The papers presented in the ICCM 2015 went through strict refereeing and examination resulting in a current rejection rate of 67.6%. We are delighted to say that this is in no small part due to the hard work the editorial board and reviewers, in not only refereeing the papers submitted but raising the standard of the quality of papers that we will publish. We ask that we do not stop here but carry on with this work and further improve the papers published, and hence the Conference's standing in the scientific community. To all of the editorial board and reviewers we give my personal thanks and congratulations.

Last but not least, we would like to thank our co-chairs, especially Mr P K Mishra, Professor, BHU India and all the organizing and scientific committee members for their contribution to the organization of this conference.
