Handbook of Research on Instructional Systems and Technology

Volume I

Terry T. Kidd
*University of Texas Health Science Center School of Public Health, USA*

Holim Song
*Texas Southern University, USA*
The Handbook of Research on Instructional Systems and Technology is a comprehensive resource for researchers, educators, administrators, and others in the context of instructional systems and technology. The book provides information on different styles of instructional design methodologies, tips, and strategies on how to use technology to facilitate active learning and techniques to help faculty and researchers develop online instructional and teaching materials. It enables libraries to provide a foundational reference for researchers, educators, administrators, and others in the context of instructional systems and technology. The book includes bibliographical references and an index.

1. Instructional systems--Design. 2. Educational technology. 3. Educational innovations. I. Kidd, Terry. II. Song, Holim.
