, Bulgaria)

Publishes research articles covering a wide range of topics related to Actor-Network Theory (ANT) and its use as a means of exploring socio-technical phenomena.

---

International Journal of People-Oriented Programming

**Editor(s)-in-Chief:** Prof. Steve Goschnick (Swinburne University, Australia)

Focuses on empowering individuals to conceptualise, design, program, configure and orchestrate Internet-powered, self-fashioned tools and products that ultimately suit the user’s own unique needs and aspirations.

---

International Journal of Advanced Pervasive and Ubiquitous Computing

**Editor(s)-in-Chief:** Prof. Tao Gao (Department of Automation, North China Electric Power University, Hebei Province, China)

Integrates the disciplines of pervasive and ubiquitous computing, internet of physical objects, wireless sensor networks, wireless communications, radio frequency identification, automatic identification, real-time localization, information processing, and more.

</table>
InfoSci®-Books
A collection of more than 3,900 cutting-edge e-books that fuel innovation and inspire change.

One-Time Perpetual Purchase for 2018© (505 e-books): US$ 20,850*

InfoSci®-Journals
A collection of more than 175+ peer-reviewed journals that provide pioneering research within emerging fields.

Annual Subscription Price for New Customers, As Low As: US$ 4,950*

InfoSci®-Subjects & Disciplines
Subject-specific and discipline collections covering 11 areas of research.

Contact IGI Global E-Resources for pricing.

InfoSci® Platform Features

Peer-Reviewed Content
• Cutting-edge research
• No embargoes
• Scholarly and professional
• Interdisciplinary

Award-Winning Platform
• Unlimited simultaneous users
• Full-text in XML and PDF
• Advanced search engine
• No DRM

Librarian-Friendly Features
• Free MARC records
• Discovery services
• COUNTER 4/SUSHI compliant
• Training available

Library Journal
Best Database
- Bonnie J.M. Swoger, Library Journal

"Well formatted; clear print and a responsive layout perfect for increasing text size or use on a mobile device. A table of contents appears on the left side of the navigation and moves with the user as they scroll through the contents. This provides easy access to other chapters as well as any supplementary materials associated with the title."

*Receive a 25% discount on IGI Global’s InfoSci-Database collection and all IGI Global publications when you sign up for a Library Account. Sign up today at: www.igi-global.com/library-account-program

For more information, contact: eresources@igi-global.com
Create a Library Account with IGI Global’s Online Bookstore

IGI Global offers Library Accounts for quick and easy print purchases, plus instant access to thousands of electronic titles through the award-winning InfoSci® platform. Visit www.igi-global.com for more details.

Library Account Benefits:

- A 25% discount on all purchases made directly through IGI Global!
- Multiple payment options
- Instant access to electronic purchases through IGI Global’s InfoSci® platform
- Product referrals and recommendations
- First-rate customer service
- Much more!

Take 20% Off Any Title Purchased Directly Through IGI Global’s Online Bookstore

Visit www.igi-global.com or scan the QR code to start your order today!

Celebrating 30 Years of Scholarly Knowledge Creation & Dissemination

WAYS TO ORDER

1. Order through the IGI Global Online Bookstore at www.igi-global.com
2. Call 1-866-342-6657 (toll free) or 717-533-8845 x100
3. Fax your order to 717-533-7115 24 hours a day, 7 days a week!
4. E-Mail your order to cust@igi-global.com
5. Mail to: IGI Global 701 E. Chocolate Avenue, Hershey, PA 17033, USA
6. Place your order with one of the IGI Global partners listed inside

Printed in the USA

Attn. Mailroom: If the addressee is no longer there, please forward this to another person interested in academic reference titles. To be removed, respond to cust@igi-global.com or fax 717-533-7115.
