EDITORIAL PREFACE

How May I Help You?

Donald Patrick Albert, Sam Houston State University, Huntsville, TX, USA

INTRODUCTION

There are sometimes opportunities for geographers to rise into administrative and leadership positions. These might be positions such as program coordinators, chairs, deans, editor-in-chiefs, executive directors, or other such postings. These opportunities ought to be accepted with a service mindset akin to the Walmart slogan, “How may I help you?” The oft heard cliché, “The best leaders are the ones who don’t ask for the job” has been more true than false from my own personal experience. Too often leadership positions are filled with the least inspiring individuals fulfilling delusions of grandeur while hoping to ingratiate themselves with other administrators at the next (higher) rung of the organizational hierarchy. This fosters a “them” versus “us” atmosphere that stifles cooperation and productivity while reducing employee satisfaction. Excellent leaders delight in the accomplishments of those under their charge. In the end, successful individuals translate into flourishing programs, departments, colleges, journals, or organizations. Let me encourage those selfless individuals that are creative, dynamic, and passionate to migrate into the leadership vacuum generated by deposed, retired, and otherwise removed lieutenants of academia. While the field of applied geography is, and has been, blessed with exceptional leaders, there remain opportunities to reestablish sanity here and there. We must not settle for poor leaders because there are “no others alternatives,” but demand selfless, intelligent, and visionary leaders to champion our efforts.

CALL FOR PAPERS

The editor-in-chief of the International Journal of Applied Geospatial Research (IJAGR) is encouraging manuscript submissions for regular issues from across the physical, environmental, and human geographies. This journal offers policy analysts, geospatial practitioners, and academicians with studies exemplifying various application domains within applied geospatial research. Manuscripts can be uploaded to IGI Global’s Journal Online Submission System available from http://www.igi-global.com/submission/submit-manuscript/. For more information, visit IJAGR’s website: www.igi-global.com/IJAGR or contact Donald P. Albert, Editor-in-Chief, International Journal of Applied Geospatial Research, Department of Geography and Geology, LDB #332, Sam Houston State University, 1900 Ave I, Huntsville, Texas 77341-2148, USA. Phone: 936-294-1453; E-mail: geo_dpa@shsu.edu.

Donald Patrick Albert
Editor-in-Chief
IJAGR

Donald Patrick Albert is a professor of geography in the Department of Geography and Geology at Sam Houston State University (Texas, U.S.A.). He earned geography degrees from Salem State College (B.S.), Appalachian State University (M.A.), and the University of North Carolina at Chapel Hill (Ph.D.).
