Table of Contents

SPECIAL ISSUE ON COMPLEX SERVICE COMPUTING

GUEST EDITORIAL Preface

iv  Zhaohui Wu, Zhejiang University, Hangzhou, Zhejiang, China
    Jian Wu, Zhejiang University, Hangzhou, Zhejiang, China

RESEARCH ARTICLES

1  Event-Driven SOA Based District Heating Service System with Complex Event Processing Capability
    Xiuquan Qiao, State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China
    Budan Wu, State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China
    Yulong Liu, State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China
    Zhao Xue, State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China
    Junliang Chen, State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China

30  Stakeholder Identification and Analysis for Service Lifecycle Management
    Wenge Rong, State Key Laboratory of Software Development Environment, School of Computer Science and Engineering, Beihang University, Beijing, China, Research Institute of Beihang University in Shenzhen, Shenzhen, China
    Qifen Wu, School of Computer Science and Engineering, Beihang University, Beijing, China
    Yuantian Ouyang, State Key Laboratory of Software Development Environment, School of Computer Science and Engineering, Beihang University, Beijing, China, Research Institute of Beihang University in Shenzhen, Shenzhen, China
    Kecheng Liu, Informatics Research Centre, University of Reading, Reading, United Kingdom
    Zhang Xiong, State Key Laboratory of Software Development Environment, School of Computer Science and Engineering, Beihang University, Beijing, China, Research Institute of Beihang University in Shenzhen, Shenzhen, China

57  A Trust-Aware Search Engine for Complex Service Computing
    Mingdong Tang, Hunan University of Science and Technology, Xiangtan, China & State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications, Beijing, China
    Zibin Zheng, The Chinese University of Hong Kong, Hong Kong, China
    Liang Chen, Zhejiang University, Hangzhou, China
    Jianxun Liu, Hunan University of Science and Technology, Xiangtan, China
    Buqing Cao, Hunan University of Science and Technology, Xiangtan, China
    Zhengguang You, Hunan University of Science and Technology, Xiangtan, China

76  Deploying Data-Intensive Service Composition with a Negative Selection Algorithm
    Shiguang Deng, College of Computer Science and Technology, Zhejiang University, Hangzhou, China
    Longtian Huang, College of Computer Science and Technology, Zhejiang University, Hangzhou, China
    Ying Li, College of Computer Science and Technology, Zhejiang University, Hangzhou, China
    Jianwei Yin, College of Computer Science and Technology, Zhejiang University, Hangzhou, China

94  Optimizing Concurrency Performance of Complex Services in Mobile Environment
    Sudipan Mishra, Department of Computer Science, Rochester Institute of Technology, Rochester, New York, USA
    Xumin Liu, Department of Computer Science, Rochester Institute of Technology, Rochester, New York, USA
