Table of Contents

Preface ................................................................................................................................................ xvi

Acknowledgment ................................................................................................................................ xxi

Chapter 1
Online Mathematics Teacher Education: Examples From Professional Learning Programs for
Inservice Teachers ................................................................................................................................. 1

Jennifer Chauvot, University of Houston, USA
Stephen J. Pape, Johns Hopkins University, USA
Sherri K. Prosser, Austin Peay State University, USA
Kimberly Hicks, Houston Independent School District, USA

Chapter 2
Assessing Program Outcomes of an M.Ed. Curriculum and Instruction Program: A Comparison
of Face-to-Face to Completely Online Deliverables ............................................................................ 22

James A. Telese, University of Texas Rio Grande Valley, USA
Gregory Chamblee, Georgia Southern University, USA

Chapter 3
The Role of VoiceThread in Supporting Effective Mathematical Discussions Online ..................... 41

Chryystal Dean, Appalachian State University, USA
Tracy Goodson-Espy, Appalachian State University, USA

Chapter 4
Supporting Mathematics Teaching Practices in Online Teacher Education: An Example Using
Logarithms, pH, and Synchronous Course Meetings ............................................................................ 55

David Glassmeyer, Kennesaw State University, USA

Chapter 5
Online Tools With Synchronous Learning Environments .................................................................... 68

Kerri Richardson, The University of North Carolina at Greensboro, USA
Chapter 6
Hybrid Courses for Preparing Elementary Mathematics Specialists: Challenges, Successes, and Lessons Learned ................................................................. 79
  Kathleen Pitvorec, Learning Sciences Research Institute, University of Illinois at Chicago, USA
  Mary Jo Tavormina, Learning Sciences Research Institute, University of Illinois at Chicago, USA

Chapter 7
Preservice Teacher Perceptions on the Design of a U-Pace Online Course Compared to a Conventional Face-to-Face Mathematics Content Course ................................................................. 99
  Mary N. Gichobi, University of Wisconsin-Green Bay, USA
  Todd Dresser, University of Wisconsin-Green Bay, USA
  Nathan Kraftcheck, University of Wisconsin-Green Bay, USA

Chapter 8
Engaging Mathematically in Synchronous Platforms: Examples and Insights ......................................................... 119
  Eileen Fernández, Montclair State University, USA
  Eliza Leszczyński, Montclair State University, USA

Chapter 9
Using the SAMR and UDL Models to Differentiate Online Instruction: The Case of Desmos ........ 141
  Joanne Caniglia, Kent State University, USA
  Michelle Meadows, Tiffin University, USA

Chapter 10
Comparison of Student Achievement and Problem-Solving Techniques for Integration Between Online and Face-to-Face Calculus Courses ................................................................. 158
  Sarah Ferguson, Old Dominion University, USA

Chapter 11
Synchronous Online Model for Mathematics Teachers’ Professional Development .................. 176
  Jeffrey Choppin, University of Rochester, USA
  Julie M. Amador, University of Idaho, USA
  Cynthia Callard, University of Rochester, USA
  Cynthia Carson, University of Rochester, USA
  Ryan Gillespie, University of Idaho, USA

Chapter 12
Online Mathematics Teacher Professional Development ................................................................. 203
  Sandra B. Nite, Texas A&M University, USA
  Ali Bicer, University of Wyoming, USA
Chapter 13
Strategies and Tools for Promoting Discourse During Mathematics Problem-Solving in Online Settings .................................................................................................................. 216
Shelby P. Morge, University of North Carolina Wilmington, USA
Catherine S. Schwartz, East Carolina University, USA
Tracy Hargrove, University of North Carolina Wilmington, USA

Chapter 14
Learning to Teach Mathematics Online: An Action Research Study .................................................. 234
Patrick Wachira, Cleveland State University, USA

Chapter 15
Facilitating Mathematical Discourse in Online Learning Environments ........................................ 245
Kanita K. DuCloux, Western Kentucky University, USA

Chapter 16
Formative Assessment Online via Flipped Interactive Screencasts .................................................. 257
Shande King, The University of Tennessee, USA

Chapter 17
An Analysis of Turkey’s Recent Middle School Mathematics Teaching Programs Within the Context of the Learning-Teaching Processes .................................................................................. 273
Lutfi Incikabi, Kastamonu University, Turkey
Ramazan Uysal, Kastamonu University, Turkey

Compilation of References ............................................................................................................. 287
About the Contributors .................................................................................................................. 315
Index .............................................................................................................................................. 323
