Table of Contents

Prologue ............................................................................................................................................. xviii

Section I
Fundamental Concepts and Theories

Chapter I
Knowledge, Culture, and Society in the Information Age................................................................. 1
  Pier Cesare Rivoltella, Università Cattolica del Sacro Cuore, Italy

Chapter II
Digital Divide: Introduction to the Problem......................................................................................... 21
  Liudmila Burtseva, Academy of Sciences of Moldova Institute of Mathematics and
  Computer Science, Moldova
  Svetlana Cojocaru, Academy of Sciences of Moldova Institute of Mathematics and
  Computer Science, Moldova
  Constantin Gaindric, Academy of Sciences of Moldova Institute of Mathematics and
  Computer Science, Moldova
  Galina Magariu, Academy of Sciences of Moldova Institute of Mathematics and
  Computer Science, Moldova
  Tatiana Verlan, Academy of Sciences of Moldova Institute of Mathematics and
  Computer Science, Moldova

Chapter III
Global Digital Divide, Global Justice, Cultures, and Epistemology .............................................. 37
  Soraj Hongladarom, Chulalongkorn University, Thailand

Chapter IV
Digital Literacy and Cultural Mediations to the Digital Divide...................................................... 51
  Monica Fantin, Universidade Federal De Santa Catarina (UFSC), Brazil
  Gilka Girardello, Universidade Federal De Santa Catarina (UFSC), Brazil

Chapter V
Cultural Impact on Global Knowledge Sharing ................................................................................. 75
  Timothy Shea, University of Massachusetts Dartmouth, USA
  David Lewis, University of Massachusetts Lowell, USA
Chapter VI
E-Government, Democratic Governance and Integrative Prospects for Developing Countries:
The Case for a Globally Federated Architecture .......................................................... 91
Jeffrey Roy, University of Ottawa, Canada

Section II
Development and Design Methodologies

Chapter VII
Capacity Development Initiatives for Marginal Communities: A Few Case Studies.................. 110
M. Aminul Islam, United Nations Development Program, Bangladesh
Elena Murelli, Università Cattolica del Sacro Cuore, Italy
Frederick Noronha, BytesforAll, India
Hakikur Rahman, Sustainable Development Networking Program, Bangladesh

Chapter VIII
How to Globalize Online Course Content ........................................................................ 134
Martin Schell, New York University, USA

Chapter IX
The Diffusion of New Technologies: Community Online Access Centres in Indigenous
Communities in Australia .................................................................................................. 145
Anne Daly, University of Canberra, Australia

Chapter X
Global Knowledge Management Technology Strategies and Competitive Functionality from
Global IT in the International Construction Industry......................................................... 155
William Schulte, Shenandoah University, USA
Kevin J. O’Sullivan, New York Institute of Technology, USA

Section III
Tools and Technologies

Chapter XI
Cross-Cultural Adaptation of E-Learning ......................................................................... 169
Emmanuel Blanchard, University of Montréal, Canada
Claude Frasson, University of Montréal, Canada

Chapter XII
Globalisation and New Technology: The Challenge for Teachers to Become “Translators” and
Children, Knowledge Seekers ....................................................................................... 182
André H. Caron, Université de Montréal, Canada
Chapter XIII
Modern Technology and Mass Education: A Case Study of a Global Virtual Learning System……. 194
Ahmed Ali, University of Wisconsin – LaCrosse, USA

Chapter XIV
GlobalMind: Automated Analysis of Cultural Contexts with Multicultural Common-Sense Computing.................................................................................................................. 205
Hyemin Chung, The Media Laboratory MIT, USA
Henry Lieberman, The Media MIT, USA

Chapter XV
Challenges in Building a Culture-Centric Web Site ................................................................. 230
Tom S. Chen, Southern NH University, USA

Section IV
Utilization and Application

Chapter XVI
Cultural Effects on Technology Performance and Utilization: A Comparison of U.S. and Canadian Users .................................................................................................................. 245
Susan K. Lippert, Drexel University, USA
John A. Volkmar, Otterbein College, USA

Chapter XVII
Balancing Local Knowledge within Global Organisations through Computer-Based Systems: An Activity Theory Approach......................................................................................... 277
Somya Joshi, National Technical University of Athens, Greece
Michael Barrett, University of Cambridge, UK
Geoff Walsham, University of Cambridge, UK
Sam Cappleman, Hewlett-Packard Ltd., UK

Chapter XVIII
Global Information Ethics: The Importance of Being Environmentally Earnest ....................... 294
Luciano Floridi, Università degli Studi di Bari, Italy & Oxford University, UK

Chapter XIX
Envisioning a National E-Medicine Network Architecture in a Developing Country:
A Case Study .................................................................................................................................. 306
Fikreyohannes Lemma, Addis Ababa University, Ethiopia
Mieso K. Denko, University of Guelph, Canada
Joseph K. Tan, Wayne State University, USA
Samuel Kinde Kassegne, San Diego State University, USA
Chapter XX
E-Government Strategies in Developed and Developing Countries: An Implementation Framework and Case Study ................................................................. 327
   Y. N. Chen, Western Kentucky University, USA
   H. M. Chen, Shanghai Jiaotong University, China
   W. Huang, College of Business, Ohio University, USA
   R. K. H. Ching, California State University, USA

Section V
Critical Issues

Chapter XXI
   Hongxin Zhao, Saint Louis University, USA
   Seung Kim, Saint Louis University, USA
   Taewon Suh, Texas State University – San Marcos, USA
   Jianjun Du, University of Houston – Victoria, USA

Chapter XXII
A Time Series Analysis of International ICT Spillover ........................................................... 373
   Juan Juan Zhang, National University of Singapore, Singapore
   Sang-Yong Tom Lee, Hanyang University, Korea

Chapter XXIII
ICT Based Learning: A Basic Ingredient for Socio-Economic Empowerment ......................... 387
   Hakikur Rahman, SDNP, Bangladesh

Chapter XXIV
IT Implementation in a Developing Country Municipality: A Socio-Cognitive Analysis ............. 400
   Clive Sanford, Aalborg University, Denmark
   Anol Bhattacherjee, University of South Florida, USA

Chapter XXV
Cultural Diversity Challenges: Issues for Managing Globally Distributed Knowledge Workers in Software Development ..................................................... 420
   Haiyan Huang, The Pennsylvania State University, USA
   Eileen M. Trauth, The Pennsylvania State University, USA
Section VI  
Emerging Trends

Chapter XXVI  
E-Government Payoffs: Evidence from Cross-Country Data .......................................................... 438  
   Shirish C. Srivastava, National University of Singapore, Singapore  
   Thompson S. H. Teo, National University of Singapore, Singapore

Chapter XXVII  
Going Global: A Technology Review ................................................................................................ 458  
   Mahesh S. Raisinghani, Texas Woman’s University, USA  
   Denise Taylor, University of Dallas, USA

Chapter XXVIII  
Indigenous Knowledges and Worldview: Representations and the Internet ................................. 470  
   Judy Iseke-Barnes, University of Toronto, Canada  
   Deborah Danard, University of Toronto, Canada

Index ................................................................................................................................................ 478
