

## Guest Editorial Preface

# Special Issue on International Conference on Smart Computer Applications and Innovations (ICSCAI) 2018

Bhakti Ahirwadkar, MIT Engineering College, Aurangabad, India

Mahendra Kondekar, MIT Engineering College, Aurangabad, India

Radhakrishna Naik, MIT COE, Pune, India

Dear Authors and Delegates,

We are very happy to introduce the Second Special issue of International Conference on Smart Computer Applications and Innovations (ICSCAI-2018). This second special issue features research work presented at the ICSCAI-2018 held on December 21<sup>st</sup> and 22<sup>nd</sup> December 2018 at Marathwada Institute of Technology, Aurangabad, Maharashtra, India organized by Department Computer Science and Engineering and Department of Computer Applications. It discusses advanced, multi-disciplinary research in the areas of smart computing, information systems, data science, AI, networking, image processing and other emerging areas focusing on innovation paradigms in system knowledge, intelligence and sustainability that can be applied to provide feasible solutions to varied problems in society, the environment and industry. It also addresses the deployment of emerging computational and knowledge transfer approaches, optimizing solutions in a variety of disciplines of computer science and computer applications.

We thank all the authors for their expert inputs. We would like to express our deep gratitude to all the members of the organizing committee for their efforts in getting significant input of papers. We are also indebted to reviewers in particular for assessing the manuscripts keenly. Also, we take this opportunity to thank the keynote speakers and chairpersons for sessions for sharing their expertise and wisdom. Finally, we are grateful to all those who have imparted their efforts towards the success of the International Conference on Smart Computer Applications and Innovations (ICSCAI-2018).
