The Editor-in-Chief of the *Journal of Information Technology Research* (JITR) would like to invite you to consider submitting a manuscript for inclusion in this scholarly journal. The following describes the mission, the coverage and the guidelines for submission to JITR.

**MISSION:**
The *Journal of Information Technology Research* (JITR) seeks to provide evidential research on groundbreaking and emerging areas of information science and technology, with particular focus on breaking trends in medical informatics, social computing and biotechnology. In endeavoring to fulfill the objectives of providing a scholarly and quality outlet for innovative topics, trends and research in the field of IT, the JITR will succeed in expanding the availability of the most prominent, principal and critical concepts that will form the knowledge society of the future.

**COVERAGE/MAJOR TOPICS:**
The Journal of Information Technology Research (JITR) covers novel and emerging research in the field of information science and technology, with major emphasis on the most innovative areas related to biocomputing, medical informatics, anthropocentric computing, and underrepresented technologies and trends influencing the knowledge society.

All submissions should be emailed to:
Mehdi Khosrow-Pour, Editor
JITR
701 E. Chocolate Ave.,
Hershey, PA 17033-1240, USA
jitr@igi-global.com

For Full Submission Guidelines, please turn to the back of this journal or visit the IGI Global website at www.igi-global.com.

Ideas for Special Theme Issues may be submitted to the Editor-in-Chief.

Please recommend this publication to your librarian. For a convenient easy-to-use library recommendation form, please visit: http://www.igi-global.com/JITR and click on the "Library Recommendation Form" link along the left margin.
Knowledge of IT Project Success and Failure Factors: Towards an Integration into the SDLC
