## Table of Contents

Preface .................................................................................................................................................. xvi

### Section 1  
Supply Chain Governance and Relationships

#### Chapter 1  
Relational Attributes in Supply Chain Relationships .................................................................................. 1  
   *Sweety Law, California State University, East Bay, USA*  
   *Jacques Verville, University of British Columbia, Okanagan, Canada*  
   *Nazim Taskin, University of British Columbia, Okanagan, Canada*

#### Chapter 2  
B2B Relationships in Modern Times: Implications of Relation-Specific Information Systems on Governance Forms ................................................................................................................. 25  
   *Gøril Hannås, University of Agder, Norway*  
   *Otto Andersen, University of Agder, Norway*

#### Chapter 3  
Supply Chain Partner’s Perceptions of Trust and Risk: The Perspectives of UAE Printing and Packaging Industry........................................................................................................................................ 48  
   *Mohammed Laeequddin, Express Flexi Pack, UAE*  
   *B. S. Sahay, Indian Institute of Management, India*  
   *Vinita Sahay, Institute of Management Technology, India*  
   *K. Abdul Waheed, Institute of Management Technology, UAE*

#### Chapter 4  
An Empirical Test of the Information Processing Theory .................................................................................. 66  
   *Honggeng Zhou, University of New Hampshire, USA*
Section 2
Transportation Management

Chapter 5
Discrete-Event Simulation Models for Assessing Incidents in Railway Systems ......................... 83
Álvaro García Sánchez, Universidad Politécnica de Madrid, Spain
Miguel Ortega-Mier, Universidad Politécnica de Madrid, Spain
Roberto Arranz, Universidad Politécnica de Madrid, Spain

Chapter 6
Minimizing Empty Truck Loads in Round Timber Transport with Tabu Search Strategies ............ 97
Patrick Hirsch, University of Natural Resources and Applied Life Sciences, Vienna, Austria

Chapter 7
Solving Vehicle Routing Problems Using Constraint Programming and Lagrangean Relaxation in a Metaheuristics Framework ................................................................. 123
D. Guimarans, Universitat Autònoma de Barcelona, Spain
R. Herrero, Universitat Autònoma de Barcelona, Spain
J. J. Ramos, Universitat Autònoma de Barcelona, Spain
S. Padrón, Universitat Autònoma de Barcelona, Spain

Chapter 8
Optimizing Routes with Safety and Environmental Criteria in Transportation Management in Spain: A Case Study ................................................................. 144
Javier Faulin, Public University of Navarre, Spain
Fernando Lera-López, Public University of Navarre, Spain
Angel A. Juan, Open University of Catalonia, Spain

Section 3
Inventory and Logistics Management

Chapter 9
Effects of Vendor-Managed Inventory on the Bullwhip Effect ................................................. 167
Susanne Hohmann, FOM University of Applied Sciences and HAVI Global Solutions, Germany
Stephan Zelewski, University of Duisburg-Essen, Germany

Chapter 10
Genetic Algorithm and Particle Swarm Optimization for Solving Balanced Allocation Problem of Third Party Logistics Providers ......................................................... 184
R. Rajesh, Noorul Islam University, India
S. Pugazhendhi, Annamalai University, India
K. Ganesh, IBM India Private Limited, India
Chapter 11
Analysis of Reverse Logistics Operations for a Computer Company .......................................................... 204
   Albert Wee Kwan Tan, National University of Singapore, Singapore
   Arun Kumar, Royal Melbourne Institute of Technology, Australia
   Balan Sundarakani, University of Wollongong, UAE

Section 4
Manufacturing Systems

Chapter 12
Solving a Bi-Criteria Hybrid Flowshop Scheduling Problem Occurring in Apparel Manufacturing .......................................................... 214
   Jairo R. Montoya-Torres, Universidad de La Sabana, Colombia
   Fabián Vargas-Nieto, Finotex S.A., Colombia

Chapter 13
Modeling of Hybrid Production Systems with Constant WIP and Unreliable Equipment ................. 235
   Mehmet Savsar, Kuwait University, Kuwait

Section 5
Industry Studies

Chapter 14
Supply Chain Management Practices of Indian Automobile Industry .......................................................... 258
   B. S. Sahay, Indian Institute of Management, India
   Vikram Sharma, Galgotias College of Engineering and Technology, India
   G. D. Sardana, Birla Institute of Management Technology, India

Chapter 15
Reconfiguring Supply Chains for a Global Automotive Industry .......................................................... 276
   Leslie S. Hiraoka, Kean University, USA

Chapter 16
Development of Holistic Framework Incorporating Collaboration, Supply-Demand Synchronization, Traceability and Vertical Integration in Agri-Food Supply Chain .................................................. 294
   Sanjay Sharma, National Institute of Industrial Engineering (NITIE), Mumbai, India
   Sanjaysingh Vijaysingh Patil, G. H. Raising College of Engineering & Management, Pune, India

Compilation of References ............................................................................................................. 324

About the Contributors .................................................................................................................. 363

Index ........................................................................................................................................... 369
