REFERENCES (SUBHEAD STYLE 1: ARIAL, SIZE 12, BOLD, ALL CAPS)

It is your responsibility to ensure that all information in your paper that is taken from another source is substantiated with an in-text reference citation. Please also note that your references must strictly follow APA (American Psychological Association) style. NOTE: The publisher may return your chapter to you for correction if you do not properly format your references. Note that this will delay the production process, and ultimately, the release of the book. References should relate only to the material you actually cited within your chapter (this is not a bibliography), and they should be listed in alphabetical order. Please do not include any abbreviations.

While some examples of references in APA style are included below, it is highly recommended that you reference an actual APA style manual (5th edition). If you do not own an APA style manual, you may either 1) consult your library or 2) visit APA’s Web site to order your own copy:
